cheng.zhang@bernsteinsg.com

For the second session of our Gen AI in Asset Management Innovator Series, Season 2, we hosted Bryan Healey, CTO & Co-Founder of Aiera, and Gavin Skinner, COO of Aiera. In this short note, we present key takeaways from the session. For replay - [click here](#). For previous sessions, see - [Perplexity replay](#).

Aiera is the first sell-side approved, AI enabled tech solution for research

distribution and consumption: Aiera is backed by a consortium of 10 major global research providers (along with Third Bridge for expert network), with the objective of addressing one of the industry's most pressing challenges: enabling AI-driven access to proprietary broker research while preserving intellectual property rights, compliance requirements, entitlement controls, and research-provider economics. It has been guided by major buy-side firms as advisors to create a flexible AI-enabled content delivery and access platform.

Bernstein is a research contributor to Aiera and a member of Aiera's Research Advisory Board. Societe Generale, Bernstein's ultimate parent company, is an investor in Aiera and has a board seat on the Company's Board of Directors, occupied by Bernstein Research Management.

Aiera's unique proposition: 1) Exclusive permission from brokers to fine-tune

AI models on historical context: Aiera is the only platform which has been granted permission by the consortium brokers to use their historical research for fine-tuning, resulting in much better quality outputs. **2) Enrichment services such as custom embedding models, ontology, grammar templates etc.** — Aiera offers enrichment services which are modules that go into the main Aiera platform but are also offered as separate components. These are particularly useful for buy-side firms that are building their AI systems internally. Some examples are -custom embedding models trained on financial and broker-research content to improve search relevance and retrieval quality, proprietary ontology capable of understanding relationships between documents and companies and grammar templates/output classifiers that act as guide for AI model to ensure professional/analyst tone rather than being generic. **3) Platform-agnostic distribution** - Aiera is designed to deliver proprietary content wherever clients choose to work. Through MCP and API connectivity, clients can combine Aiera's data, retrieval and governance layers with external LLMs or third party AI platforms or their internal AI infrastructure while retaining content entitlements and controls. **4) One single legal contract:** Aiera enables buy-side to have a single legal contract for content access rather than entering into legal contracts separately with all brokers. The legal contract ensure all key aspects of AI processing, training, third-party AI tools, distribution and attribution have clear standards depending on the type of content being accessed (broker research/experts or events/fillings) and the channel of delivery (dashboards/mobile or API/MCP or bulk-feed). **5) Flexible/modular pricing:** Aiera offers modular pricing and implementation options rather than bundled product packages. They sell licenses separately for MCPs/APIs, bulk feeds, enrichment services etc. vs. bundled pricing that is usually how legacy platforms' pricing works. **[continued]...**

...[continued]

Alignment with both buy-side & sell-side: The adoption of AI creates a conflict between buy-side demand for frictionless access to proprietary research and sell-side requirements to protect valuable IP and control how AI consumes/represents research. Aiera attempts to bridge these requirements: **1) For the sell side:** IP protection, entitlement management, attribution, controlled AI usage and more enhanced consumption metrics such as ping/summary/read **2) For the buy side:** Simplified access through multiple channels such as through Aiera's platform or MCP connectivity in any LLM like Claude/ChatGPT or any vertical AI platform like Rogo/ModelML or in a company's internal AI system.

Other content available through Aiera: Over and above broker research, Aiera also provides other financial data access such as- Earnings and conference call transcripts, Investor events and corporate presentations, regulatory filings, market news, expert network content through Third Bridge, company-published documentations. The platform currently monitors more than 60,000 events annually and maintains approximately eight years of transcript and event history. Coverage includes approximately 14,000 equities globally (50% US), alongside inside tracks on broker conferences, the broadest human reviewed transcripts, macroeconomic, and corporate events. Since launch, Aiera has signed agreements with 20 additional research providers and actively engaging with 400+ boutique research providers.

Key takeaways from fire-side chat: 1) Diversity of response & direct quotations: Bryan highlighted that the platform gives fair chance to all broker content rather than skewing towards big brokers with huge coverage by introducing penalties if any one broker is dominating the top 50 results. The system also monitors users' engagement with broker content and the preference slowly starts to boost the results from those brokers. The platform has also been designed to bias outputs toward direct quotations, citations, and source-backed evidence rather than unsupported model-generated inferences. **2) Aiera's pricing strategy:** The company offers modular pricing depending on delivery method and content requirements unlike most legacy platforms. The standard user-interface offering begins at approximately US\$5,000 per seat annually, with volume discounts available. Separate pricing exists for APIs, MCP endpoints, enrichment services, transcripts, and data feeds. **3) AI adoption trends so far:** Gavin emphasized that AI adoption remains highly fragmented, with no clear industry best practice emerging yet. Larger firms are generally investing more heavily in proprietary AI infrastructure, while smaller firms are relying on third-party AI solutions. Compute economics and model selection are becoming increasingly important considerations. Clients building internally through Aiera's MCP endpoints have greater flexibility to determine which models to use, how much reasoning compute to allocate, and how to optimize infrastructure cost. In contrast, clients using Aiera's hosted solutions effectively incorporate compute costs into the subscription.

Aiera's role in an AI-driven content world: The traditional research consumption is expected to change as machines would increasingly discover and summarize research on behalf of users. Hence, the volume of consumption would come from ping or summary (AI summarization or AI using research content for analysis purposes) rather than traditional clicks/reads and the consortium was designed with these new metrics and transition in mind. Bryan also highlighted that as leading models converge in overall reasoning capability and benchmark improvements begin to moderate, the differentiation would emerge from proprietary data access and tool calling, which is where Aiera fits well.

Expected enhancements in the next 6 months - Aiera is expected to roll out the following features: 1) Agentic research workflows and scheduled automation 2) Additional content providers and proprietary datasets 3) Enhancements to the mobile app.

AIERA BACKGROUND AND ITS VISION IN FINANCIAL INDUSTRY

We hosted **Bryan Healey, CTO & Co-Founder of Aiera, and Gavin Skinner, COO of Aiera**, for the second session of Season 2 of our Gen AI in Asset Management Innovator Series. A key theme throughout the discussion was that the future of research consumption will increasingly shift from traditional document readership toward machine-driven discovery, summarization, and AI-assisted analysis. Aiera aims to become the standardized infrastructure supporting this transition as the first sell-side approved AI enabled research distribution platform. We share below key insights from our discussion-

AIERA - SELL-SIDE CONSORTIUM PROVIDING AI-ENABLED RESEARCH SOLUTION

Aiera is positioning itself as the infrastructure layer connecting proprietary sell-side research content with modern AI workflows. The company was established through a **consortium** involving major global research providers (10 key brokers to begin with + Third Bridge for expert network) and buy-side advisory participants (13 big buy side firms), with the objective of addressing one of the industry's most pressing challenges: enabling AI-driven access to proprietary broker research while preserving intellectual property rights, compliance requirements, entitlement controls, and research-provider economics.

The need to create a consortium: Research providers (sell-side) increasingly faced requests to allow large language models, internal AI systems, and third-party platforms to access proprietary research content, raising concerns around intellectual property protection, content ownership, model training, and output accuracy. To address these concerns, Aiera assembled a consortium of leading research providers that granted permission for the company to utilize historical research archives for model training, fine-tuning, enrichment services, and workflow development. According to management, this represents one of the industry's broadest collections of licensed broker research content used specifically for AI-enabled applications. Alongside the sell-side consortium, Aiera established a dedicated buy-side advisory council to ensure product development remains aligned with emerging client requirements. The platform has therefore been designed through simultaneous engagement with both content producers and content consumers, with the objective of balancing intellectual property protection and usability.

AIERA PLATFORM

Aiera was established to address growing demand from buy-side firms to incorporate proprietary sell-side research into AI-powered investment workflows. The platform combines the large dataset from the consortium with proprietary AI enrichment services to create AI-ready content accessible through APIs, MCP endpoints, embedded components, or Aiera's own user interface. Rather than competing as a standalone AI model provider, Aiera focuses on content access, retrieval quality, entitlement management, and workflow integration across multiple AI ecosystems. The main differentiators include:

Historical broker research used for training/fine-tuning — Aiera is the only platform which has been granted permission by the consortium brokers to use their historical research for model training resulting in much better quality outputs. This is a major differentiator as Aiera's proprietary AI enrichment framework has been built using historical broker research rather than merely indexing research content.

Enrichment services such as Custom Embedding Models, Ontology, Grammar templates etc. for firms building internally — Aiera offers enrichment services which are modules that go into the main Aiera platform but are also offered as separate components, which are particularly useful for buy-side firms building their AI systems internally. Some examples are - proprietary embedding models trained on financial and broker-research content to improve search relevance and retrieval quality. According to management, these customized search models outperform generic off-the-shelf embedding models in financial research applications. Aiera has developed a proprietary ontology capable of understanding relationships between documents and companies and also Grammar templates which extracts structural patterns from historical research reports that act as guide for AI model to ensure similar professional/analyst tone rather than being generic.

MCP Integration and Embedded Workflows — Aiera's services can be delivered through multiple channels: Aiera user interface, API integrations, MCP servers, embedded components, internal enterprise AI platforms. Through MCP connectivity, organizations can integrate Aiera's content, retrieval systems, enrichment services, and citation frameworks directly into their existing AI environments while maintaining entitlement controls and content governance. This enables clients to use their preferred language models while preserving Aiera's retrieval quality, research formatting logic, and content controls. Aiera hence is able to meet clients wherever it best suits them based on their AI maturity.

One single legal contract: Aiera enables buy-side to have a single legal contract for content access rather than entering into legal contracts separately with all brokers. The legal contract ensure all key aspects of AI processing, training, third-party AI tools, distribution and attribution have clear standards depending on the type of content being accessed (broker research/

experts or events/fillings) and through what channel (dashboards/mobile or API/MCP or bulk-feed).

Flexible/modular pricing: Aiera offers modular pricing and implementation options rather than bundled product packages. They sell licenses separately for MCPs/APIs, bulk feeds, enrichment services etc. vs. bundled pricing that is usually available on legacy platforms.

Over and above broker research, Aiera also provides other financial data access such as- Earnings and conference call transcripts, Investor events and corporate presentations, Regulatory filings, Market news, Expert network content through Third Bridge, Company-published documentations. Users can access this information through either Aiera's interface or using APIs and MCP connectivity. The platform currently monitors more than 60,000 events annually and maintains approximately eight years of transcript and event history. Coverage includes approximately 14,000 equities globally (half US and half rest of the world), alongside inside tracks on broker conference, the broadest human reviewed transcripts, macroeconomic, and corporate events. Since launch, Aiera has signed agreements with 20 research providers and actively engaging with 400+ boutique research providers.

AIERA PLATFORM DEMO

EXHIBIT 2: Aiera: Consortium of leading research providers with key buy-side advisors to create an industry solution for AI-enabled broker research access and distribution while maintaining the IP

Consortium – Built by the Sell-Side / Guided by the Buy-Side

Research Advisory Council	Buy-Side Advisory Council
Bank of America	Balyasny
Barclays	Blackrock
Bernstein SG	Capital (co-Chair)
Citi	Citadel
Deutsche	D.E. Shaw
Evercore ISI	Fidelity
HSBC	Franklin Templeton
Jefferies	Millennium
Macquarie	Neuberger Berman
Third Bridge	Norges
UBS	Point72
	T. Rowe Price
	Wellington

Consortium established to address an industry problem

- Demand for proprietary content access to support AI-enabled research workflows. Next-generation enrichment, discovery, summarization, and....

Ensures buy-side & sell-side interests are aligned:

- Intellectual property protections / secure content access
- Centralized entitlements & legal contracts
- Flexible delivery options
- Vendor / platform agnostic solutions
- Enhanced consumption metrics
- Minimal operational & development overheads

Customers and Providers

- Aiera has 200+ existing customers (institutions)
- Engaged with 50+ established research providers...
- ...and 400+ boutique content providers

Source: Aiera

EXHIBIT 3: Aiera's Product Offering: Only platform exclusively permissioned by research providers to build specialized models/enrichment services, Accessible through API/MCP. Supports clients at every stage of AI maturity

Aiera Product Offerings – Unique AI-enabled Content Delivery

Platform agnostic content consumption. Supports clients at every stage of AI maturity

Specialized Language Model Enrichment Services to enhance or benchmark existing solutions

- Only AI platform exclusively permissioned by providers to enrich proprietary datasets
- Built on deep historical libraries of research, expert network, news, transcripts, and filings content
- Custom embeddings models, vector indexing, & contextual doc search for flexible content retrieval
- Ontology & entity relationship mappings surface thematic, industry and company-level connections
- Intent-based grammar templates and output classifiers maintain compliant queries & responses

Secure access to AI-ready content via API/MCP. Available via Anthropic / OpenAI / MSFT

- Document query services to replace bulk content redistribution. Integrates into in-house systems

Dashboard & Mobile solutions

- Easy to discover content, and intelligently extract insights using agentic workflow capabilities
- Cheaper turn-key product than traditional aggregators

Aiera Product Components

- Components plug seamlessly into any third-party platform with minimal coding

Source: Aiera

EXHIBIT 4: **Aiera additional benefits: Centralized entitlement framework, Single content assess agreement for buy-side and enhanced consumption metrics for sell-side**

Aiera Product Offerings – Additional Value Drivers for the Industry

- 🔒 Centralized **Entitlements Management** framework
- 📄 A **single Content Access Agreement** with standardized terms of use across providers
- 📊 Enhanced **Consumption Metrics** (Ping, Summarize, Read)
- 🧬 Upgraded **IP protection** for generative-AI era

Source: Aiera

EXHIBIT 5: **Aiera’s legal contract defines standard for AI processing, training, third-party AI tools, distribution and attribution by content type and channel**

Aiera Legal Contract – Usage Standards By Product

Each Standard is defined by a Content type and a Channel, and answers five core usage questions

Standard / Usage	AI Processing	AI Training	Third-Party AI Tools	Distribution	Attribution
S1: Events/Filings via Dashboard, Component	Permitted Internal use	Permitted Internal AI System	Prohibited	Prohibited Without consent	Aiera citation + link-back
S2: Research/Expert/News via Dashboard, Component	Permitted Internal use	Prohibited	Prohibited	Conditional To Entitled Users	Provider citation + link-back
S3: Events/Filings via API / MCP	Permitted Internal use	Permitted Internal AI System	Conditional Enterprise license	Prohibited Without consent	Aiera citation + link-back
S4: Research/Expert/News via API / MCP	Permitted Internal use	Prohibited	Conditional Enterprise license	Conditional To Entitled Users	Provider citation + link-back
S5: Events/Filings via Bulk Feed	Permitted Internal use	Permitted Internal AI System	Conditional Internal system	Prohibited Without consent	Aiera citation + link-back
S6: Research/Expert via Bulk Feed	Permitted Internal use	Prohibited	Conditional Internal system	Prohibited	Provider citation + link-back

THE FIVE CORE USAGE TERMS

AI Processing Summarization, search, RAG, vectorization?	AI Training Train, fine-tune, or develop AI systems	3rd-Party AI Tools Vendor, cloud or frontier-model tools	Distribution Content/AI Output shared outside customer	Attribution Required citations / link-backs
--	---	--	--	---

CHANNEL TYPES

Dashboard / Mobile & Component Front-end or componentized use across all Content types	API / MCP Programmatic access into client workflows and AI-enabled environments	Bulk Feeds Heightened requirements as Content resides in customer-controlled systems
--	---	--

Source: Aiera

EXHIBIT 6: The native chat interface of Aiera, and the primary function module that users start with

Source: Aiera

EXHIBIT 7: Aiera's data layer in key part of the offering: It connects to over 60000 events a year, and the platform transcribes the events

Source: Aiera

EXHIBIT 8: Users can jump to different spots in the audio, creating highlights and tags to make them easy to sort, and even ask questions

Source: Aiera

EXHIBIT 9: In Documents tab, users can access all data resources ie. transcripts, filings, experts, research and company docs

Source: Aiera

EXHIBIT 10: Within Research Documents, users can not only do classic sort and filter such as defining date range or choosing some specific brokers etc. but also create custom tags and store the search for future discovery with updates

Source: Aiera

EXHIBIT 11: In Research of Documents, users can select the reports as context and question asked in chatbox will get answered with information only from the reports selected, instead of doing broad analysis

Source: Aiera

EXHIBIT 12: The system has the capability to run multiple chats parallelly, where the transparency of thinking steps are also offered

Source: Aiera

EXHIBIT 13: Aiera does not co-mingle data across research, brokers, transcripts etc. Every data citation is clearly linked to the source. Source considered are 'ping', sources used in the summary are classified as 'summarized' and when user clicks on the related research report it is classified as 'read'

Source: Aiera

EXHIBIT 14: **Aiera offers MCP connector - the screenshot shows connectors in Claude, with different Aiera tools and capabilities that users can connect in Claude. They have this available in ChatGPT Enterprise license as well**

Source: Aiera

KEY QUESTIONS

Q. HOW WERE THE INTERESTS OF THE BUY-SIDE AND SELL-SIDE ALIGNED IN THE CONSORTIUM?

Aiera emphasized that the key challenge was incentive alignment rather than technology. Sell-side firms sought protection for their intellectual property, safeguards against hallucinations, and assurance that AI-generated outputs accurately reflect regulated investment recommendations. Aiera built controls to manage these concerns along with generating new consumption metrics. Buy-side firms required flexible access models that support internal AI development, external AI platforms, and proprietary datasets. Aiera provides connectivity not just through frontier LLMs but also vertical AI platforms like ModelML or Rogo, hence enabling more flexibility to buy-side.

Q. WHAT IS THE PLAN TO GET MORE BROKERS ON THE PLATFORM?

Gavin noted that consortium participation and platform contribution are separate issues. While the initial consortium consisted of investors that provided capital and training rights, the platform is actively onboarding additional research providers and expects participation to continue expanding. The 10 consortium brokers are all board members of Aiera, but now they are engaging with 50+ brokers and 400+ boutique brokers.

Q. WHAT MOTIVATE CLIENTS TO SWITCH FROM TRADITIONAL RESEARCH PLATFORMS TO AIERA?

Gavin and Bryan highlighted some key differentiators: First, Aiera's enrichment services were trained using licensed broker research content unavailable to competitors. Customer testing has reportedly shown particularly strong performance in search quality and response generation quality. Second, Aiera supports flexible deployment through APIs, MCP endpoints, embedded solutions, and full user interfaces; Third, the company offers modular pricing and implementation options rather than bundled product packages and fourth, one legal contract for buy-side vs. multiple contracts with all brokers

Q. HOW DOES AIERA PROVIDE DIVERSITY IN RESPONSES & PICKING DIRECT CITATIONS VS. MODEL GENERATED INFERENCE?

Bryan highlighted that the platform gives fair chance to all brokers rather than skewing towards any big broker with huge coverage. He explained that search results are re-ranked based on multiple criterias to avoid dominance by large providers while maintaining relevance. For example, if single brokers are overwhelming the top 50 results, it will start introducing penalties for that same broker to try to maintain a good diversity. He also added that the system learns from user behavior/preferences by monitoring users most frequent engagement with brokers' content (clicks/reads etc.) and the preference will slowly start to boost the results from those brokers. To ensure direct citations, the platform has been designed with prompt engineering and institutional templates that bias outputs toward direct quotations, citations, and source-backed evidence rather than unsupported model-generated inferences.

Q WHAT IS THE UNDERLYING LLM POWERING AIERA PLATFORM?

The native chat interface currently uses Claude Opus 4.8 as the primary reasoning model. However, Aiera's architecture is model-agnostic, hence clients can connect the platform to preferred models from OpenAI, Anthropic, or other providers through MCP.

Q WHAT ROLE DO "PING," "SUMMARY," AND "READ" METRICS PLAY?

Gavin explained that these metrics primarily support research providers rather than end users. They are designed to measure future AI-driven content consumption patterns, where machines increasingly discover and summarize research on behalf of users, replacing traditional report readership. They believe, the volume of research consumption going forward would come from ping or summary (AI summarization or AI using source for analysis purposes) rather than traditional click/read and the consortium was designed with these new metrics and transition in mind.

Q WHAT IS AIERA'S PRICING STRUCTURE?

The company offers modular pricing depending on delivery method and content requirements. The standard user-interface offering begins at approximately US\$5,000 per seat annually, with volume discounts available. Separate pricing exists for APIs, MCP endpoints, enrichment services, transcripts, and data feeds. Different pricing available depending on what data you care about and what delivery mechanism you want it through.

Q WOULD RESEARCH DIRECTORS BE COMFORTABLE PROVIDING RESEARCH THROUGH THIRD-PARTY AI PLATFORMS?

Research directors have been most concerned about how their research is being used in summarization, discovery, fine-tuning, being used in training by frontier labs and how to ensure that output responses truly reflect the recommendation/views being given by the analyst. There have been negotiation with multiple AI platforms with these concerns in mind and was one of the key reasons why Aiera was established. Management is open to making content available through third-party AI platforms via MCP, provided those platforms comply with Aiera's governance framework and guiding principles, including content entitlements, access controls, response templates and accuracy requirements. Hence, research directors are comfortable for clients to get access to their research on any AI platform but through Aiera pipes and control mechanisms in place. This is a key reason of why Aiera takes a platform-agnostic rather than closed-distribution approach.

Q WHAT ARE THE EMERGING TRENDS IN AI ADOPTION ACROSS BUY-SIDE AND SELL-SIDE FIRMS?

Gavin emphasized that AI adoption remains highly fragmented, with no clear industry best practice emerging yet. Institutions are at very different stages of maturity, particularly in internal development capabilities and information-security controls. Larger firms are generally investing more heavily in proprietary AI infrastructure, while smaller firms are more likely to rely on third-party AI solutions or Aiera's own interface. He expects it could take another few years for a more standardized adoption model to emerge.

Compute economics and model selection are becoming increasingly important considerations. Clients building internally through Aiera's MCP endpoints have greater flexibility to determine which models to use, how much reasoning compute to allocate, and how to optimize infrastructure costs. In contrast, clients using Aiera's hosted solutions effectively incorporate compute costs into the subscription.

From a technology perspective, rapid model innovation is making model selection increasingly complex. New models frequently demonstrate different strengths across coding, language reasoning, cost, and other performance dimensions, meaning the

latest model is not necessarily the best choice for every task. At the same time, open-weight models are becoming increasingly competitive with closed frontier models, potentially giving institutions greater flexibility to run models internally and improve control over privacy and infrastructure costs.

Looking ahead: Bryan expects the next major area of AI differentiation to shift from pure model reasoning toward proprietary data access and tool calling. As leading models converge in overall reasoning capability and benchmark improvements begin to moderate, the ability to retrieve, organize, and effectively utilize high-quality data could become increasingly important. This trend potentially strengthens the strategic importance of Aiera's proprietary content access, retrieval, and enrichment infrastructure.

Key enhancements expected in the next 6 months - 1) Agentic research workflows and scheduled automation 2) Additional content providers and proprietary datasets 3) Enhance their mobile app capabilities, 4) Expansion into adjacent content types such as sales commentary, calendars, and corporate-access information

We acknowledge the contributions of Rui Shi to this report

Bernstein & Co., LLC (pre April 1, 2024), Bernstein Autonomous LLP, BSG France S.A. (April 1, 2024 onwards), Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司, Sanford C. Bernstein (Canada) Limited, Sanford C. Bernstein (India) Private Limited (SEBI registration no. INH000006378), Sanford C. Bernstein (Singapore) Private Limited, Sanford C. Bernstein Japan KK (サンフォード・C・バーンスタイン株式会社) and analysts employed by Société Générale Africa Technologies & Services to produce Bernstein research under a Global Services Agreement in place between Bernstein and Société Générale.

Bernstein is part of a joint venture between Société Générale (SG) and AllianceBernstein, L.P. (AB). Unless specifically noted otherwise, for purposes of these disclosures, references to Bernstein's "affiliates" relate to both SG and AB and their respective affiliates.

RATINGS DEFINITIONS, BENCHMARKS AND DISTRIBUTION**EQUITY RATINGS DEFINITIONS****Bernstein brand**

The Bernstein brand rates stocks based on forecasts of relative performance for the next 12 months versus the S&P 500 for stocks listed on the U.S. and Canadian exchanges, versus the Bloomberg Europe Developed Markets Large and Mid Cap Price Return Index EUR (EDME) for stocks listed on the European exchanges and emerging markets exchanges outside of the Asia Pacific region, versus the Bloomberg Japan Large and Mid Cap Price Return Index USD (JPL) for stocks listed on the Japanese exchanges, and versus the Bloomberg Asia ex-Japan Large and Mid Cap Price Return Index (ASIA) for stocks listed on the Asian (ex-Japan) exchanges -unless otherwise specified.

The Bernstein brand has three categories of ratings:

- Outperform: Stock will outpace the market index by more than 15 pp
- Market-Perform: Stock will perform in line with the market index to within +/- 15 pp
- Underperform: Stock will trail the performance of the market index by more than 15 pp

Coverage Suspended: Coverage of a company under the Bernstein research brand has been suspended. Ratings and price targets are suspended temporarily, are no longer current, and should therefore not be relied upon.

Not Rated: A rating assigned when the stock cannot be accurately valued, or the performance of the company accurately predicted, at the present time. The covering analyst may continue to publish research reports on the company to update investors on events and developments.

Not Covered (NC) denotes companies that are not under coverage.

Bernstein brand stock ratings are based on a 12-month time horizon.

Autonomous brand – common stocks

The Autonomous brand rates common stocks as indicated below. As our benchmarks we use the Bloomberg Europe 600 Financials Price Return Index (E600BK) and Bloomberg Europe Dev Mkt Financials Large and Mid Cap Price Ret Index EUR (EDMFI) index for developed European banks and Payments, the Bloomberg Europe 600 Insurance Price Return Index (E600IN) for European insurers, the S&P 500 and S&P Financials for US banks and Payments coverage, S5LIFE for US Insurance, the S&P Insurance Select Industry (SPSIINS) for US Non-Life Insurers coverage, the Bloomberg Emerging Markets Financials Large, Mid and Small Cap Price Return Index (EMLS) for emerging market banks and insurers and Payments, and the Bloomberg Japan Financials Large & Mid Cap Price Return Index (JPFILM) for Japanese Financials. Ratings are stated relative to the sector (not the market).

The Autonomous brand has three categories of common stock ratings:

- Outperform (OP): Stock will outpace the relevant index by more than 10 pp

- Neutral (N): Stock will perform in line with the market index to within +/-10 pp
- Underperform (UP): Stock will trail the performance of the relevant index by more than 10 pp

Coverage Suspended: Coverage of a company under the Autonomous research brand has been suspended. Ratings and price targets are suspended temporarily, are no longer current, and should therefore not be relied upon.

Not Rated: A rating assigned when the stock cannot be accurately valued, or the performance of the company accurately predicted, at the present time. The covering analyst may continue to publish research reports on the company to update investors on events and developments.

Those denoted as 'Feature' (e.g., Feature Outperform FOP, Feature Under Outperform FUP) are our core ideas.

Not Covered (NC) denotes companies that are not under coverage.

Autonomous brand common stock ratings are based on a 12-month time horizon.

Autonomous brand – preferred stocks

The Autonomous brand has three categories of preferred stock ratings:

- Outperform (OP): The total return of the preferred instrument is expected to outperform preferred securities of other issuers operating in similar sectors or rating categories over the next six months.
- Neutral (N): The total return of the preferred instrument is expected to perform in line with preferred securities of other issuers operating in similar sectors or rating categories over the next six months.
- Underperform (UP): The total return of the preferred instrument is expected to underperform preferred securities of other issuers operating in similar sectors or rating categories over the next six months.

Autonomous preferred stock ratings are based on a 6-month time horizon.

AUTONOMOUS CREDIT RESEARCH

Where this report contains investment recommendations for credit instruments, as defined in article 3(1)(35) of the Market Abuse Regulation, the information below is presented to comply with its disclosure requirements.

The report may also include reference(s) to published opinions by other Autonomous or Bernstein analysts covering the equity securities of the issuer(s) referenced herein. Please note an investment recommendation for credit instruments published by the author(s) of this report may differ from the published view of the analyst covering equity securities for the issuer(s) contained in this report and vice versa.

CREDIT RATINGS DEFINITIONS

The Autonomous brand has three categories of credit ratings:

- Credit Outperform (C-OP): The total return of the Reference Credit Instrument is expected to outperform the credit spread of bonds of other issuers operating in similar sectors or rating categories over the next six months.
- Credit Neutral (C-N): The total return of the Reference Credit Instrument is expected to perform in line with the credit spread of bonds of other issuers operating in similar sectors or rating categories over the next six months.
- Credit Underperform (C-UP): The total return of the Reference Credit Instrument is expected to underperform the credit spread of bonds of other issuers operating in similar sectors or rating categories over the next six months.

Autonomous credit ratings are based on a 6-month time horizon.

A list of all investment recommendations produced by the author(s) of this report alongside credit ratings history are available upon request.

It is at the sole discretion of the Firm as to when to initiate, update and cease research coverage. The Firm has established, maintains and relies on information barriers to control the flow of information contained in one or more areas (i.e. the private side)

within the Firm, and into other areas, units, groups or affiliates (i.e. public side) of the Firm

DISTRIBUTION OF EQUITY RATINGS/INVESTMENT BANKING SERVICES

Equity Rating	Market Abuse Regulation (MAR) and FINRA Rating Category	Global Rating Distribution	Investment Banking Relationships*
Outperform	BUY	51.2%	15.3%
Market-Perform (Bernstein Brand) Neutral (Autonomous Brand)	HOLD	35.8%	16.2%
Underperform	SELL	13.1%	13.6%

* These figures represent the percentage of companies within each equity rating category for which affiliates of Bernstein have provided investment banking services within the previous 12 months.
As of June 30, 2026. All figures are updated quarterly.

OTHER MATTERS

The legal entity(ies) employing the analyst(s) listed in this report, and their location, can be determined by the country code of their phone number, as follows:

- +1 Bernstein Institutional Services LLC; New York, New York, USA
- +44 Bernstein Autonomous LLP; London UK
- +212 Société Générale Global Solution Center Morocco, Casablanca, Morocco
- +33 BSG France S.A.; Paris, France
- +34 BSG France S.A.; Madrid, Spain
- +41 Bernstein Autonomous LLP; Geneva, Switzerland
- +49 BSG France S.A.; Frankfurt, Germany
- +91 Sanford C. Bernstein (India) Private Limited; Mumbai, India
- +852 Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司; Hong Kong, China
- +65 Sanford C. Bernstein (Singapore) Private Limited; Singapore
- +81 Sanford C. Bernstein Japan KK; Tokyo, Japan

Where this report has been prepared by research analyst(s) employed by a non-US affiliate, such analyst(s), is/are (unless otherwise expressly noted below) not registered as associated persons of Bernstein Institutional Services LLC or any other SEC-registered broker-dealer and are not licensed or qualified as research analysts with FINRA. Accordingly, such analyst(s) may not be subject to FINRA's restrictions regarding (among other things) communications by research analysts with a subject company, interactions between research analysts and investment banking personnel, participation by research analysts in solicitation and marketing activities relating to investment banking transactions, public appearances by research analysts, and trading securities held by a research analyst account.

Where this report has been prepared by research analyst(s) employed by Société Générale Africa Technologies & Services (part of the Société Générale group of companies), it has been prepared on behalf of a Bernstein company under a Global Services Agreement in place between Bernstein and Société Générale.

CERTIFICATION

Each research analyst listed in this report, who is primarily responsible for the preparation of the content of this report, certifies that all of the views expressed in this publication accurately reflect that analyst's personal views about any and all of the subject

securities or issuers and that no part of that analyst's compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views in this publication.

II. ADDITIONAL GLOBAL CONFLICT DISCLOSURES

It is at the sole discretion of the Firm as to when to initiate, update and cease research coverage. The Firm has established, maintains and relies on information barriers to control the flow of information contained in one or more areas (i.e., the private side) within the Firm, and into other areas, units, groups or affiliates (i.e., public side) of the Firm.

III. OTHER IMPORTANT INFORMATION AND DISCLOSURES

Separate branding is maintained for “Bernstein” and “Autonomous” research products.

- Bernstein produces a number of different types of research products including, among others, fundamental analysis and quantitative analysis under both the “Autonomous” and “Bernstein” brands. Recommendations contained within one type of research product may differ from recommendations contained within other types of research products, whether as a result of differing time horizons, methodologies or otherwise. Furthermore, views or recommendations within a research product issued under one brand may differ from views or recommendations under the same type of research product issued under the other brand. The Research Ratings System for the two brands and other information related to those Rating Systems are included in the previous section.
- Autonomous operates as a separate business unit within the following entities: Bernstein Institutional Services LLC, Bernstein Autonomous LLP, Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司 and Sanford C. Bernstein (India) Private Limited. For information relating to “Autonomous” branded products (including certain Sales materials) please visit: www.autonomous.com. For information relating to Bernstein branded products please visit: www.bernsteinresearch.com.

Analysts are compensated based on aggregate contributions to the research franchise as measured by account penetration, productivity and proactivity of investment ideas. No analysts are compensated based on performance in, or contributions to, generating investment banking revenues.

This report has been produced by an independent analyst as defined in Article 3 (1)(34)(i) of EU 596/2014 Market Abuse Regulation (“MAR”) and the same article of MAR as it forms part of United Kingdom domestic law by virtue of the European Union (Withdrawal) Act 2018.

To our readers in the United States: Bernstein Institutional Services LLC, a broker-dealer registered with the U.S. Securities and Exchange Commission (“SEC”) and a member of the U.S. Financial Industry Regulatory Authority, Inc. (“FINRA”) is distributing this publication in the United States and accepts responsibility for its contents. Where this material contains an analysis of debt product(s), such material is intended only for institutional investors and is not subject to the US independence and disclosure standards applicable to debt research prepared for retail investors.

Bernstein Institutional Services LLC may act as principal for its own account or as agent for another person (including an affiliate) in sales or purchases of any security which is a subject of this report. This report does not purport to meet the objectives or needs of any specific individuals, entities or accounts.

To our readers in Canada: If this publication pertains to a Canadian domiciled company, it is being distributed in Canada by Sanford C. Bernstein (Canada) Limited, which is licensed and regulated by the Canadian Investment Regulatory Organization. If the publication pertains to a non-Canadian domiciled company, it is being distributed by Bernstein Institutional Services LLC, which is licensed and regulated by both the SEC and FINRA, into Canada under the International Dealers Exemption.

This document may not be passed onto any person in Canada unless that person qualifies as “permitted client” as defined in Section 1.1 of NI 31-103.

To our readers in Brazil: This report has been prepared by Bernstein Institutional Services LLC, and Banco BTG Pactual S.A. (“BTG”) is responsible for the distribution of this report in Brazil.

To readers in the United Kingdom: This publication has been issued or approved for issue in the United Kingdom by Bernstein Autonomous LLP, authorised and regulated by the Financial Conduct Authority and located at 60 London Wall, London EC2M 5SH, +44 (0)20-7170-5000. Registered in England & Wales No OC343985.

This document is for distribution only to persons who (i) have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (as amended, the “Financial Promotion Order”), (ii) are persons falling within Article 49(2)(a) to (d) (“high net worth companies, unincorporated associations,

etc.”) of the Financial Promotion Order, (iii) are outside the United Kingdom, or (iv) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) in connection with the issue or sale of any securities may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as “relevant persons”). This document is directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this document relates is available only to relevant persons and will be engaged in only with relevant persons.

To our readers in the member states of the EEA: This publication is being distributed by BSG France SA, which is authorised and regulated by the Autorité de Contrôle Prudentiel et de Résolution (ACPR) and Autorité des Marchés Financiers (AMF).

To our readers in Hong Kong: This publication is being distributed in Hong Kong by Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司, which is licensed and regulated by the Hong Kong Securities and Futures Commission (Central Entity No. AXC846) to carry out Type 4 (Advising on Securities) regulated activities and subject to the licensing conditions mentioned in the SFC Public Register (<https://www.sfc.hk/publicregWeb/corp/AXC846/details>). This publication is solely for professional investors, as defined in the Securities and Futures Ordinance (Cap. 571). The purpose of this report is solely to provide an analysis of the issuers referred to in this report and is not intended for any purpose contrary to the laws of Hong Kong.

To our readers in Singapore: This publication is being distributed in Singapore by Sanford C. Bernstein (Singapore) Private Limited, only to accredited investors or institutional investors, as defined in the Securities and Futures Act 2001 of Singapore (“SFA”). Recipients in Singapore should contact Sanford C. Bernstein (Singapore) Private Limited in respect of matters arising from, or in connection with, this publication. Sanford C. Bernstein (Singapore) Private Limited is regulated by the Monetary Authority of Singapore and licensed under the SFA as a capital markets services licence holder for dealing in capital markets products that are securities and collective investment schemes and an exempt financial adviser for advising on, issuing and promulgating analyses and reports on securities. Sanford C. Bernstein (Singapore) Private Limited is registered in Singapore with Company Registration No. 20213710W and located at 8 Marina Boulevard, #12-01, Marina Bay Financial Centre, Singapore 018981, +65-6326-7000.

To our readers in the People’s Republic of China: The securities referred to in this document are not being offered or sold and may not be offered or sold, directly or indirectly, in the People’s Republic of China (for such purposes, not including the Hong Kong and Macau Special Administrative Regions or Taiwan, the “PRC”) in contravention of any applicable laws of the PRC.

This document does not constitute an offer to sell or the solicitation of an offer to buy any securities in the PRC to any person to whom it is unlawful to make the offer or solicitation in the PRC.

We do not represent that this document may be lawfully distributed, or that any securities may be lawfully offered, in compliance with any applicable registration or other requirements in the PRC, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by us which would permit a public offering of any securities or distribution of this document in the PRC. Accordingly, the securities are not being offered or sold within the PRC by means of this document or any other document. Neither this document nor any advertisement or other offering material may be distributed or published in the PRC, except under circumstances that will result in compliance with any applicable laws and regulations.

To our readers in Japan: This publication is being distributed in Japan by Sanford C. Bernstein Japan KK (サンフォード・C・バーンスタイン株式会社), which is registered in Japan as a Financial Instruments Business Operator with the Kanto Local Finance Bureau (registration number: The Director-General of Kanto Local Finance Bureau (FIBO) No.3387) and regulated by the Financial Services Agency. It is also a member of Investment Management Association of Japan. This publication is solely for qualified institutional investors in Japan only, as defined in Article 2, paragraph (3), items (i) of the Financial Instruments and Exchange Act.

For the institutional client readers in Japan who have been granted access to the Bernstein website by Daiwa Securities Group Inc. (“Daiwa”), your access to this document should not be construed as meaning that Bernstein is providing you with investment advice for any purposes. Whilst Bernstein has prepared this document, your relationship is, and will remain with, Daiwa, and Bernstein has neither any contractual relationship with you nor any obligations towards you.

To our readers in Australia: Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司 is responsible for distributing research in Australia. It is regulated by the Securities and Exchange Commission under U.S. laws, by the Financial Conduct Authority under U.K. laws, which differs from Australian laws. Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司 is exempt from the requirement to hold an Australian financial services license under the Corporations Act 2001 in respect of the provision of the following financial services to wholesale clients:

- providing financial product advice;
- dealing in a financial product;

- making a market for a financial product; and
- providing a custodial or depository service.

To our readers in India: This publication is being distributed in India by Sanford C. Bernstein (India) Private Limited (SCB India) which is licensed and regulated by Securities and Exchange Board of India ("SEBI") as a research analyst entity under the SEBI (Research Analyst) Regulations, 2014, having registration no. INH000006378 and as a stock broker having registration no. INZ000213537. SCB India is currently engaged in the business of providing research and stock broking services. LEGAL

All research publications are disseminated to our clients through posting on the firm's password protected websites, bernsteinresearch.com and autonomous.com. Certain, but not all, research publications are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience.

This publication has been published and distributed in accordance with the Firm's policy for management of conflicts of interest in investment research, a copy of which is available from Bernstein Institutional Services LLC, Director of Compliance, 245 Park Avenue, New York, NY 10167. Additional disclosures and information regarding Bernstein's business are available on our website www.bernsteinresearch.com.

The securities described herein may not be eligible for sale in all jurisdictions or to certain categories of investors where that permission profile is not consistent with the licenses held by the entities noted herein. This document is for distribution only as may be permitted by law. This publication is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of, or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or which would subject any of the entities referenced herein or any of their subsidiaries or affiliates to any registration or licensing requirement within such jurisdiction. This publication is based upon public sources we believe to be reliable, but no representation is made by us that the publication is accurate or complete. We do not undertake to advise you of any change in the reported information or in the opinions herein. This publication was prepared and issued by entity referred to herein for distribution to eligible counterparties or professional clients. This publication is not an offer to buy or sell any security, and it does not constitute investment, legal or tax advice. The investments referred to herein may not be suitable for you. Investors must make their own investment decisions in consultation with their professional advisors in light of their specific circumstances. The value of investments may fluctuate, and investments that are denominated in foreign currencies may fluctuate in value as a result of exposure to exchange rate movements. Information about past performance of an investment is not necessarily a guide to, indicator of, or assurance of, future performance.

This report is directed to and intended only for our clients who are "eligible counterparties", "professional clients", "institutional investors" and/or "professional investors" as defined by the aforementioned regulators, and must not be redistributed to retail clients as defined by the aforementioned regulators. Retail clients who receive this report should note that the services of the entities noted herein are not available to them and should not rely on the material herein to make an investment decision. The result of such act will not hold the entities noted herein liable for any loss thus incurred as the entities noted herein are not registered/ authorised/ licensed to deal with retail clients and will not enter into any contractual agreement/arrangement with retail clients. This report is provided subject to the terms and conditions of any agreement that the clients may have entered into with the entities noted herein. All research reports are disseminated on a simultaneous basis to eligible clients through electronic publication to our client portal.

The information in this report was prepared by Bernstein solely for the internal business use of our clients. Clients may store, display, analyze, reformat and print the information in this report for this limited use only. Clients may not copy, alter, create derivative works, resell, reverse engineer, commercially exploit, share or distribute any part of the information contained herein for any purpose without Bernstein's express written consent. These restrictions include extracting data or using the content to develop indices or other products. Further, you may not use this report, or any portion of this report, to train or finetune any third-party machine learning or artificial intelligence system, or as a prompt or input into any such system. You also may not, without Bernstein's express written consent, do any of the foregoing in connection with your own internal machine learning or artificial intelligence system.

Bernstein may use artificial intelligence tools in the preparation of its materials. Any such materials are reviewed by Bernstein's research analysts prior to publication.

This report has been prepared for information purposes only and is based on current public information that we consider reliable, but the entities noted herein do not warrant or represent (express or implied) as to the sources of information or data contained herein are accurate, complete, not misleading or as to its fitness for the purpose intended even though the entities noted herein rely on reputable or trustworthy data providers, it should not be relied upon as such. Opinions expressed are the author(s)' current opinions as of the date appearing on the material only and we do not undertake to advise you of any change in the reported information or in the opinions herein.

Any references to Societe Generale herein are purely factual, based upon publicly available information, and included for comparative purposes only. They do not constitute an opinion or recommendation with respect to the securities of Societe Generale.

This publication was prepared and issued by the entity referred to herein for distribution to eligible counterparties or professional clients. The information in this report is intended for general circulation and does not constitute an offer to buy or sell any security, investment, legal or tax advice nor a personal recommendation, as defined by any of the aforementioned regulators. It does not take into account the particular investment objectives, financial situations, or needs of individual investors. The report has not been reviewed by any of the aforementioned regulators and does not represent any official recommendation from the aforementioned regulators. The investments referred to herein may not be suitable for you. Investors must make their own investment decisions in consultation with advice sought from a financial adviser regarding the suitability of the investment product, taking into account the specific investment objectives, financial situation or particular needs of any recipient of the recommendation, before the recipient makes a commitment to purchase the investment product.

The analysis contained herein is based on numerous assumptions. Different assumptions could result in materially different results. The information in this report does not constitute, or form part of, any offer to sell or issue, or any offer to purchase or subscribe for shares, or to induce engagement in any other investment activity. The value of any securities or financial instruments mentioned in this report may fluctuate subject to market conditions. Information about past performance of an investment is not necessarily a guide to, indicative of, or assurance of future performance. Estimates of future performance mentioned by the research analyst in this report are based on assumptions that may not be realized due to unforeseen factors like market volatility/fluctuation. In relation to securities or financial instruments denominated in a foreign currency other than the clients' home currency, movements in exchange rates will have an effect on the value, either favorable or unfavorable. Before acting on any recommendations in this report, recipients should consider the appropriateness of investing in the subject securities or financial instruments mentioned in this report and, if necessary, seek independent professional advice.

The securities described herein may not be eligible for sale in all jurisdictions or to certain categories of investors where that permission profile is not consistent with the licenses held by the entities noted herein. This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject the entities noted herein to any regulation or licensing requirement within such jurisdiction.
