3Q26 net profit miss; AIDC and orders stand out

Maintain Buy; lower TP to CNY69.53, implying 31.8% upside

3Q26 net profit miss on impairment charges

Jinpan reported 9M26 revenue of CNY6.10bn (+17.5% y-y) and net profit of CNY544mn (+12.0% y-y). In 3Q26, revenue reached CNY2.55bn (+24.9% y-y, +25.4% q-q), while net profit came in at CNY241mn (+9.4% y-y, +26.9% q-q), both showing a sequential improvement. While 3Q26 revenue was broadly in line with our expectations, net profit fell short, primarily due to credit and asset impairment charges, in our view. According to Jinpan's disclosure, credit impairment losses and asset impairment losses totaled CNY85.1mn and CNY16.3mn, respectively, in 9M26, amounting to CNY101.4mn combined. Of these, CNY53.6mn in credit impairment losses and CNY5.9mn in asset impairment losses were recognized in 3Q26, together accounting for c. 59% of the 9M26 total. The concentration of impairment charges in 3Q26 weighed on quarterly earnings.

Robust overseas and AIDC growth; strong order backlog supports future growth

Jinpan maintained strong growth in its overseas and data center businesses in 9M26, supported by accelerating order intake. According to its 3Q26 results, overseas revenue rose 58.1% y-y to CNY2.51bn in 9M26, while AIDC revenue grew 146.2% y-y to CNY2.40bn, including CNY1.13bn (+179.4% y-y) in 3Q26. AIDC has emerged as a key growth driver for the company. On the order front, newly-secured orders increased 82.3% y-y to CNY11.12bn in 9M26, with CNY6.15bn in overseas orders (+296.5% y-y) and CNY5.68bn in AIDC orders (+472.0% y-y). As of end-3Q26, the company's order backlog stood at CNY11.30bn (+62.7% y-y), with overseas orders accounting for 61.8% and AIDC-related orders 49.2%, reflecting continued improvement in the order mix. We expect continued overseas expansion and the gradual delivery of AIDC orders to sustain earnings growth, although the pace of order fulfillment and revenue recognition will remain key determinants of future performance.

Maintain Buy; cut TP to CNY69.53, implying 31.8% upside

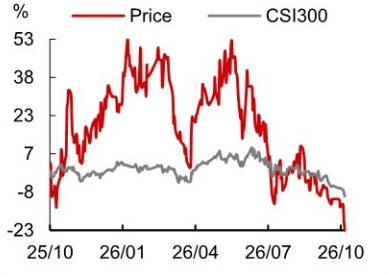

Despite the 3Q26 earnings miss, we remain positive on the medium- to long-term growth prospects supported by Jinpan's AIDC business and overseas expansion. We maintain our 2026-28F revenue forecasts of CNY8.93bn/CNY11.74bn/CNY14.95bn and gross margin assumptions of 25.8%/27.0%/27.5%. However, we raise 2026F credit impairment loss assumption by c. CNY50mn to CNY117mn. Accordingly, we lower our 2026F net profit forecast by 5.7% to CNY840mn, while leaving 2027-28F forecasts unchanged. On valuation, we roll forward our valuation base year to 2027F and assign a target P/E multiple of 24x (vs. 42x 2026F previously), a modest discount to the peer average of 25x, reflecting the company's slightly slower projected earnings growth vs. peers. Based on our 2027F EPS of CNY2.90 (vs. 2026F EPS of CNY1.94 previously), we lower our TP to CNY69.53 from CNY81.33, implying 31.8% upside. Maintain Buy. **Key downside risks:** orders, overseas expansion and emerging businesses below expectations; higher credit impairment charges.

Company profile

Jinpan is a global power equipment supplier engaged in the R&D, production and sales of transformers, integrated electrical equipment and energy storage products. The company has fully adopted a digital manufacturing model, and provides power supply solutions and high-end equipment for renewable energy, AIDC power systems, new infrastructure, energy efficiency and rail transportation applications.

Valuation Methodology

Our target price of CNY69.53 is based on a target P/E of 24x and 2027F EPS of CNY2.90. We apply a discount to the peer valuation average to reflect the company's relatively lower profit growth profile. The stock's benchmark index is the CSI 300 Index.

Risks that may impede the achievement of the target price

Key downside risks include weaker-than-expected orders, slower-than-expected overseas expansion, weaker-than-expected progress in emerging businesses, and higher-than-expected credit impairment charges.

ESG

Jinpan has developed integrated energy management systems, PV monitoring and O&M systems, and centralized renewable energy control systems to improve environmental risk management and energy efficiency. The company also supports emissions reduction through green power procurement and Green Electricity Certificate-based carbon offsetting. Four of its zero-carbon factories are currently in operation.

This report has been produced by Nomura Orient International Securities Co., Ltd. (“Nomura Orient International Securities”).
The information contained herein has been obtained from publicly available sources acknowledged by Nomura Orient International Securities, including information from third parties, such as rating information from credit rating agencies. Nomura Orient International Securities and its affiliates do not make any guarantee as to the accuracy, completeness, or timeliness of such information, nor do they guarantee that such information will not change. In particular, this report does not provide any tax-related information or opinions.
The information and opinions contained herein are for investors’ reference only and shall not be construed as an offer or solicitation to buy or sell any securities or other financial products, nor do they constitute services to advise on any investment decision. Such information and opinions do not take into account the particular investment objectives, financial situation, or specific needs of any recipient of this report, and under no circumstances shall the information contained herein or the opinions expressed herein constitute a personal recommendation or actionable investment advice for any individual. Investors shall make their own independent evaluation of the information and opinions contained herein, and make decisions independently and prudently at their own risk. Before making any decision based on the information and opinions contained herein, investors shall consider their individual investment objectives, financial situations and specific needs at the time, consult with professional consultants regarding such decision, and bear all the risks. Nomura Orient International Securities and/or its affiliates (including their respective employees) shall not be held liable for any errors or omissions in the information and opinions herein (regardless of the reasons for such errors or omissions), or for any consequences arising from the use of or reference upon this report.
The opinions, assessments and forecasts contained herein are only the opinions and judgments at the time of this report’s production and publication (or the specific date stated in the report). Such opinions, assessments and forecasts are subject to change and may be amended without any notification. At different periods, Nomura Orient International Securities may release reports which are inconsistent with the opinions, assessments and forecasts contained herein.
The analyst(s) named in this report may, within this report or in communications with clients, sales personnel, trading personnel and other business personnel of Nomura Orient International Securities, discuss trading strategies regarding events that may have a short-term impact on the market price of the subject securities or other financial products covered in this report. Such analysis of short-term impact may be contrary to or inconsistent with the analyst’s published views on the price target, rating, valuation, or forecast of the subject securities or other financial products. Regardless of any such contradiction or inconsistency, this does not affect the analyst’s fundamental rating or assessment of the subject securities or other financial products under their coverage.
Nomura Orient International Securities and/or its affiliates may issue other reports inconsistent with or reaching different conclusions from the information contained in this report. The views, insights, and analytical methods expressed in this report reflect those of the named analyst(s), and do not necessarily represent the views of Nomura Orient International Securities and/or its affiliates. Sales personnel, trading personnel and other business personnel of Nomura Orient International Securities and/or its affiliates may provide market commentary and/or trading ideas, orally or in writing, that differ from the opinions and recommendations in this report, based on different assumptions, standards or analytical methods. Nomura Orient International Securities is under no obligation to update such recommendations and opinions for all recipients of this report. The asset management, proprietary trading and other investment-related departments of Nomura Orient International Securities and/or its affiliates may make investment decisions independently that are inconsistent with the recommendations or opinions expressed in this report.
Unless stated otherwise, any performance data referenced in this report represents past performance. Past performance is not an indicator of future performance. No representation or warranty is made by Nomura Orient International Securities that any returns indicated will be achieved. Forecasts included in the analysis may be based on certain assumptions. Changes to these assumptions may have a material impact on any such returns detailed.
This report is provided solely on the basis that the recipient is deemed capable of independently evaluating investment risks and exercising independent judgment in making investment decisions. Independent investment judgment means that investment decisions are made independently by the investors themselves based on their own assessment of potential investment objectives, needs, opportunities, risks, market factors and other investment considerations.

**The Nomura Group as defined in the Disclaimer section at the end of this report.*
*** As defined by the EU Market Abuse Regulation*

Definition of Nomura Group's equity research rating system and sectors

The rating system is a relative system, indicating expected performance against a specific benchmark identified for each individual stock, subject to limited management discretion. An analyst's target price is an assessment of the current intrinsic fair value of the stock based on an appropriate valuation methodology determined by the analyst. Valuation methodologies include, but are not limited to, discounted cash flow analysis, expected return on equity and multiple analysis. Analysts may also indicate expected absolute upside/downside relative to the stated target price, defined as (target price - current price)/current price.

STOCKS

A rating of **'Buy'**, indicates that the analyst expects the stock to outperform the Benchmark over the next 12 months. A rating of **'Neutral'**, indicates that the analyst expects the stock to perform in line with the Benchmark over the next 12 months. A rating of **'Reduce'**, indicates that the analyst expects the stock to underperform the Benchmark over the next 12 months. A rating of **'Suspended'**, indicates that the rating, target price and estimates have been suspended temporarily to comply with applicable regulations and/or firm policies. Securities and/or companies that are labelled as **'Not rated'** or shown as **'No rating'** are not in regular research coverage. Investors should not expect continuing or additional information from Nomura relating to such securities and/or companies. Benchmarks are as follows: **United States/Europe/Asia ex-Japan:** please see valuation methodologies for explanations of relevant benchmarks for stocks, which can be accessed at: http://go.nomuranow.com/research/m/Disclosures; **Global Emerging Markets (ex-Asia):** MSCI Emerging Markets ex-Asia, unless otherwise stated in the valuation methodology; **Japan:** Russell/Nomura Large Cap.

SECTORS

A **'Bullish'** stance, indicates that the analyst expects the sector to outperform the Benchmark during the next 12 months. A **'Neutral'** stance, indicates that the analyst expects the sector to perform in line with the Benchmark during the next 12 months. A **'Bearish'** stance, indicates that the analyst expects the sector to underperform the Benchmark during the next 12 months. Sectors that are labelled as **'Not rated'** or shown as **'N/A'** are not assigned ratings. Benchmarks are as follows: **United States:** S&P 500; **Europe:** Dow Jones STOXX 600; **Global Emerging Markets (ex-Asia):** MSCI Emerging Markets ex-Asia. **Japan/Asia ex-Japan:** Sector ratings are not assigned.

Target Price

A Target Price, if discussed, indicates the analyst's forecast for the share price with a 12-month time horizon, reflecting in part the analyst's estimates for the company's earnings. The achievement of any target price may be impeded by general market and macroeconomic trends, and by other risks related to the company or the market, and may not occur if the company's earnings differ from estimates.

Investors should consider this document as only a single factor in making their investment decision and, as such, the report should not be viewed as identifying or suggesting all risks, direct or indirect, that may be associated with any investment decision. Nomura Group produces a number of different types of research product including, among others, fundamental analysis and quantitative analysis; recommendations contained in one type of research product may differ from recommendations contained in other types of research product, whether as a result of differing time horizons, methodologies or otherwise. The Nomura Group publishes research product in a number of different ways including the posting of product on the Nomura Group portals and/or distribution directly to clients. Different groups of clients may receive different products and services from the research department depending on their individual requirements.

Figures presented herein may refer to past performance or simulations based on past performance which are not reliable indicators of future or likely performance. Where the information contains an expectation, projection or indication of future performance and business prospects, such forecasts may not be a reliable indicator of future or likely performance. Moreover, simulations are based on models and simplifying assumptions which may oversimplify and not reflect the future distribution of returns. Any figure, strategy or index created and published for illustrative purposes within this document is not intended for “use” as a “benchmark” as defined by the European Benchmark Regulation.

Certain securities are subject to fluctuations in exchange rates that could have an adverse effect on the value or price of, or income derived from, the investment.

With respect to Fixed Income Research: Recommendations fall into two categories: tactical, which typically last up to three months; or strategic, which typically last from 6-12 months. However, trade recommendations may be reviewed at any time as circumstances change. ‘Stop loss’ levels for trades are also provided; which, if hit, closes the trade recommendation automatically. Prices and yields shown in recommendations are taken at the time of submission for publication and are based on either indicative Bloomberg, LSEG or Nomura prices and yields at that time. The prices and yields shown are not necessarily those at which the trade recommendation can be implemented.

The securities described herein may not have been registered under the US Securities Act of 1933 (the ‘1933 Act’), and, in such case, may not be offered or sold in the US or to US persons unless they have been registered under the 1933 Act, or except in compliance with an exemption from the registration requirements of the 1933 Act. Unless governing law permits otherwise, any transaction should be executed via a Nomura entity in your home jurisdiction.
