Global Autos Driver

Humanoids & Robotaxi Rides Weekly

Please find below the latest developments in autonomous driving across the world:

- **Waymo closed a $5 billion term loan, its first debt financing, to fund expansion of its fully autonomous ride-hailing service** in the U.S. and internationally. Waymo described the loan as a step in its evolution into a scaling commercial enterprise.
- **Xpeng named its robotaxi Xpeng YOYO and opened public invitation-code registration in China,** moving the program from employee testing toward commercial operations. The vehicle uses four in-house Turing AI chips with a combined 3,000 TOPS of computing power. It also launched a dedicated page on its official website, positioning the new brand as the commercial identity for services offered to users and partners.
- **Volvo Autonomous Solutions and Waabi began autonomous freight operations for Warp on the Dallas-Houston corridor,** marking the first customer deployment under the two companies' partnership. Volvo said the Volvo VNL Autonomous, powered by the Waabi Driver, is now hauling freight directly to third-party facilities with an observer currently in the driver's seat. Warp will use the operation to move customer goods autonomously along the route for its less-than-truckload and full-truckload services.
- **Two Einride SAE Level 4 autonomous electric trucks are now hauling freight daily between EASE Logistics warehouses in Marysville, Ohio, operating with no one in the cab**. The milestone follows Einride and EASE Logistics' May 2026 announcement placing the trucks into proof-of-concept service. The companies said the Marysville operation represents a new phase of the Truck Automation Corridor Project, a joint effort to prepare Ohio and Indiana interstates for automated freight.

Please find below the latest developments in Humanoids across the world:

- **Faraday Future plans to open a robotics factory in the United States by the end of 2026** as it expands into humanoid and other embodied AI robots. The company aims to have the first robot from its 'Built in USA' program roll off the production line in February 2027, followed by increasing localization of robot manufacturing in the U.S.
- **Boston Dynamics appointed Rohit Prasad, former Amazon Alexa executive, as CEO.** Prasad will lead the company's push toward commercializing humanoid robots, including Atlas, with plans for deployment at Hyundai's Georgia plant starting in 2028. Prasad's background includes leading Amazon's AI and foundation model development, and his appointment comes as Boston Dynamics prepares for broader n and large-scale humanoid production.
- **Agile Robots said its CEO expects physical AI to be 10x bigger than automotive and announced Agile ONE, a 174 cm humanoid robot with a 20 kg payload that has entered initial production and is targeted at**

Analyst Certification: The Research Analyst(s) denoted by an "AC" on the cover of this report certifies (or, where multiple Research Analysts are primarily responsible for this report, the Research Analyst denoted by an "AC" on the cover or within the document individually certifies, with respect to each security or issuer that the Research Analyst covers in this research) that: (1) all of the views expressed in this report accurately reflect the Research Analyst's personal views about any and all of the subject securities or issuers; and (2) no part of any of the Research Analyst's compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed by the Research Analyst(s) in this report. For all Korea-based Research Analysts listed on the front cover, if applicable, they also certify, as per KOFIA requirements, that the Research Analyst's analysis was made in good faith and that the views reflect the Research Analyst's own opinion, without undue influence or intervention.

All authors named within this report are Research Analysts who produce independent research unless otherwise specified. In Europe, Sector Specialists (Sales and Trading) may be shown on this report as contacts but are not authors of the report or part of the Research Department.

Important Disclosures

Company-Specific Disclosures: J.P. Morgan does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. Important disclosures, including price charts and credit opinion history tables (if applicable), are available for compendium reports and all J.P. Morgan–covered companies, and certain non-covered companies, by visiting https://www.jpmm.com/research/disclosures, calling 1-800-477-0406, or e-mailing research.disclosure.inquiries@jpmorgan.com with your request.

Explanation of Equity Research Ratings, Designations and Analyst(s) Coverage Universe:
J.P. Morgan uses the following rating system: Overweight (over the duration of the price target indicated in this report, we expect this stock will outperform the average total return of the stocks in the Research Analyst's, or the Research Analyst's team's, coverage universe); Neutral (over the duration of the price target indicated in this report, we expect this stock will perform in line with the average total return of the stocks in the Research Analyst's, or the Research Analyst's team's, coverage universe); and Underweight (over the duration of the price target indicated in this report, we expect this stock will underperform the average total return of the stocks in the Research Analyst's, or the Research Analyst's team's, coverage universe. NR is Not Rated. In this case, J.P. Morgan has removed the rating and, if applicable, the price target, for this stock because of either a lack of a sufficient fundamental basis or for legal, regulatory or policy reasons. The previous rating and, if applicable, the price target, no longer should be relied upon. An NR designation is not a recommendation or a rating. Some stocks under coverage have a rating but no price target; in these cases, we expect the stock will outperform/perform in line/underperform the average total return of the stocks in the Research Analyst's, or the Research Analyst's team's, coverage universe of the relevant duration of the region. In our Asia (ex-Australia and ex-India) and U.K. small- and mid-cap Equity Research, each stock's expected total return is compared to the expected total return of a benchmark country market index, not to those Research Analysts' coverage universe. If it does not appear in the Important Disclosures section of this report, the certifying Research Analyst's coverage universe can be found on J.P. Morgan's Research website, https://www.jpmorganmarkets.com.
