

Pharmaron (3759.HK)

2Q26 earnings review: Strong CDMO order momentum supports FY26 guidance raise to 15-20%

3759.HK	12m Price Target: HK\$33.20	Price: HK\$33.86	Downside: 1.9%
300759.SZ	12m Price Target: Rmb41.90	Price: Rmb50.90	Downside: 17.7%

In line with the preliminary results, 2Q26 revenue increased 20.2% y/y, driven primarily by continued strength in the CDMO business (+42% y/y). Adjusted non-IFRS net profit rose 23.8% y/y, with adj NPM at 12.5%, vs 11.4%/12.2% in 1Q26/2Q25), with margin expansion in CDMO (26.8% vs. 24.1%/23.4% in 1Q26/2Q25) and Clinical Development (12.1% vs. 7.1%/12.8% in 1Q26/2Q25) more than offset softer Laboratory Services margins (39.8% vs. 41.7%/42.0% in 1Q26/2Q25) impacted by FX headwinds. Order momentum remained robust, with total new project orders up 30% y/y, led by CDMO (+50% y/y). Supported by a strong backlog and improving project conversion, management raised FY26 revenue growth guidance to 15-20% (from 12-18%), incorporating a c.3% FX headwind, and expects margins to continue improving sequentially through 2H26 as more late-stage CDMO projects are delivered.

GS View: Pharmaron's share price (A/H) outperformed by 91%/85% in 3M versus our healthcare service coverage (+24% on avg), driven by: (1) a catch-up re-rating amid improving CDMO sentiment and still-attractive valuation; (2) greater exposure to early-stage discovery and development activities, providing higher operational leverage to a recovery in global and domestic R&D demand, partially reflected in improving safety assessment and NHP pricing; (3) continued validation of its CRDMO model through increasing commercialization project wins and strong CDMO order momentum; and (4) potential upside from AI-driven drug discovery demand, with management indicating that 7-8% of Laboratory Services revenue is linked to AI-related customers and that AI-biotech companies accounted for 2 of its top 20 clients and 4 of its top 50 clients in 2025. We view the guidance raise as a positive indicator of improving fundamentals and stronger earnings' visibility, and therefore raise our adjusted non-IFRS net profit estimates by +3.0%/+5.1%/+4.9% over FY26E-28E.

Accelerating capacity expansion to support medium-term CDMO growth:

Management raised its FY26 capex budget to c.Rmb3.6bn, +1bn from FY25 level (vs. prior guidance of slightly above FY25 levels at the start of the year), primarily to expand CDMO capacity and new modality capabilities. Investment priorities include new small-molecule CDMO facilities in Shaoxing and Hangzhou, solid-phase and future liquid-phase peptide manufacturing for cyclic peptide, as well as bioconjugates infrastructure to support ADC commercialization. We view the increased investment as consistent with management's strategy to deepen CRDMO integration, broaden modality coverage and position the company to capture larger and later-stage opportunities over time.

Continued customer acquisition and strengthening recognition among MNC client:

Customer acquisition remained healthy, with over 470 new customers added in 1H26 and more than 3,400 active customers globally. Revenue from the top 20 global pharmaceutical companies increased 32% y/y, highlighting continued penetration among MNC clients and an expanding commercial track record. Management noted that the company is further integrating its service platforms and enhancing capabilities across new modalities to better address evolving R&D requirements, while strengthening collaboration between its CRO and CDMO divisions to capture opportunities across the full development lifecycle. Management also highlighted growing focus on emerging modalities such as PROTACs and molecular glues.

Segment review:

- **Laboratory Services.** 2Q26 revenue increased 13.9% y/y to Rmb2.43bn, with gross margin declining 2.2ppt y/y and 1.9ppt q/q to 39.8%, mainly due to Rmb appreciation against the USD. Laboratory chemistry delivered solid growth, while Bioscience services saw strong momentum now accounted for 60%+ of segment revenue, driven by new modalities (+40% y/y, excl. CGT; +25% post integration). New purchase orders increased 20% y/y, and the company had participated in 811 drug discovery projects as of 1H26. Beijing Campus III came online, while Ningbo Campuses III and IV remained on track. The company continued to integrate AI and new technologies into workflows, including AI-driven enzyme and protein design, organoid and organ-on-chip models, to accelerate asset development and respond more efficiently to customer demand.
- **CDMO Services.** 2Q26 revenue increased 42.0% y/y to Rmb1.01bn, with gross margin improving 3.4ppt y/y and 2.7ppt q/q to 26.8%. CRDMO synergies remained strong, with 85%+ of CDMO revenue generated from existing laboratory services customers. New POs grew 50%+ y/y, while advances in large-scale small molecule CDMO drove rapid growth and supported mgmt's expectation of increased project delivery in 2H26 and further margin improvement. The company also reached a commercial manufacturing milestone by signing an agreement with an MNC for an oral GLP-1 DP.
- **Clinical Development Services.** 2Q26 revenue increased 15.5% y/y to Rmb568mn, with gross margin declining 0.7ppt y/y but improving 5.0ppt q/q to 12.1%. Management noted that margins have bottomed and expects continued improvement, supported by stabilizing and modestly recovering clinical CRO and SMO pricing. New POs increased 30% y/y. The company continued to improve

productivity through refined operations and AI-enabled tools across pharmacovigilance, biostatistics, regulatory affairs and data management, enhancing service quality and reducing costs.

Valuation and risks: We fine-tune our 2026E-28E non-IFRS net profit estimates by +3.0%/+5.1%/+4.9%. We are Buy/Neutral on Pharmaron H/A. Our 12-m TP's of HK\$33.2(H) / Rmb41.9 (A) (from HK\$29.2 (H) / Rmb36.8 (A)) are based on 12m fwd P/E of 20x (from 19x, mark-to-market). Our target price for the H-share is derived based on an A-H premium of 37.5%. Key upside risks (for A-share): 1) Accelerated revenue conversion from increasing customer engagement/RFP with a better-than-expected biotech funding recovery; 2) better than-expected facilities ramp-up or lower loss of overseas facilities; and 3) better-than-expected order signing or improving profitability for CGT business. Downside risks (both H- and A-shares): 1) Escalation in US-China trade tensions; 2) growing labor cost and challenges in retaining key talent; and 3) a slowdown in global pharma R&D spending or venture capital/IPO market financing.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; registered market maker. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for “wholesale clients” within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client’s objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client’s own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs’ Australian Sell-Side Research Independence Policy Statement are available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at <https://www.gs.com/worldwide/brazil/area/gir/index.html>. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst – SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock’s total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region’s Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts’ investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or

policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
