Internet Traffic Trends Analysis: AI & Social Engagement Remain Strong as eCommerce, Travel & Dating Trends Improve

CITI'S TAKE

After analyzing August website traffic (SimilarWeb) and App data (Sensor Tower), in partnership with Citi's Research Innovation Lab, we highlight positive usage trends across META, AMZN, DASH, and MTCH. META's R&R tailwinds continue, with IG's U.S. time spent/DAU +13% Y/Y to 60mins and Muse is now the most downloaded app in the iOS App store. While on GOOGL, as AI usage continues to grow, Search share declined ~30bps M/M to 91.0% globally & -60bps M/M to 86.0% in the U.S. On eComm, we note accelerating U.S. traffic growth for both eBay +5% (vs. +4% in July) and Wayfair +46% (vs. +35% in July) as DASH U.S. MAU +11% Y/Y (vs. +10% in July), and we note MTCH's U.S. MAUs returned to growth in Aug. for the first time since Aug. '21. See our [Web Traffic](#) and [App Traffic](#) dashboards for additional data; Top picks: **AMZN, META, GOOGL, DASH, CVNA, RDDT.**

Key Takeaways from August Traffic Data:

- **August's Top 25 U.S. App Downloads: AI and Social Apps Continue to Rank Highly—**ChatGPT remained the #1 downloaded app for the 20th consecutive month, though we note Muse has since risen to the #1 spot in September after launching on 09/08. Meta accounts for 5 of the Top 25 apps, with Instagram +1 spot M/M to #5, WhatsApp flat at #8, Facebook +7 spots to #9, Threads +3 spots to #14, and Meta AI +4 spots to #16. Interestingly, Vinted jumped 22 spots to #7, while Depop fell 7 spots to #21 in August (though Sept. MTD Vinted moved up to #3). Across other social apps, X +15 spots M/M to #12, Snapchat +10 spots to #13, and YouTube +8 spots to #20. Among other notable apps, Claude rose 3 spots to #25 and TikTok gained one spot to #3 (see Figure 1).
- **Digital Ads: Social Media U.S. Time Spent +4% Y/Y, Though U.S. DAUs -1% Y/Y—**Minutes/U.S. DAU at Instagram rose 13% Y/Y to 60 mins/DAU in August suggesting continued R&R benefits and compares to TikTok at 84 mins/DAU (+4% Y/Y & -4% M/M). Time spent/DAU remains highest at YouTube at 87 mins (+6% Y/Y), Facebook at 36 mins/DAU (-6% Y/Y), Reddit at 24 mins/DAU (-11% Y/Y), Snap at 21 mins/DAU (flat Y/Y), & Pinterest at 16 mins/DAU (+15% Y/Y). That said, U.S. MAUs at Meta's core apps (FB, IG, WA) declined 2.1% Y/Y in August (vs. -1.9% Y/Y in July) with FB at -6% Y/Y and IG -2% Y/Y, though we note Threads U.S. MAUs +12% Y/Y to 67M. Reddit U.S. web visits declined ~2% Y/Y for the week ending 9/14 and have remained pressured since Aug. '26. **Dig. Publishing: PPLI** U.S. web traffic was negative for the 16th cons. month with Aug. -18% Y/Y (vs. -22% in July) and ZD's larger properties U.S. traffic -18% Y/Y in Aug. (Fig. 2-9).

See Appendix A-1 for Analyst Certification, Important Disclosures and Research Analyst Affiliations.

- **Search: Google's August Global Search Share -30bps M/M to 91.0%** ...though +110bps Y/Y and Google's U.S. Search share declined ~60bps M/M to 86.0% (+50bps Y/Y). That said, we believe Google is benefiting from longer form AI searches (avg of 20 KWs vs. 2-3 KWs prior to AI-O and AI-M) as well as answers from other GenAI services. Chrome's global browser share rose +100bps M/M to 69.3% and U.S. share rose +310bps M/M to 54.6%. Google's website global monthly UVs +3% Y/Y in August as Google's U.S. app MAUs declined -1% Y/Y and U.S. app DAUs +2% Y/Y (69% DAU/MAU) (see Figures 10-12);
- **...GenAI Apps: New Use Cases & Watching for Muse Adoption:** The top AI App by monthly MAUs rose +5% M/M to 1.4B and Web UVs rose +1% M/M, though -3% Y/Y to 475M in August. Google's Gemini app MAUs are now at 587M (+6% M/M, per Sensor Tower) which compares to Google reporting 1B+ MAUs during 2Q earnings. Copilot has ~138M MAU (-2% M/M), DeepSeek has ~75M MAUs (+2% M/M), and Meta AI is at 62M (-11% M/M). That said, following the launch of Muse on 9/8, the App now has 1.4M U.S. downloads in its first 10 days, above ChatGPT at 1.0M when first launched, which we attribute to Muse's more holistic Agent approach given its integrations across apps and the Web and its focus on safety/security/privacy (see Figures 13-19, which includes DAU/MAU ratio analysis).
- **AI Model rankings**—Claude's Fable continues to rank the highest in our AI model Performance rankings based on data from LMArena. Astra ranked #5 and we note Moonshot's Kimi K3 and Alibaba's Qwen 3.8 placed 6th and 10th, respectively. Google's latest model—Gemini 3.8 Flash—rose 2 spots to 9th in Performance and 4th in Cost, while Meta's suite of new Muse Spark models improved to 7th and 17th in Performance while in the top 6 for Cost highlighting Meta's improved Model cadence (see Figure 20).
- **eCommerce Web Traffic: U.S. August Web Traffic Trends Positive...Amazon** U.S. traffic +1% Y/Y in August (vs. -5% in July). **eBay's** U.S. traffic +5% Y/Y (vs. +4% in July), **Wayfair's** +46% Y/Y (vs. +35% in July), and **Etsy's** +28% Y/Y (vs. +28% in July). This on top of strong 2Q26 U.S. revenue trends for eBay, Etsy, and Wayfair with August traffic data suggesting continued momentum. Carvana's U.S. web visits +45% Y/Y in August (vs. +62% in July) suggesting continued momentum (see Figure 23).
- **...while Most Global eCommerce App Trends Slowed: Amazon's** global app MAUs grew 2% Y/Y in August to 659M, while **eBay's** declined 5% Y/Y (vs. -3% in July), **Wayfair's** declined 26% Y/Y (vs. -15% in July), and **Etsy's** declined 3% Y/Y (vs. +2% in July). August app downloads grew 61% Y/Y for **Shopify** and 7% Y/Y for **eBay** (vs. +11% in July), while **Amazon's** declined 10% Y/Y (vs. -18% in July) and **Etsy's** declined 20% Y/Y (vs. -18% in July) (see Figures 24-27).
- **eCommerce U.S. Growth Comparisons: Online vs. More Traditional Retailers:** **Amazon Walmart** U.S. eCommerce sales grew +24% Y/Y (vs. +26% in 1Q), **Target** digital comparable sales grew +8.7% Y/Y (vs. +8.9% in 1Q), and **Best Buy** domestic online revenue grew +5.1% Y/Y (vs. +2.1% in 1Q). **Shopify** GMV grew +32% Y/Y (vs. +35% in 1Q). This compares to **AMZN's** N.A. sales growth accelerating to +16% Y/Y ex-FX in 2Q (vs. +12% in 1Q), **eBay** U.S. GMV grew +24% Y/Y (vs. +27% in 1Q), **Etsy** core GMS grew +7.5% Y/Y (vs. +5.5% in 1Q), and **Wayfair** U.S. net revenue grew +8.7% Y/Y (vs. +7.5% in 1Q). **Walmart** U.S. eCommerce sales grew +24% Y/Y (vs. +26% in 1Q), **Target** digital comparable sales grew +8.7% Y/Y (vs. +8.9% in 1Q), and **Best Buy** domestic online revenue grew +5.1% Y/Y (vs. +2.1% in 1Q). **Shopify** GMV grew +32% Y/Y (vs. +35% in 1Q). Overall, 2Q results point to continued healthy U.S. eCommerce demand and rising digital penetration across large retailers (see Figure 28).
- **Online Marketplaces: Positive Trends for DoorDash:** **DoorDash** U.S. app MAUs +11% Y/Y in August (vs. +10% in July) to an average of 64 million while **ROO** grew

+8% Y/Y and Wolt +15% Y/Y. **Instacart** U.S. MAUs declined -19% Y/Y in August (flat vs. July) as downloads fell ~19% Y/Y. We also highlight increasing adoption of **Waymo** with U.S. app MAUs +54% Y/Y (+17.5% M/M) to 1.77 million (2.8% of aggregated U.S. ridesharing app MAUs) and Waymo U.S. app downloads +35% Y/Y (+21% M/M) to 444K (14.1% of aggregated U.S. ridesharing app downloads). (see Figures 29-35).

- **Online Travel: Relatively Positive Mobile App & Web Traffic Trends:** Bigger picture, we believe travel trends remain relatively strong despite the continued conflict in the M.E. and August app trends support this view. **On app data**, **Booking.com** WW MAUs +5% Y/Y in August (vs. +6% Y/Y in July), while app downloads were +2% Y/Y (we note apps represent high-50% of BKNG's RNs booked) and we note 3Q guidance incorporated continued M.E. conflict through 3Q. **Airbnb's** MAUs were flat Y/Y in August (vs +5% Y/Y in July) as its mobile app bookings now account for 64% of total nights booked, though app download growth accelerated to +28% Y/Y in August likely benefitting from its new products and services like RNPL, Hotels, Services, and Experiences and we are positive on ABNB's newer lower take-rate offering for off-ABNB rentals as it consolidates more data and rentals across its app. **Expedia's** MAUs fell -12% Y/Y (vs. -2% Y/Y in July) while Vrbo's app downloads declined -29% Y/Y and we're watching for benefits from newer products Vrbo like Sponsored Listings and more demand tools. **On web traffic**, **Booking.com's** U.S. traffic grew +15% Y/Y in August (vs. July's +8% Y/Y). **Expedia's** U.S. traffic was +21% Y/Y in August (vs. +17% Y/Y in July) and **Airbnb.com's** WW traffic grew +27% Y/Y in August (vs. +18% Y/Y in July) (see Figures 36-38).
- **Online Dating: Tinder U.S. MAU Growth Inflects Positively, While Hinge WW Growth Accelerates:** U.S. Tinder MAUs grew +1% Y/Y in Aug. 2026, its first positive month following declines since Aug. 2021 (vs. Global MAUs improved to -1%), and U.S. downloads were also +5% Y/Y. Hinge's WW MAU growth accelerated to +32% Y/Y in Aug. (vs. +26% Y/Y in July) and downloads were +22% Y/Y (vs +11% in July). Bumble trends improved with WW MAUs -8% Y/Y in Aug. (vs. -10% Y/Y in July) while downloads were +5% Y/Y (vs. flat Y/Y in July); for more details (see Figures 51-54).
- **SimilarWeb Methodology:** We aggregate worldwide daily website visits (across mobile web and desktop) for the past 36 months, which we believe provides insights into engagement trends overall. SimilarWeb collects its data in four ways: (i) website & app owners (data directly measured through 1P analytics), (ii) contributor network (anonymous traffic data collected via SimilarWeb products installed on millions of devices), (iii) public data (algorithmically captured and indexed), and (iv) partnerships (data pre-analyzed by global partners like DSPs, ISPs, measurement companies, and corporate intelligence firms). For more data, please see our [Web Traffic Trends dashboard](#).
- **For Sensor Tower data**, we aggregate US app download data derived from the Apple App Store and Google Play Store, as well as Sensor Tower's Monthly Active User (MAU) tracking and Total Time Spent app duration data to inform user growth and engagement. For additional data, please see our [App Trends dashboard](#).
- **On overall methodology**, our monthly data reports are published later in the month as we highlight ongoing restatements from SimilarWeb and Sensor Tower in the first week of each month. As a result, we believe our later publishing ensures more consistent and accurate data.

Analysts' compensation is determined by Citi Research management and Citigroup's senior management and is based upon activities and services intended to benefit the investor clients of Citigroup Global Markets Inc. and its affiliates (the “Firm”). Compensation is not linked to specific transactions or recommendations. Like all Firm employees, analysts receive compensation that is impacted by overall Firm profitability which includes investment banking, sales and trading, and principal trading revenues. One factor in equity research analyst compensation is arranging corporate access events between institutional clients and the management teams of covered companies. Typically, company management is more likely to participate when the analyst has a positive view of the company.

Citi Research Equity Ratings Distribution

Guide to Citi Research Fundamental Research Investment Ratings:

Citi Research stock recommendations include an investment rating and an optional risk rating to highlight high risk stocks.

Risk rating takes into account both price volatility and fundamental criteria. Stocks will either have no risk rating or a High risk rating assigned.

Investment Ratings: Citi Research investment ratings are Buy, Neutral and Sell. Our ratings are a function of analyst expectations of expected total return ("ETR") and risk. ETR is the sum of the forecast price appreciation (or depreciation) plus the dividend yield for a stock within the next 12 months. The target price is based on a 12 month time horizon. The Investment rating definitions are: Buy (1) ETR of 15% or more or 25% or more for High risk stocks; and Sell (3) for negative ETR. Any covered stock not assigned a Buy or a Sell is a Neutral (2). For stocks rated Neutral (2), if an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Citi Research management not to assign a target price and, thus, not derive an ETR. Citi Research may suspend its rating and target price and assign "Rating Suspended" status for regulatory and/or internal policy reasons. Citi Research may also suspend its rating and target price and assign "Under Review" status for other exceptional circumstances (e.g. lack of information critical to the analyst's thesis, trading suspension) affecting the company and/or trading in the company's securities. In both such situations, the rating and target price will show as "—" and "—" respectively in the rating history price chart. Prior to 11 April 2022 Citi Research assigned "Under Review" status to both situations and prior to 11 Nov 2020 only in exceptional circumstances. As soon as practically possible, the analyst will publish a note re-establishing a rating and investment thesis. Investment ratings are determined by the ranges described above at the time of initiation of coverage, a change in investment and/or risk rating, or a change in target price (subject to limited management discretion). At times, the expected total returns may fall outside of these ranges because of market price movements and/or other short-term volatility or trading patterns. Such interim deviations will be permitted but will become subject to review by Research Management. Your decision to buy or sell a security should be based upon your personal investment objectives and should be made only after evaluating the stock's expected performance and risk.

Catalyst Watch/Short Term Views ("STV") Ratings Disclosure:

Catalyst Watch and STV Upside/Downside calls: Citi Research may also include a Catalyst Watch or STV Upside or Downside call to indicate the analyst expects the share price to rise (fall) in absolute terms over a specified period of 30 or 90 days in reaction to one or more specific near-term catalysts or events impacting the company or the market. A Catalyst Watch will be published when Analyst confidence is high that an impact to share price will occur; it will be a STV when confidence level is moderate. A Catalyst Watch or STV Upside/Downside call will automatically expire at the end of the specified 30/90 day period. The Catalyst Watch will also be automatically removed if share price performance (calculated at market close) exceeds 15% against the direction of the call (unless over-ridden by the analyst). The analyst may also remove a Catalyst Watch or STV call prior to the end of the specified period in a published research note. A Catalyst Watch/STV Upside or Downside call may be different from and does not affect a stock's fundamental equity rating, which reflects a longer-term total absolute return expectation. For purposes of FINRA ratings-distribution-disclosure rules, a Catalyst Watch/STV Upside call corresponds to a buy recommendation and a Catalyst Watch/STV Downside call corresponds to a sell recommendation. Any stock not assigned to a Catalyst Watch Upside, Catalyst Watch Downside, STV Upside, or STV Downside call is considered Catalyst Watch/STV No View. For purposes of FINRA ratings distribution-disclosure rules, we correspond Catalyst Watch/STV No View to Hold in our ratings distribution table for our Catalyst Watch/STV Upside/Downside rating system. However, we reiterate that we do not consider No View to be a recommendation. For all Catalyst Watch/STV Upside/Downside calls, risk exists that the catalyst(s) and associated share-price movement will not materialize as expected.

Citi Research broadly and simultaneously disseminates its research content to the Firm's institutional and retail clients via the Firm's proprietary electronic distribution platforms (e.g., Citi Velocity and various Global Wealth platforms). As a convenience, certain, but not all, research content may be distributed through third party aggregators. Clients may receive published research reports by email, on a discretionary basis, and only after such research content has been broadly disseminated. Certain research is made available only to institutional investors to satisfy regulatory requirements. The level and types of services provided by Citi Research analysts to clients may vary depending on various factors such as the client's individual preferences as to the frequency and manner of receiving communications from analysts, the client's risk profile and investment focus and perspective (e.g. market-wide, sector specific, long term, short-term etc.), the size and scope of the overall client relationship with the Firm and legal and regulatory constraints.

Pursuant to Comissão de Valores Mobiliários Resolução 20 and ASIC Regulatory Guide 264, Citi is required to disclose whether a Citi related company or business has a commercial relationship with the subject company. Considering that Citi operates multiple businesses in more than 100 countries around the world, it is likely that Citi has a commercial relationship with the subject company.

Securities recommended, offered, or sold by the Firm: (i) are not insured by the Federal Deposit Insurance Corporation; (ii) are not deposits or other obligations of any insured depository institution (including Citibank); and (iii) are subject to investment risks, including the possible loss of the principal amount invested. The Product is for informational purposes only and is not intended as an offer or solicitation for the purchase or sale of a security. Any decision to purchase securities mentioned in the Product must take into account existing public information on such security or any registered prospectus. Although information has been obtained from and is based upon sources that the Firm believes to be reliable, we do not guarantee its accuracy and it may be incomplete and condensed. Note, however, that the Firm has taken all reasonable steps to determine the accuracy and completeness of the disclosures made in the Important Disclosures section of the Product. The Firm's research department has received assistance from the subject company(ies) referred to in this Product including, but not limited to, discussions with management of the subject company(ies). Firm policy prohibits research analysts from sending draft research to subject companies. However, it should be presumed that the author of the Product has had discussions with the subject company to ensure factual accuracy prior to publication. Statements and views concerning ESG (environmental, social, governance) factors are typically based upon public statements made by the affected company or other public news, which the author may not have independently verified. ESG factors are one consideration that investors may choose to examine when making investment decisions. All opinions, projections and estimates constitute the judgment of the author as of the date of the Product and these, plus any other information contained in the Product, are subject to change without notice. Prices and availability of financial instruments also are subject to change without notice. Notwithstanding other departments within the Firm advising the companies discussed in this Product, information obtained in such role is not used in the preparation of the Product. Although Citi Research does not set a predetermined frequency for publication, if the Product is a fundamental equity or credit research report, it is the intention of Citi Research to provide research coverage of the covered issuers, including in response to news affecting the issuer. For non-fundamental research reports, Citi Research may not provide regular updates to the views, recommendations and facts included in the reports. Notwithstanding that Citi Research maintains coverage on, makes recommendations concerning or discusses issuers, Citi Research may be periodically restricted from referencing certain issuers due to legal or policy reasons. Where a component of a published trade idea is subject to a restriction, the trade idea will be removed from any list of open trade ideas included in the Product. Upon the lifting of the restriction, the trade idea will either be re-instated in the open trade ideas list if the analyst continues to support it or it will be officially closed. Citi Research may provide different research products and services to different classes of customers (for example, based upon long-term or short-term investment horizons) that may lead to differing conclusions or recommendations that could impact the price of a security contrary to the recommendations in the alternative research product, provided that each is consistent with the rating system for each respective product.

Investing in non-U.S. securities, including ADRs, may entail certain risks. The securities of non-U.S. issuers may not be registered with, nor be subject to the reporting requirements of the U.S. Securities and Exchange Commission. There may be limited information available on foreign securities. Foreign companies are generally not subject to uniform audit and reporting standards, practices and requirements comparable to those in the U.S. Securities of some foreign companies may be less liquid and their prices more volatile than securities of comparable U.S. companies. In addition, exchange rate movements may have an adverse effect on the value of an investment in a foreign stock and its corresponding dividend payment for U.S. investors. Net dividends to ADR investors are estimated, using withholding tax rates conventions, deemed accurate, but investors are urged to consult their tax advisor for exact dividend computations. Investors who have received the Product from the Firm may be prohibited in certain states or other jurisdictions from purchasing securities mentioned in the Product from the Firm.
