F4Q26 Review: Beat & raise F2027 outlook on broadening AI infrastructure demand

PENG

12m Price Target: **\$85.00**Price: **\$64.21**Upside: **32.4%**

PENG's F4Q26 net sales of \$567 mn beat GS/Visible Alpha consensus of \$518/\$521 mn with outperformance across all three segments. **First, Advanced Computing revenue beat and F2027 outlook was raised on better-than-expected bookings trends, including 6 new AI infrastructure deals in the quarter** (4 neoclouds, 1 enterprise, 1 quant trader). Neoclouds are a growing vertical for the company, with PENG differentiating itself through its end-to-end capabilities including ClusterWare and services. Unit economics for neocloud customers look similar to PENG's existing enterprise customers. PENG guided F2027 Advanced Computing revenue to grow 40% +/- 10% (v. mid-teens % prior) driven by continued momentum in non-hyperscale AI infrastructure, partially offset by the absence of Edge and lower expected hyperscale sales. **Second, Integrated Memory revenue was stronger than expected driven by favorable pricing dynamics and increased volume** related to strong AI demand for memory across networking, hyperscale, and enterprise computing customers. PENG signed two new memory customer logos in the quarter (one core, one CXL) and has seen an acceleration in CXL demand, now expecting 10% of its annual segment revenue to come from CXL (2H weighted). PENG guided F2027 Integrated Memory revenue to grow 50% +/- 10% (v. preliminary guide >30%) driven by continued strong demand for memory supporting AI driven data center applications & new supplier arrangements. **Third, PENG's FY27 guidance highlights increasing operating leverage, with EPS expected to grow ~55% versus ~40% revenue growth at the midpoint.** Management expects continued expense discipline, AI-driven productivity gains, and a growing contribution from higher-value software and services to allow earnings growth to outpace revenue growth. We raise our F2027/28/29 EPS estimate by 32% on average & reiterate our Buy-rating on PENG, which we continue to view as well positioned to benefit from broader industry momentum in (1) on-premise AI infrastructure demand from enterprise, sovereign, and now

PENG's F4Q26 EPS of \$1.00 beat GS estimates/ Visible Alpha Consensus Data \$0.80/\$0.77.

- **PENG's F4Q26 net sales of \$567 mn beat GSe/consensus \$518/\$521mn. By segment:**
 - **Integrated Memory** sales of \$341 mn beat GSe/consensus \$315/\$308 mn.
 - **Advanced Computing** sales of \$154 mn beat GSe/consensus \$135/\$143 mn.
 - **Optimized LED** sales of \$72 mn beat GSe/consensus \$68/\$70 mn.
- **Gross profit of \$163 mn beat GSe/consensus \$135/\$137 mn.** Gross margins of 28.8% beat GS/consensus 26.0%/26.3%.
- **Non-GAAP EBIT of \$90 mn beat GS estimate/consensus \$73/\$69 mn.** EBIT margins of 15.8% beat GSe/consensus 14.1%/13.2% on higher gross margins.

PENG provided F2027 guidance for (1) net sales growth of +30% to 50% (v. ~30% in preliminary); (2) gross margins between 26%-30%; (3) opex between \$265-\$285 mn; (4) diluted EPS between \$3.75-\$5.15 (+55% yoy at the midpoint); and (5) diluted shares of 63 mn.

- **Integrated Memory** revenue to grow 50% +/- 10% driven by continued strong demand for memory supporting AI driven data center applications
- **Advanced Computing** revenue to grow 40% +/- 10% driven by continued momentum in non-hyperscale AI infrastructure, partially offset by the absence of Edge and lower expected hyperscale sales. PENG raised Advanced Computing expectations from previously preliminary expectations for mid-teens % growth on the strength on better than expected bookings.
- **Optimized LED** flat year over year.

Estimate Changes & Price Target

We raise our F2027/28/29 EPS estimate by 32% on average, driven by an ~11% increase in revenue (mostly Advanced Computing on better bookings across neoclouds and enterprise), with higher margins on better business mix and operating leverage.

Valuation. We are **Buy** rated on PENG with a 12-month target price of **\$85 (v. \$75 prior)** based on a blended fundamental/M&A valuation methodology. Our fundamental value of \$85 (85% weight) is based on 15x NTM+1Y P/E (v \$72 at 18x prior). We lower our multiple on compression in the comp group and structural margin pressure from stronger Advanced Compute hardware sales. Our theoretical M&A value of \$88 (15% weight) is based on 2.0X NTM+1Y EV/Sales (unchanged) and is largely in line with precedent transactions in the advanced computing and integrated memory space.

Key risks include: (-) Memory market cyclicality; (-) Competition from OEMs for Advanced Computing; (-) China revenue exposure; (-) Supply chain disruptions; (-) Enterprise demand for AI

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DA CF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators.
