AI-driven MLCC/substrate upcycle has just begun; reiterate Buy

Reiterate Rating: BUY | PO: 2,000,000 KRW | Price: 1,306,000 KRW

Upbeat 3Q results mostly based on MLCC/substrate

SEMCO reported upbeat 3Q results: sales of W3.8tn (+9% QoQ, +30% YoY) were largely in line with the Street expectation, while OP of W691bn (+57% QoQ, +165% YoY; OPM 18.4%) came in above our estimate (W660bn) and consensus (W638bn). The upside was driven by continued AI-driven product-mix improvement and significant margin expansion across MLCC (24% OPM vs 17% in 2Q) and substrate (23% vs 14%). Substrate profitability benefitted from broader FC-BGA adoption across server CPUs, AI accelerators and networking applications, alongside stronger BGA demand from memory and ARM processors. Most notably, MLCC OPM reached 23%, approaching its 2H21-1H22 peak of 23-26%, on the back of robust ASP hike, but still lower than the 2018 upturn level (30%+).

Record-high OP well expected for 2027-28; reiterate Buy

We fine-tune our 2027-28E EPS estimates, primarily reflecting a 1ppt increase in our component (mostly MLCC) OPM assumptions, following the upbeat 3Q results and management's bullish 4Q and 2027 outlook. Demand visibility continues to improve on expanding LTAs with US Big Tech customers, with management expecting over 50% of 2027 sales to be covered by LTAs. Accordingly, we continue to forecast record-high annual OP of W5.5tn/8.6tn in 2027/28E, up sharply from W2.3tn in 2026. We reiterate our Buy rating based on unchanged PO of W2,000,000, derived from 31x 2027-28E P/E (was 32x) following EPS revisions. Our target multiple remains below SEMCO's 2017 peak level (over 40x, above the 2018 cloud boom). Meanwhile, SEMCO's current share price trades at only 20x P/E based on 2027-28E EPS vs 20-30x for Japan/Taiwan peers despite similar margin and ROE profiles. Our PO still presents 50%+ stock upside potential even after the strong YTD rally.

Company Description

SEMCO manufactures MLCC, camera modules and semis substrates. Key customers are Samsung, Qualcomm, Intel, Apple and China OEMs. As a global components vendor, the company is trying to expand its clientele to non-captive, and product portfolio to non-IT (ie, MLCC for auto). Profit generation is mostly based on MLCC. Samsung is the largest shareholder with 24% stake.

Investment Rationale

Our Buy rating is based on rising high-end component sales (MLCC, substrate, camera) to US Big Tech companies. Japan competitors already reveal high utilization (for AI server and autonomous driving-related MLCC and FC BGA substrate), as of 2H26. We also see China's small scale for high-end MLCC/substrate. We expect record-high/ upcycle OP generation for three consecutive years (W2-9tn pa in 2026-28 vs W0.9tn in 2025).

LTAs with Big Tech on track; W4.3tn order confirmed

SEMCO's growing portfolio of long-term agreements (LTAs) with global tech customers clearly underscores the company's strong design-win visibility and increasing exposure to AI and HPC demand. According to local regulatory filings (DART), SEMCO disclosed seven supply contracts in 2026 with an aggregate value of W4.3tn, equivalent to approximately 20% of our estimated 2027 total revenue. These contracts, which are predominantly one- to two-year supply agreements with large-scale global customers, reinforce SEMCO's position as a strategic supplier of critical electronic components. The largest contract is a W1.6tn silicon capacitor agreement extending through 2028, complemented by more than W2.3tn of MLCC supply wins and a W0.4tn memory substrate contract. We believe these LTAs reflect strengthening customer relationships, enhanced revenue visibility and expanding participation in next generation AI infrastructure.

Price objective basis & risk

Samsung Electro-Mechanics (SMSGF)
Our PO of W2,000,000 is derived from 31x 2027-28E P/E. This is still lower than SEMCO's 2017 peak (over 40x, above the 2018 cloud boom) or our fair value targets for Japan/Taiwan peers (30-40x). SEMCO's business model and market-dominant position are highly similar to Japan peers, in our view. We acknowledge that SEMCO's long-term historical average P/E was high-teens (vs peak low-20x and trough low-teens). However, its 2027-28 earnings will likely be a few times larger vs the previous upturn periods (2017-18, 2021-22, 2025). Upside/downside risk is mostly related to US Big Tech's AI capex spend increase/cut vs market expectations.

Special Disclosures

Korea imposes a capital gains tax on non-resident investors in Korean securities of the lesser of 22% of the net gain or 11% of the gross sales proceeds unless the investor is either (1) resident in a country which has a double tax treaty with Korea that exempts the investor's capital gains from Korean tax or (2) the shares sold are sold through the Korea Stock exchange or KOSDAQ exchange and the seller (including related parties) has not owned 25% or more of the shares of the issuer at any time during the year of sale plus the 5 calendar years preceding the year of sale. Investors should seek their own tax advice.

Equity Investment Rating Distribution: Global Group (as of 30 Sep 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships [R1]	Count	Percent
Buy	2057	57.03%	Buy	1386	67.38%
Hold	806	22.35%	Hold	563	69.85%
Sell	744	20.63%	Sell	446	59.95%

[R1] Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster[R2]
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

[R2] Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. *Coverage Cluster* is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.
Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including,

among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are not regulated in a manner similar to U.S. securities markets. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.

This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may be more or less positive than a stock's fundamental equity rating.

BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.

Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.

BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities or digital assets that may have been recommended or discussed in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments recommended or discussed in this report.

BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information.

In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

All opinions, projections and estimates constitute the judgment of the author as of the date of publication and are subject to change without notice. Prices also are subject to change without notice. BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.

Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.

Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.

In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.

Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.
