40%+ '27-'28 AWS Growth Outlook Reinforces Amazon's Expanding AI Opportunity

CITI'S TAKE

While AWS revenue growth of 39.3% Y/Y came in below elevated investor expectations, we emerge from Amazon's 3Q26 results incrementally positive on shares. We believe Amazon is building the compute necessary to satisfy demand and we note management's outlook for 40%+ AWS growth in both '27E **and** '28E with a relatively clear path to $1T in revenue over the next 5-10 years and margins that we believe can (at least) be sustained in the mid-to-high 30% range. We are encouraged with Amazon's TTM Grocery sales reaching ~$250B in 3Q led by investments in delivery speed and we believe Amazon's Agentic Commerce strategy is taking shape around Alexa+. We acknowledge the concerns around AWS growth in 3Q, but with shares down ~7% in after-hours trading and currently trading at ~15x our updated '28 GAAP EPS, we would be taking advantage of the dislocation in shares. Reit. Buy rating and $350 TP.

5 Key Takeaways from 3Q826 Earnings

1) 40%+ AWS Revenue Growth in '27 and '28 Creates a Clearer Path Towards a $1T Annual Revenue Business in the next 5-10 years—and while 3Q's 39% Y/Y AWS growth came in below expectations, AI revenue grew triple digits in 3Q and we believe AMZN has the capacity to meet continued demand and we note management's commentary on reaching $1T of annual revenue in the next 5-10 years suggests a 41% 5-year CAGR or a ~19% 10-year CAGR (with potential Trainium sales shortening the timeframe, with sales potentially beginning in 2H27).

2) AWS Backlog Reaches $578B (+169% Y/Y)—with management suggesting demand remains ahead of available infrastructure, though we believe AWS is on track to double compute capacity by '27 as it plans to deploy an additional 2M NVIDIA GPUs through 2028;

3) Amazon's Agentic Commerce Strategy Taking Shape as Alexa for Shopping Surpasses 400M Customers—as customer interactions rose 570% Y/Y, key here, we believe AMZN is open to working with horizontal agents (via Alexa+ perhaps), like Muse, but that the data exchange, integration, and value exchange have to be more clear;

4) Grocery Sales Reach ~$250B TTM as Perishables Drive Higher Engagement Across the Platform—specifically, customers who purchase perishables through Same-Day Delivery buy ~7x more everyday essentials units, while active grocery customers purchase ~4x more Home and Apparel units, further highlighting Grocery's role in expanding wallet share; and

5) Margin Expansion Should Continue, Led by AWS and N.A. Retail—said differently, we believe AWS' 38.7% 3Q margin is likely sustainable as Core AWS margins are in the 40% range and while N.A. Margins expanded 320bps Y/Y to 7.7% on efficiency initiatives and continued lower cost to serve, Leo manufacturing and launch costs could be capitalized in 1Q (we note incremental Y/Y Leo costs were ~$1B in 1Q26 and 2Q26 as a reference) which should lead to continued N.A. Retail margin expansion.

Quarterly Results Recap

- **Overall Results: Revenue In Line and OI Above Expectations:** Revenue of $201.9 billion (+12% Y/Y, +13% Y/Y ex-FX) came in line with consensus and compares to guidance of $197-$202 billion. OI of $28.1 billion (13.9% margin) came in ~7% above consensus and 6% above the high-end of guidance of $26.5 billion. GAAP EPS of $1.89 compares to consensus of $1.96.

- **AWS Revs +39% Y/Y & Margin of 38.7%**: AWS revenue of $46.0 billion delivered accelerating growth to +39% Y/Y, ~2% above consensus with AWS operating margins of 38.7%, above our 35.5% expectation.

- **N.A. & International Retail Trends Remain Healthy**—N.A. retail revenue of $112.9 billion (+6% Y/Y, +6% Y/Y ex-FX) was in line with consensus and International retail revenue of $43.1 billion (+5% Y/Y, +8% Y/Y ex-FX) came in ~1% below consensus. Advertising revenue of $19.6 billion grew 12% Y/Y ex-FX, a deceleration reflecting the Prime Day shift into 2Q, though Amazon expects growth to return to high teens in 4Q. NA Retail OI was $8.7 billion (7.7% margin), ~6% above our projection of $8.2 billion.

- **4Q Revenue and OI Guidance Relatively In-Line**: 4Q revenue guidance of $240-$247 billion came in relatively in line with consensus and assumes ~60 bps of unfavorable impact from FX. 4Q Operating Income guidance of $28.5-$33.5 billion compares to consensus of $33.1 billion. Amazon also shared expectations for 40%+ Y/Y AWS revenue growth in both 2027 and 2028 and continues to expect cash capital expenditures in 2026 of $220 billion.

Following 3Q26 results, shares of AMZN declined ~7% in afterhours trading and currently trade at ~15x our '28E P/E. We are rolling forward our valuation methodology to 2028E to reflect improving visibility. Our target price of $350 is based on ~23x our 2028E P/E (from ~31.5x our '27E P/E) whereby our '28E GAAP EPS is $15.10, and we note this implies 9x our '28E EV/EBITDA, which is at the lower end of Amazon's trading multiple over the past decade. We note Amazon's leading position within AWS and eCommerce, its Prime membership base, growing online advertising business, and improving margin profile, which combined deserve a premium to the market, in our view.

Updating our Projections: Following AMZN's 3Q26 earnings, we are increasing our AWS revenue projections to reflect stronger AI-driven demand, continued evidence that capacity remains the primary constraint on growth, and management's expectation for 40%+ AWS growth in both 2027 and 2028. Our overall revenue projections go up by 2% and 5% in 2027E and 2028E, respectively, and we raise our overall OI projections by 2% and 10% in 2027E and 2028E, respectively.

Company description

Amazon is a multinational eCommerce company and the world's largest retail provider. The company is focused on attracting five distinct customer sets: consumers, sellers, developers, enterprises, and content creators. On the consumer/seller side, Amazon provides a platform through which users can buy and sell products in a timely, convenient manner. On the developer/enterprise side, Amazon provides cloud-based, technological infrastructure to various businesses. Amazon also provides other services, such as advertising services.

Investment strategy

We rate Amazon a Buy. We view Amazon as one of the best positioned companies in our coverage universe across some of the largest Internet growth vectors—eCommerce, Online Advertising, and the Cloud. Amazon is gaining wallet share of retail spend as operational efficiencies expand FCF margins. Given continued share gains, a mix-shift to consumables (aided in part from its rebuilt, faster, and more efficient regionalized fulfillment network), expanding retail margins, and greater visibility at AWS (w/ GenAI creating multiple tailwinds) we believe Amazon's GAAP operating and FCF margins can expand significantly over the next several years.

Valuation

Our target price of $350 is based on ~23x our 2028E P/E whereby our '28E GAAP EPS is $15.10, and we note this implies 9x our '28E EV/EBITDA, which is at the lower end of Amazon's trading multiple over the past decade. We note Amazon's leading position within AWS and eCommerce, its Prime membership base, growing online advertising business, and improving margin profile, which combined deserve a premium to the market, in our view.

Risks

Key risks to shares achieving our price target include: (i) Macroeconomic given rising inflation and the impact a recession could have on consumer demand; (ii) the potential for Amazon to ramp its investment cycle impacting margin expansion; (iii) greater competition in the Cloud that could impact pricing; and (iv) regulatory risk in the U.S. and Europe, and we note the recently passed Digital Markets Act in Europe.

Analysts' compensation is determined by Citi Research management and Citigroup's senior management and is based upon activities and services intended to benefit the investor clients of Citigroup Global Markets Inc. and its affiliates (the "Firm"). Compensation is not linked to specific transactions or recommendations. Like all Firm employees, analysts receive compensation that is impacted by overall Firm profitability which includes investment banking, sales and trading, and principal trading revenues. One factor in equity research analyst compensation is arranging corporate access events between institutional clients and the management teams of covered companies. Typically, company management is more likely to participate when the analyst has a positive view of the company.

For financial instruments recommended in the Product in which the Firm is not a market maker, the Firm is a liquidity provider in such financial instruments (and any underlying instruments) and may act as principal in connection with transactions in such instruments. The Firm is a regular issuer of traded financial instruments linked to securities that may have been recommended in the Product. The Firm regularly trades in the securities of the issuer(s) discussed in the Product. The Firm may engage in securities transactions in a manner inconsistent with the Product and, with respect to securities covered by the Product, will buy or sell from customers on a principal basis.

Unless stated otherwise neither the Research Analyst nor any member of their team has viewed the material operations of the Companies for which an investment view has been provided within the past 12 months.

Guide to Citi Research Fundamental Research Investment Ratings:
Citi Research stock recommendations include an investment rating and an optional risk rating to highlight high risk stocks.
Risk rating takes into account both price volatility and fundamental criteria. Stocks will either have no risk rating or a High risk rating assigned.
Investment Ratings: Citi Research investment ratings are Buy, Neutral and Sell. Our ratings are a function of analyst expectations of expected total return ("ETR") and risk. ETR is the sum of the forecast price appreciation (or depreciation) plus the dividend yield for a stock within the next 12 months. The target price is based on a 12 month time horizon. The Investment rating definitions are: Buy (1) ETR of 15% or more or 25% or more for High risk stocks; and Sell (3) for negative ETR. Any covered stock not assigned a Buy or a Sell is a Neutral (2). For stocks rated Neutral (2), if an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Citi Research management not to assign a target price and, thus, not derive an ETR. Citi Research may suspend its rating and target price and assign "Rating Suspended" status for regulatory and/or internal policy reasons. Citi Research may also suspend its rating and target price and assign "Under Review" status for other exceptional circumstances (e.g. lack of

information critical to the analyst's thesis, trading suspension) affecting the company and/or trading in the company's securities. In both such situations, the rating and target price will show as "—" and "-" respectively in the rating history price chart. Prior to 11 April 2022 Citi Research assigned "Under Review" status to both situations and prior to 11 Nov 2020 only in exceptional circumstances. As soon as practically possible, the analyst will publish a note re-establishing a rating and investment thesis. Investment ratings are determined by the ranges described above at the time of initiation of coverage, a change in investment and/or risk rating, or a change in target price (subject to limited management discretion). At times, the expected total returns may fall outside of these ranges because of market price movements and/or other short-term volatility or trading patterns. Such interim deviations will be permitted but will become subject to review by Research Management. Your decision to buy or sell a security should be based upon your personal investment objectives and should be made only after evaluating the stock's expected performance and risk.

Catalyst Watch/Short Term Views ("STV") Ratings Disclosure:
Catalyst Watch and STV Upside/Downside calls: Citi Research may also include a Catalyst Watch or STV Upside or Downside call to indicate the analyst expects the share price to rise (fall) in absolute terms over a specified period of 30 or 90 days in reaction to one or more specific near-term catalysts or events impacting the company or the market. A Catalyst Watch will be published when Analyst confidence is high that an impact to share price will occur; it will be a STV when confidence level is moderate. A Catalyst Watch or STV Upside/Downside call will automatically expire at the end of the specified 30/90 day period. The Catalyst Watch will also be automatically removed if share price performance (calculated at market close) exceeds 15% against the direction of the call (unless over-ridden by the analyst). The analyst may also remove a Catalyst Watch or STV call prior to the end of the specified period in a published research note. A Catalyst Watch/STV Upside or Downside call may be different from and does not affect a stock's fundamental equity rating, which reflects a longer-term total absolute return expectation. For purposes of FINRA ratings-distribution-disclosure rules, a Catalyst Watch/STV Upside call corresponds to a buy recommendation and a Catalyst Watch/STV Downside call corresponds to a sell recommendation. Any stock not assigned to a Catalyst Watch Upside, Catalyst Watch Downside, STV Upside, or STV Downside call is considered Catalyst Watch/STV No View. For purposes of FINRA ratings distribution-disclosure rules, we correspond Catalyst Watch/STV No View to Hold in our ratings distribution table for our Catalyst Watch/STV Upside/Downside rating system. However, we reiterate that we do not consider No View to be a recommendation. For all Catalyst Watch/STV Upside/Downside calls, risk exists that the catalyst(s) and associated share-price movement will not materialize as expected.

As a convenience, certain, but not all, research content may be distributed through third party aggregators. Clients may receive published research reports by email, on a discretionary basis, and only after such research content has been broadly disseminated. Certain research is made available only to institutional investors to satisfy regulatory requirements. The level and types of services provided by Citi Research analysts to clients may vary depending on various factors such as the client's individual preferences as to the frequency and manner of receiving communications from analysts, the client's risk profile and investment focus and perspective (e.g. market-wide, sector specific, long term, short-term etc.), the size and scope of the overall client relationship with the Firm and legal and regulatory constraints.

Pursuant to Comissão de Valores Mobiliários Resolução 20 and ASIC Regulatory Guide 264, Citi is required to disclose whether a Citi related company or business has a commercial relationship with the subject company. Considering that Citi operates multiple businesses in more than 100 countries around the world, it is likely that Citi has a commercial relationship with the subject company.

the accuracy and completeness of the disclosures made in the Important Disclosures section of the Product. The Firm's research department has received assistance from the subject company(ies) referred to in this Product including, but not limited to, discussions with management of the subject company(ies). Firm policy prohibits research analysts from sending draft research to subject companies. However, it should be presumed that the author of the Product has had discussions with the subject company to ensure factual accuracy prior to publication. For non-fundamental research reports, Citi Research may not provide regular updates to the views, recommendations and facts included in the reports. Notwithstanding that Citi Research maintains coverage on, makes recommendations concerning or discusses issuers, Citi Research may be periodically restricted from referencing certain issuers due to legal or policy reasons. Where a component of a published trade idea is subject to a restriction, the trade idea will be removed from any list of open trade ideas included in the Product. Upon the lifting of the restriction, the trade idea will either be re-instated in the open trade ideas list if the analyst continues to support it or it will be officially closed. Citi Research may provide different research products and services to different classes of customers (for example, based upon long-term or short-term investment horizons) that may lead to differing conclusions or recommendations that could impact the price of a security contrary to the recommendations in the alternative research product, provided that each is consistent with the rating system for each respective product.

Investing in non-U.S. securities, including ADRs, may entail certain risks. The securities of non-U.S. issuers may not be registered with, nor be subject to the reporting requirements of the U.S. Securities and Exchange Commission. There may be limited information available on foreign securities. Foreign companies are generally not subject to uniform audit and reporting standards, practices and requirements comparable to those in the U.S. Securities of some foreign companies may be less liquid and their prices more volatile than securities of comparable U.S. companies. In addition, exchange rate movements may have an adverse effect on the value of an investment in a foreign stock and its corresponding dividend payment for U.S. investors. Net dividends to ADR investors are estimated, using withholding tax rates conventions, deemed accurate, but investors are urged to consult their tax advisor for exact dividend computations.
