Battery Weekly 10 August

America

- [Factorial and Tulip Tech partner on solid-state batteries for drones.- electrive.com](#) Factorial Energy and Dutch battery specialist Tulip Tech have formed a strategic partnership to commercialize solid-state and lithium-metal batteries for drone applications. The collaboration follows successful flight tests that demonstrated more than 30% longer flight range compared with conventional lithium-ion batteries. The companies will jointly develop a commercialization roadmap and scale production for UAV markets, targeting growing demand in commercial, industrial, and defense sectors. The partnership marks Factorial's expansion beyond automotive batteries into aerospace applications, leveraging its high-energy-density battery technology to improve drone flight time, payload capacity, and operational flexibility.
- [Ford 'Fathom' Truck to Vie With China's EVs at Sub-\\$30,000 Price.-BNEF](#) Ford will launch the Fathom, an affordable electric pickup starting at \$29,945, with pre-orders and deliveries planned for 2027. As the first model based on Ford's new universal EV platform, the Fathom is designed to compete with low-cost Chinese EVs through improved efficiency, connected technology, and BlueCruise driver assistance. The model represents a key test of Ford's ability to produce profitable, mass-market EVs after restructuring its loss-making electric vehicle business.
- [Engie Flags Lower Renewable Additions Due to Slow US Permitting.-BNEF](#) French utility Engie expects its renewable energy and battery storage capacity additions to slow in 2026 as permitting delays in the United States, particularly for wind projects, continue to affect project timelines. The company now expects annual capacity additions to be slightly below the 5.5 GW added in 2025, although it still plans to bring 1.2 GW of new capacity online in the U.S. this year. Despite the near-term slowdown, Engie maintains that its global project pipeline and potential acquisitions will keep it on track to achieve its 2030 clean energy growth targets, with renewable and battery storage capacity reaching 59.5 GW by mid-2026.
- [Syntropic and Unigridd target 1 GWh sodium-ion deployment in 2027.-bestmag](#) U.S. energy storage companies Syntropic Power and Unigridd have formed a strategic partnership to commercialize sodium-ion battery technology in North America, targeting the deployment of 1 GWh of energy storage systems in 2027. The collaboration will integrate Unigridd's sodium chromium oxide (NCO) battery chemistry into Syntropic's residential and grid-scale storage platforms, including products for virtual power plants, commercial applications, and utility-scale energy storage. Independent testing demonstrated high efficiency, strong cycle life, and enhanced thermal stability, supporting the companies' goal of building a domestically focused sodium-ion supply chain and expanding alternatives to lithium-ion batteries for stationary energy storage.

Asia

- [Chinese Renewable Energy Giant Envision Launches Data Center.- BNEF](#) Chinese renewable energy company Envision Group has commissioned the first 120 MW phase of its Galaxy Campus data center project in Inner Mongolia, marking its entry into the fast-growing AI infrastructure sector. The project is planned to scale to 2 GW, potentially making it one of China's largest data center campuses. Leveraging its renewable energy portfolio, Envision will supply 80% of the facility's power from nearby wind farms, supported by battery energy storage systems instead of traditional diesel backup generators. The development is part of Envision's broader strategy to build 5 GW of AI data center capacity globally by 2030, combining clean energy generation, energy storage, and digital infrastructure.

- [Tata's Battery Unit Turns to Own Tech for Making Lithium Cells.- BNEF](#) Agratas Energy Storage Solutions, the battery manufacturing arm of India's Tata Group, is developing its own lithium iron phosphate (LFP) battery cell technology and building a pilot production line at its upcoming Sanand, Gujarat battery factory. The move comes as Chinese restrictions on battery manufacturing know-how make technology licensing increasingly difficult for Indian companies. Agratas plans to produce both LFP and NMC (nickel-manganese-cobalt) batteries, with LFP cells targeting the rapidly growing grid-scale energy storage market, while NMC cells will be supplied to EV applications including Jaguar Land Rover. The strategy strengthens Tata's ambition to build a domestic battery manufacturing ecosystem and reduce dependence on foreign technology.
- [India Approves Incentives to Build 5GW Floating Solar Projects.- BNEF](#) India's cabinet has approved a 50.7 billion rupee (US\$531 million) incentive program to support the development of 5 GW of floating solar capacity over the next five years. The scheme will provide 10 million rupees per MW of installed capacity and requires projects to include at least two hours of battery energy storage. The initiative supports India's broader goal of reaching 500 GW of clean energy capacity by 2030 and reflects growing interest in floating solar as a way to expand renewable energy deployment while minimizing land-use constraints. India currently has around 700 MW of floating solar capacity, with studies indicating a potential market of more than 100 GW.
- [China's Ronbay Gains on USD700 Million Bet on Sodium-Ion Batteries.- yicaiglobal.com](#) Ronbay New Energy Technology plans to invest CNY 4.7 billion (USD 700 million) to build a new sodium-ion battery materials plant in Hubei, China, with a planned annual capacity of 300,000 tonnes. The project aims to meet rising demand for sodium-ion batteries, strengthen Ronbay's position in the growing energy storage market, and support key customers such as CATL, with whom the company has a long-term sodium-ion materials supply agreement. The first production phase is expected to begin operation in 2027.
- [China's first sodium-ion dump truck enters service.- electrive.com](#) Chinese companies Hina Battery and Tonly Heavy Industries have delivered what they describe as the world's first all-electric mining dump truck powered by a sodium-ion battery. The vehicle uses Hina's 676 kWh sodium-ion battery system, offering fast charging in 20-25 minutes and a lifespan of more than 8,000 charge cycles. Designed for mining operations, the technology benefits from strong low-temperature performance and high durability, making it well-suited for demanding industrial environments. The project marks another step toward the commercialization of sodium-ion batteries in heavy-duty vehicles and energy storage applications, as China accelerates development of alternatives to lithium-ion technology.
- [POSCO Future M Agrees 190,000-Ton LFP Cathode Deal.- thelec.net](#) POSCO Future M has reached a long-term agreement with a South Korean battery manufacturer to supply more than 190,000 tonnes of LFP (lithium iron phosphate) cathode materials from 2027 to 2032. To support the contract, the company has converted part of its Pohang cathode production facility from high-nickel materials to LFP production and plans to begin commercial shipments by the end of 2026. POSCO Future M expects to enhance cost competitiveness by utilizing group resources, including iron oxide byproducts from steelmaking and lithium sourced from Argentina, while pursuing additional LFP supply opportunities as demand for ESS and cost-effective battery technologies continues to grow.
- [Lotte Energy Materials to Bring Malaysian Copper Foil Operations to Full Capacity This Year.- thelec.net](#) South Korean battery materials producer Lotte Energy Materials plans to bring its Malaysia copper foil operations to full production capacity by the end of 2026, driven by growing demand from AI data centers, energy storage systems (ESS), and high-power battery applications. The company recently started operations at its fifth Malaysian plant and has accelerated the launch of its sixth facility to the fourth quarter of this year. Demand for battery copper foil used in North American ESS projects and advanced circuit foil for AI infrastructure continues to grow, positioning Lotte to benefit from expanding investments in both energy storage and artificial intelligence supply chains.
- [Shinheung SEC to Boost Battery Component Output by 20% Amid Samsung SDI Cylindrical Cell Shortage.- thelec.net](#) South Korean battery component supplier Shinheung SEC is increasing production capacity for cylindrical battery safety components by 20% at its Malaysia facility, raising monthly output from 80 million to 100 million units. The expansion is being driven by strong demand for battery backup units (BBUs) used in AI data centers, which rely heavily on high-performance cylindrical batteries. As a key supplier to Samsung SDI, Shinheung SEC provides most of the cap assemblies and current interrupt devices (CIDs) used in Samsung's cylindrical cells. The company is also expected to benefit from growing ESS demand, including Samsung SDI's upcoming LFP battery production in the United States, positioning it for stronger earnings growth in 2026.
- [DeltaX to Build ESS Production Facility in Uiryeong County With 14.8 Billion Won Investment.- thelec.net](#) South Korean technology company DeltaX has signed a KRW 14.8 billion (US\$11 million) investment agreement with Uiryeong County to build a new manufacturing facility for AI and battery energy storage system (ESS) products by 2028. The project will support local job creation and expand DeltaX's production capabilities as demand grows for AI infrastructure and energy storage solutions. The company, which develops industrial AI and ESS technologies and is collaborating with SoftBank on energy storage solutions for AI data centers, aims to strengthen its position in both domestic and international markets, including the United States, Japan, and India.

- [Eco&Dream Establishes Eco&Solid Subsidiary for Solid-State Battery Electrolytes.- thelec.net](#) South Korean battery materials company Eco&Dream has established Eco&Solid, a wholly owned subsidiary focused on developing sulfide-based solid electrolytes and lithium sulfide (Li_2S) for next-generation all-solid-state batteries. The new company will oversee the full development process, from lithium sulfide production and purification to electrolyte design, pilot-scale validation, and mass-production technologies. By building in-house capabilities for key solid-state battery materials, Eco&Dream aims to strengthen its competitiveness in the emerging solid-state battery market and create a new long-term growth platform beyond its existing cathode precursor and catalyst businesses.
- [Make it here, pay less tax: Gov't unveils production credit for chips, batteries.- koreajoongangdaily](#) South Korea has unveiled a new 2026 tax incentive package that provides domestic production tax credits for strategic industries including rechargeable batteries, semiconductors, solar, wind, critical materials, and AI robot components. The program, which will run for 10 years, is designed to strengthen local manufacturing, supply-chain resilience, and technological competitiveness. Companies producing and selling qualifying products in Korea will receive tax benefits, with additional incentives for facilities located outside the Seoul metropolitan area. The package also expands support for future energy technologies, including small modular reactors (SMRs), and introduces a new tax-advantaged investment account to encourage long-term domestic investment in Korean industries.
- [CALB responds to 'banana battery' fallout with quality overhaul.- cnevpost](#) Chinese battery manufacturer CALB, the country's third-largest EV battery maker, has launched a comprehensive quality and safety overhaul after battery swelling issues affected some GAC Aion S vehicles. The company has tightened manufacturing tolerances, enhanced process traceability, upgraded safety and validation standards, and granted its quality team authority to block battery batch releases that fail inspection. CALB is also working more closely with customers to monitor battery performance and improve reliability. While the changes may increase costs in the short term, they are intended to strengthen product quality, safety, and long-term competitiveness as the company seeks to restore confidence following the widely publicized "banana battery" incident.
- [Nio battery operator Mirattery deepens securitization push with new REITs.- cnevpost](#) Mirattery, the battery asset management company behind Nio's Battery-as-a-Service (BaaS) business, has launched the world's first shelf-registered EV battery REIT, with an initial issuance of RMB 337 million under a broader RMB 5 billion financing program. The transaction is backed by subscription-based EV battery assets and is part of Mirattery's strategy to expand asset securitization and diversify funding sources. As of July 2026, the company managed more than 56 GWh of battery assets, highlighting the growing use of innovative financial structures to support battery ownership, swapping networks, and EV infrastructure expansion in China.
- [Toyota's Next Generation Hybrid Batteries Promise Lower Cost, Better Performance.- insideevs](#) Toyota will begin rolling out a new generation of hybrid vehicle batteries in 2027, designed to deliver better performance at lower cost while supporting rising global demand for hybrid vehicles. The company plans to convert existing battery production lines in Japan to manufacture the new batteries and expects global hybrid sales to exceed 5 million units for the first time in 2026. Alongside its hybrid strategy, Toyota continues to invest in next-generation EV batteries, including long-range lithium-ion batteries and solid-state battery technology, strengthening its broader electrification roadmap.
- [Nissan Wants You To Relax With Its New Electric Camper Van That Fits 4 And Packs 408-Mile Range.- insideevs](#) Nissan, in partnership with German camper specialist Eifelland, has introduced the Interstar-e Relax, an all-electric camper van designed to accommodate up to four people. Powered by an 87 kWh battery, the vehicle offers up to 408 miles (WLTP) of driving range and can operate onboard amenities including a refrigerator, induction stove, lighting, and heating without requiring an external power source. The camper features a flexible interior layout with a bed, kitchen, and modular seating, highlighting how large EV batteries can support both transportation and off-grid living applications. The model is targeted at the European market and underscores the growing use of battery-electric technology in recreational vehicles.
- [Ampace and Vietnamese Industrial Park Developer Partner on Zero-Carbon Parks in Southeast Asia.- solare.com](#) Ampace Technology Limited, a leading Chinese lithium battery and energy storage company, has begun collaborating with a major Vietnamese industrial park developer to promote zero-carbon industrial park development in Southeast Asia. During a visit to Ampace's headquarters in Xiamen, the two sides discussed deploying solar-plus-storage systems, smart microgrids, and integrated energy management solutions to support industrial decarbonization. The partners plan to launch a zero-carbon industrial park pilot project in southern Vietnam, helping companies reduce energy costs, meet global green supply-chain requirements, and accelerate the region's transition toward sustainable manufacturing.
- [YaoShi Lithium Battery to Build CNY 1 Billion Solid-State Battery Manufacturing Base in Fujian.- solare.com](#) Chinese battery startup Shenzhen YaoShi Lithium Battery Technology Co., Ltd. (YaoShi Lithium Battery) has signed an agreement to build its first large-scale solid-state battery production facility in Nanping, Fujian Province. The project, with a planned investment of CNY 1 billion (approximately US \$140 million), will have an annual capacity of 20 million high-energy-density solid-state batteries for consumer electronics applications.

Founded in 2023 and backed by investors including Welion New Energy, YaoShi specializes in solid-state batteries offering high safety, fast charging, and high energy density. The new plant is expected to accelerate the commercialization and mass production of solid-state battery technology, particularly for AI-powered wearable devices and consumer electronics.

Europe

- [KiBa-Pro brings AI to battery cell manufacturing.- electrive.com](#) The KiBa-Pro project, led by German battery manufacturer EAS Batteries, has launched to develop an AI-driven and data-centric approach to lithium iron phosphate (LFP) battery cell production. Supported by €2.4 million in German government funding, the initiative brings together EAS Batteries, RWTH Aachen, KIT, Batalyse, and Omron to create a fully digitalized manufacturing process. By collecting and analyzing production and quality data, the project aims to build a virtual battery cell model that can predict how manufacturing parameters affect battery performance, lifespan, and quality. The goal is to reduce development time, minimize scrap rates, improve production efficiency, and support future requirements such as digital battery passports.
- [Blue Solutions and AVL test solid-state battery safety.- electrive.com](#) French solid-state battery developer Blue Solutions and Austrian engineering firm AVL have completed a joint program to evaluate the safety of Blue Solutions' next-generation lithium-metal solid-state batteries. The collaboration focused on battery behavior under high stress, mechanical stability, and prevention of thermal propagation, a key safety challenge in advanced battery systems. The companies reported positive results, demonstrating compliance with major safety requirements, including China's GB 38031-2020 battery safety standard. Blue Solutions expects its fourth-generation solid-state batteries to deliver up to 25% higher volumetric energy density and 13% higher gravimetric energy density than comparable NMC lithium-ion battery packs, supporting commercialization efforts for electric vehicles later this decade.
- [Europe misses out on billion-euro battery cell profits.- electrive.com](#) A new Deloitte study warns that Europe remains heavily dependent on Asian, particularly Chinese, battery manufacturers, with 77% of global EV battery cells produced in Asia in 2025, up from 70% in 2024. The report estimates that European companies could miss out on €10.5 billion in profits over the next four years, while total lost value across the battery supply chain could reach €100-150 billion by 2030 if local battery production does not expand. Although Europe accounts for 13% of global battery manufacturing capacity, 98% of its cell production capacity is controlled by Asian companies. The study highlights the urgency of strengthening Europe's battery materials processing and cell manufacturing capabilities through initiatives such as the EU's Battery Booster program and investments by companies including ACC, Vekkor, and PowerCo.
- [EcoPro BM to Add Second Hungary Cathode Line in September.- thelec.net](#) South Korean cathode materials producer EcoPro BM plans to begin operating a second production line at its Hungary cathode plant in September 2026, supporting its goal of achieving profitability at the subsidiary in the second half of the year. Following the launch of the first line in June, annual output is expected to reach 10,000 tonnes in 2026 and expand to 30,000 tonnes by 2027. The company is also advancing its upstream strategy through the BNSI nickel smelter project in Indonesia, which is scheduled to begin commercial production in Q2 2027 and will help secure a stable supply of nickel materials. In parallel, EcoPro BM continues to develop solid-state battery electrolytes, lithium manganese-rich (LMR) cathodes, sodium-ion cathodes, and silicon anodes, reinforcing its position in next-generation battery technologies.

Others

- [Australia's Record Home-Battery Installations to Triple by 2035.- BNEF](#) Australia's residential battery market is experiencing rapid growth, with a record 9 GWh of home battery capacity installed in the first half of 2026, nearly doubling the country's existing installed base. Driven by widespread rooftop solar adoption and government incentives, BloombergNEF now forecasts Australia's home battery capacity to reach 61 GWh by 2035, more than triple current levels. While the surge in household batteries is increasing competition and reducing arbitrage opportunities for large-scale storage projects, it is strengthening consumer energy independence and supporting the integration of renewable energy across the grid.
- [PaNaBat: German-Chilean research project targets sustainable battery materials.- electrive.com](#) The newly launched PaNaBat project brings together research institutions from Germany and Chile to advance sustainable battery materials, lithium extraction, and battery recycling technologies. Supported by €450,000 in funding from Germany's Federal Ministry of Research, the initiative aims to develop a circular economy for critical battery materials including lithium, cobalt, nickel, and aluminum. Key areas of focus include advanced recycling processes, automated battery disassembly, improved sorting technologies, and low-carbon material recovery methods that preserve battery material functionality for direct reuse in new battery production. The project also seeks to strengthen industry collaboration, technology transfer, and research partnerships across the battery value chain.

DISCLOSURE APPENDIX

I. REQUIRED DISCLOSURES

References to "Bernstein" or the "Firm" in these disclosures relate to the following entities: Bernstein Institutional Services LLC (April 1, 2024 onwards), Sanford C. Bernstein & Co., LLC (pre April 1, 2024), Bernstein Autonomous LLP, BSG France S.A. (April 1, 2024 onwards), Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司, Sanford C. Bernstein (Canada) Limited, Sanford C. Bernstein (India) Private Limited (SEBI registration no. INH000006378), Sanford C. Bernstein (Singapore) Private Limited, Sanford C. Bernstein Japan KK (サンフォード・C・バーンスタイン株式会社) and analysts employed by Société Générale Africa Technologies & Services to produce Bernstein research under a Global Services Agreement in place between Bernstein and Société Générale.

Bernstein is part of a joint venture between Société Générale (SG) and AllianceBernstein, L.P. (AB). Unless specifically noted otherwise, for purposes of these disclosures, references to Bernstein's "affiliates" relate to both SG and AB and their respective affiliates.

VALUATION METHODOLOGY

This research publication covers six or more companies. For valuation methodology and other company disclosures:

Please visit: <https://bernstein-autonomous.bluematrix.com/sellside/Disclosures.action>.

Or, you can also write to the Director of Compliance, Bernstein Institutional Services LLC, 245 Park Avenue, New York, NY 10167.

RISKS

This research publication covers six or more companies. For risks and other company disclosures:

Please visit: <https://bernstein-autonomous.bluematrix.com/sellside/Disclosures.action>.

Or, you can also write to the Director of Compliance, Bernstein Institutional Services LLC, 245 Park Avenue, New York, NY 10167.

RATINGS DEFINITIONS, BENCHMARKS AND DISTRIBUTION**EQUITY RATINGS DEFINITIONS****Bernstein brand**

The Bernstein brand rates stocks based on forecasts of relative performance for the next 12 months versus the S&P 500 for stocks listed on the U.S. and Canadian exchanges, versus the Bloomberg Europe Developed Markets Large and Mid Cap Price Return Index EUR (EDME) for stocks listed on the European exchanges and emerging markets exchanges outside of the Asia Pacific region, versus the Bloomberg Japan Large and Mid Cap Price Return Index USD (JPL) for stocks listed on the Japanese exchanges, and versus the Bloomberg Asia ex-Japan Large and Mid Cap Price Return Index (ASIA) for stocks listed on the Asian (ex-Japan) exchanges -unless otherwise specified.

The Bernstein brand has three categories of ratings:

- Outperform: Stock will outpace the market index by more than 15 pp
- Market-Perform: Stock will perform in line with the market index to within +/- 15 pp
- Underperform: Stock will trail the performance of the market index by more than 15 pp

Coverage Suspended: Coverage of a company under the Bernstein research brand has been suspended. Ratings and price targets are suspended temporarily, are no longer current, and should therefore not be relied upon.

Not Rated: A rating assigned when the stock cannot be accurately valued, or the performance of the company accurately predicted, at the present time. The covering analyst may continue to publish research reports on the company to update investors on events and developments.

Not Covered (NC) denotes companies that are not under coverage.

Bernstein brand stock ratings are based on a 12-month time horizon.

Autonomous brand – common stocks

The Autonomous brand rates common stocks as indicated below. As our benchmarks we use the Bloomberg Europe 600 Financials Price Return Index (E600BK) and Bloomberg Europe Dev Mkt Financials Large and Mid Cap Price Ret Index EUR (EDMFI) index for developed European banks and Payments, the Bloomberg Europe 600 Insurance Price Return Index (E600IN) for European insurers, the S&P 500 and S&P Financials for US banks and Payments coverage, S5LIFE for US Insurance, the S&P Insurance Select Industry (SPSIINS) for US Non-Life Insurers coverage, the Bloomberg Emerging Markets Financials Large, Mid and Small Cap Price Return Index (EMLSF) for emerging market banks and insurers and Payments, and the Bloomberg Japan Financials Large & Mid Cap Price Return Index (JPFILM) for Japanese Financials. Ratings are stated relative to the sector (not the market).

The Autonomous brand has three categories of common stock ratings:

- Outperform (OP): Stock will outpace the relevant index by more than 10 pp
- Neutral (N): Stock will perform in line with the market index to within +/-10 pp
- Underperform (UP): Stock will trail the performance of the relevant index by more than 10 pp

Coverage Suspended: Coverage of a company under the Autonomous research brand has been suspended. Ratings and price targets are suspended temporarily, are no longer current, and should therefore not be relied upon.

Not Rated: A rating assigned when the stock cannot be accurately valued, or the performance of the company accurately predicted, at the present time. The covering analyst may continue to publish research reports on the company to update investors on events and developments.

Those denoted as 'Feature' (e.g., Feature Outperform FOP, Feature Under Outperform FUP) are our core ideas.

Not Covered (NC) denotes companies that are not under coverage.

Autonomous brand common stock ratings are based on a 12-month time horizon.

Autonomous brand – preferred stocks

The Autonomous brand has three categories of preferred stock ratings:

- Outperform (OP): The total return of the preferred instrument is expected to outperform preferred securities of other issuers operating in similar sectors or rating categories over the next six months.
- Neutral (N): The total return of the preferred instrument is expected to perform in line with preferred securities of other issuers operating in similar sectors or rating categories over the next six months.
- Underperform (UP): The total return of the preferred instrument is expected to underperform preferred securities of other issuers operating in similar sectors or rating categories over the next six months.

Autonomous preferred stock ratings are based on a 6-month time horizon.

AUTONOMOUS CREDIT RESEARCH

Where this report contains investment recommendations for credit instruments, as defined in article 3(1)(35) of the Market Abuse Regulation, the information below is presented to comply with its disclosure requirements.

The report may also include reference(s) to published opinions by other Autonomous or Bernstein analysts covering the equity securities of the issuer(s) referenced herein. Please note an investment recommendation for credit instruments published by the author(s) of this report may differ from the published view of the analyst covering equity securities for the issuer(s) contained in this report and vice versa.

CREDIT RATINGS DEFINITIONS

The Autonomous brand has three categories of credit ratings:

- Credit Outperform (C-OP): The total return of the Reference Credit Instrument is expected to outperform the credit spread of bonds of other issuers operating in similar sectors or rating categories over the next six months.

- **Credit Neutral (C-N):** The total return of the Reference Credit Instrument is expected to perform in line with the credit spread of bonds of other issuers operating in similar sectors or rating categories over the next six months.
- **Credit Underperform (C-UP):** The total return of the Reference Credit Instrument is expected to underperform the credit spread of bonds of other issuers operating in similar sectors or rating categories over the next six months.

Autonomous credit ratings are based on a 6-month time horizon.

A list of all investment recommendations produced by the author(s) of this report alongside credit ratings history are available upon request.

It is at the sole discretion of the Firm as to when to initiate, update and cease research coverage. The Firm has established, maintains and relies on information barriers to control the flow of information contained in one or more areas (i.e. the private side) within the Firm, and into other areas, units, groups or affiliates (i.e. public side) of the Firm

DISTRIBUTION OF EQUITY RATINGS/INVESTMENT BANKING SERVICES

Equity Rating	Market Abuse Regulation (MAR) and FINRA Rating Category	Global Rating Distribution	Investment Banking Relationships*
Outperform	BUY	51.2%	15.3%
Market-Perform (Bernstein Brand) Neutral (Autonomous Brand)	HOLD	35.8%	16.2%
Underperform	SELL	13.1%	13.6%

* These figures represent the percentage of companies within each equity rating category for which affiliates of Bernstein have provided investment banking services within the previous 12 months.

As of June 30, 2026. All figures are updated quarterly.

PRICE CHARTS/ RATINGS AND PRICE TARGET HISTORY

Bernstein has received compensation for non-investment banking securities-related products or services in the previous twelve months from the following clients: Samsung SDI Co Ltd.

Certain affiliates of Bernstein act as market maker or liquidity provider in the debt securities of: LG Chem Ltd and LG Energy Solution.

OTHER MATTERS

The legal entity(ies) employing the analyst(s) listed in this report, and their location, can be determined by the country code of their phone number, as follows:

- +1 Bernstein Institutional Services LLC; New York, New York, USA
- +44 Bernstein Autonomous LLP; London UK
- +212 Société Générale Africa Technologies & Services; Casablanca, Morocco
- +33 BSG France S.A.; Paris, France
- +34 BSG France S.A.; Madrid, Spain
- +41 Bernstein Autonomous LLP; Geneva, Switzerland
- +49 BSG France S.A.; Frankfurt, Germany
- +91 Sanford C. Bernstein (India) Private Limited; Mumbai, India
- +852 Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司; Hong Kong, China
- +65 Sanford C. Bernstein (Singapore) Private Limited; Singapore
- +81 Sanford C. Bernstein Japan KK; Tokyo, Japan

Where this report has been prepared by research analyst(s) employed by a non-US affiliate, such analyst(s), is/are (unless otherwise expressly noted below) not registered as associated persons of Bernstein Institutional Services LLC or any other SEC-registered broker-dealer and are not licensed or qualified as research analysts with FINRA. Accordingly, such analyst(s) may not be subject to FINRA's restrictions regarding (among other things) communications by research analysts with a subject company, interactions between research analysts and investment banking personnel, participation by research analysts in solicitation and marketing activities relating to investment banking transactions, public appearances by research analysts, and trading securities held by a research analyst account.

Where this report has been prepared by research analyst(s) employed by Société Générale Africa Technologies & Services (part of the Société Générale group of companies), it has been prepared on behalf of a Bernstein company under a Global Services Agreement in place between Bernstein and Société Générale.

CERTIFICATION

Each research analyst listed in this report, who is primarily responsible for the preparation of the content of this report, certifies that all of the views expressed in this publication accurately reflect that analyst's personal views about any and all of the subject securities or issuers and that no part of that analyst's compensation was, is, or will be, directly or indirectly, related to the specific recommendations or views in this publication.

II. ADDITIONAL GLOBAL CONFLICT DISCLOSURES

It is at the sole discretion of the Firm as to when to initiate, update and cease research coverage. The Firm has established, maintains and relies on information barriers to control the flow of information contained in one or more areas (i.e., the private side) within the Firm, and into other areas, units, groups or affiliates (i.e., public side) of the Firm.

III. OTHER IMPORTANT INFORMATION AND DISCLOSURES

Separate branding is maintained for "Bernstein" and "Autonomous" research products.

- Bernstein produces a number of different types of research products including, among others, fundamental analysis and quantitative analysis under both the "Autonomous" and "Bernstein" brands. Recommendations contained within one type of research product may differ from recommendations contained within other types of research products, whether as a result of differing time horizons, methodologies or otherwise. Furthermore, views or recommendations within a research product issued under one brand may differ from views or recommendations under the same type of research product issued under the other brand. The Research Ratings System for the two brands and other information related to those Rating Systems are included in the previous section.

- Autonomous operates as a separate business unit within the following entities: Bernstein Institutional Services LLC, Bernstein Autonomous LLP, Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司 and Sanford C. Bernstein (India) Private Limited. For information relating to "Autonomous" branded products (including certain Sales materials) please visit: www.autonomous.com. For information relating to Bernstein branded products please visit: www.bernsteinresearch.com.

Analysts are compensated based on aggregate contributions to the research franchise as measured by account penetration, productivity and proactivity of investment ideas. No analysts are compensated based on performance in, or contributions to, generating investment banking revenues.

This report has been produced by an independent analyst as defined in Article 3 (1)(34)(i) of EU 596/2014 Market Abuse Regulation ("MAR") and the same article of MAR as it forms part of United Kingdom domestic law by virtue of the European Union (Withdrawal) Act 2018.

To our readers in the United States: Bernstein Institutional Services LLC, a broker-dealer registered with the U.S. Securities and Exchange Commission ("SEC") and a member of the U.S. Financial Industry Regulatory Authority, Inc. ("FINRA") is distributing this publication in the United States and accepts responsibility for its contents. Where this material contains an analysis of debt product(s), such material is intended only for institutional investors and is not subject to the US independence and disclosure standards applicable to debt research prepared for retail investors.

Bernstein Institutional Services LLC may act as principal for its own account or as agent for another person (including an affiliate) in sales or purchases of any security which is a subject of this report. This report does not purport to meet the objectives or needs of any specific individuals, entities or accounts.

To our readers in Canada: If this publication pertains to a Canadian domiciled company, it is being distributed in Canada by Sanford C. Bernstein (Canada) Limited, which is licensed and regulated by the Canadian Investment Regulatory Organization. If the publication pertains to a non-Canadian domiciled company, it is being distributed by Bernstein Institutional Services LLC, which is licensed and regulated by both the SEC and FINRA, into Canada under the International Dealers Exemption.

This document may not be passed onto any person in Canada unless that person qualifies as "permitted client" as defined in Section 1.1 of NI 31-103.

To our readers in Brazil: This report has been prepared by Bernstein Institutional Services LLC, and Banco BTG Pactual S.A. ("BTG") is responsible for the distribution of this report in Brazil.

To readers in the United Kingdom: This publication has been issued or approved for issue in the United Kingdom by Bernstein Autonomous LLP, authorised and regulated by the Financial Conduct Authority and located at 60 London Wall, London EC2M 5SH, +44 (0)20-7170-5000. Registered in England & Wales No OC343985.

This document is for distribution only to persons who (i) have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (as amended, the "Financial Promotion Order"), (ii) are persons falling within Article 49(2)(a) to (d) ("high net worth companies, unincorporated associations, etc.") of the Financial Promotion Order, (iii) are outside the United Kingdom, or (iv) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) in connection with the issue or sale of any securities may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as "relevant persons"). This document is directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this document relates is available only to relevant persons and will be engaged in only with relevant persons.

To our readers in the member states of the EEA: This publication is being distributed by BSG France SA, which is authorised and regulated by the Autorité de Contrôle Prudentiel et de Résolution (ACPR) and Autorité des Marchés Financiers (AMF).

To our readers in Hong Kong: This publication is being distributed in Hong Kong by Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司, which is licensed and regulated by the Hong Kong Securities and Futures Commission (Central Entity No. AXC846) to carry out Type 4 (Advising on Securities) regulated activities and subject to the licensing conditions mentioned in the SFC Public Register (<https://www.sfc.hk/publicregWeb/corp/AXC846/details>). This publication is solely for professional investors, as defined in the Securities and Futures Ordinance (Cap. 571). The purpose of this report is solely to provide an analysis of the issuers referred to in this report and is not intended for any purpose contrary to the laws of Hong Kong.

To our readers in Singapore: This publication is being distributed in Singapore by Sanford C. Bernstein (Singapore) Private Limited, only to accredited investors or institutional investors, as defined in the Securities and Futures Act 2001 of Singapore ("SFA"). Recipients in Singapore should contact Sanford C. Bernstein (Singapore) Private Limited in respect of matters arising from, or in connection with, this publication. Sanford C. Bernstein (Singapore) Private Limited is regulated by the Monetary Authority of Singapore and licensed under the SFA as a capital markets services licence holder for dealing in capital markets products that are

securities and collective investment schemes and an exempt financial adviser for advising on, issuing and promulgating analyses and reports on securities. Sanford C. Bernstein (Singapore) Private Limited is registered in Singapore with Company Registration No. 20213710W and located at 8 Marina Boulevard, #12-01, Marina Bay Financial Centre, Singapore 018981, +65-6326-7000.

To our readers in the People's Republic of China: The securities referred to in this document are not being offered or sold and may not be offered or sold, directly or indirectly, in the People's Republic of China (for such purposes, not including the Hong Kong and Macau Special Administrative Regions or Taiwan, the "PRC") in contravention of any applicable laws of the PRC.

This document does not constitute an offer to sell or the solicitation of an offer to buy any securities in the PRC to any person to whom it is unlawful to make the offer or solicitation in the PRC.

We do not represent that this document may be lawfully distributed, or that any securities may be lawfully offered, in compliance with any applicable registration or other requirements in the PRC, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by us which would permit a public offering of any securities or distribution of this document in the PRC. Accordingly, the securities are not being offered or sold within the PRC by means of this document or any other document. Neither this document nor any advertisement or other offering material may be distributed or published in the PRC, except under circumstances that will result in compliance with any applicable laws and regulations.

To our readers in Japan: This publication is being distributed in Japan by Sanford C. Bernstein Japan KK (サンフォード・C・バーンスタイン株式会社), which is registered in Japan as a Financial Instruments Business Operator with the Kanto Local Finance Bureau (registration number: The Director-General of Kanto Local Finance Bureau (FIBO) No.3387) and regulated by the Financial Services Agency. It is also a member of Investment Management Association of Japan. This publication is solely for qualified institutional investors in Japan only, as defined in Article 2, paragraph (3), items (i) of the Financial Instruments and Exchange Act.

For the institutional client readers in Japan who have been granted access to the Bernstein website by Daiwa Securities Group Inc. ("Daiwa"), your access to this document should not be construed as meaning that Bernstein is providing you with investment advice for any purposes. Whilst Bernstein has prepared this document, your relationship is, and will remain with, Daiwa, and Bernstein has neither any contractual relationship with you nor any obligations towards you.

To our readers in Australia: Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司 is responsible for distributing research in Australia. It is regulated by the Securities and Exchange Commission under U.S. laws, by the Financial Conduct Authority under U.K. laws, which differs from Australian laws. Sanford C. Bernstein (Hong Kong) Limited 盛博香港有限公司 is exempt from the requirement to hold an Australian financial services license under the Corporations Act 2001 in respect of the provision of the following financial services to wholesale clients:

- providing financial product advice;
- dealing in a financial product;
- making a market for a financial product; and
- providing a custodial or depository service.

To our readers in India: This publication is being distributed in India by Sanford C. Bernstein (India) Private Limited (SCB India) which is licensed and regulated by Securities and Exchange Board of India ("SEBI") as a research analyst entity under the SEBI (Research Analyst) Regulations, 2014, having registration no. This publication was prepared and issued by entity referred to herein for distribution to eligible counterparties or professional clients. This publication is not an offer to buy or sell any security, and it does not constitute investment, legal or tax advice. The investments referred to herein may not be suitable for you. Investors must make their own investment decisions in consultation with their professional advisors in light of their specific circumstances. The value of investments may fluctuate, and investments that are denominated in foreign currencies may fluctuate in value as a result of exposure to exchange rate movements. Information about past performance of an investment is not necessarily a guide to, indicator of, or assurance of, future performance.

This report is directed to and intended only for our clients who are "eligible counterparties", "professional clients", "institutional investors" and/or "professional investors" as defined by the aforementioned regulators, and must not be redistributed to retail clients as defined by the aforementioned regulators. Retail clients who receive this report should note that the services of the entities noted herein are not available to them and should not rely on the material herein to make an investment decision. The result of such act will not hold the entities noted herein liable for any loss thus incurred as the entities noted herein are not registered/ authorised/ licensed to deal with retail clients and will not enter into any contractual agreement/arrangement with retail clients. This report is provided subject to the terms and conditions of any agreement that the clients may have entered into with the entities noted herein. All research reports are disseminated on a simultaneous basis to eligible clients through electronic publication to our client portal.

The information in this report was prepared by Bernstein solely for the internal business use of our clients. Clients may store, display, analyze, reformat and print the information in this report for this limited use only. Clients may not copy, alter, create derivative works, resell, reverse engineer, commercially exploit, share or distribute any part of the information contained herein for any purpose without Bernstein's express written consent. These restrictions include extracting data or using the content to develop indices or other products. Further, you may not use this report, or any portion of this report, to train or finetune any third-party machine learning or artificial intelligence system, or as a prompt or input into any such system. You also may not, without Bernstein's express written consent, do any of the foregoing in connection with your own internal machine learning or artificial intelligence system.

Bernstein may use artificial intelligence tools in the preparation of its materials. Any such materials are reviewed by Bernstein's research analysts prior to publication.

This report has been prepared for information purposes only and is based on current public information that we consider reliable, but the entities noted herein do not warrant or represent (express or implied) as to the sources of information or data contained herein are accurate, complete, not misleading or as to its fitness for the purpose intended even though the entities noted herein rely on reputable or trustworthy data providers, it should not be relied upon as such. Opinions expressed are the author(s)' current opinions as of the date appearing on the material only and we do not undertake to advise you of any change in the reported information or in the opinions herein.

Any references to Societe Generale herein are purely factual, based upon publicly available information, and included for comparative purposes only. They do not constitute an opinion or recommendation with respect to the securities of Societe Generale.

This publication was prepared and issued by the entity referred to herein for distribution to eligible counterparties or professional clients. The information in this report is intended for general circulation and does not constitute an offer to buy or sell any security, investment, legal or tax advice nor a personal recommendation, as defined by any of the aforementioned regulators. It does not take into account the particular investment objectives, financial situations, or needs of individual investors. The report has not been reviewed by any of the aforementioned regulators and does not represent any official recommendation from the aforementioned regulators. The investments referred to herein may not be suitable for you. Investors must make their own investment decisions in consultation with advice sought from a financial adviser regarding the suitability of the investment product, taking into account the specific investment objectives, financial situation or particular needs of any recipient of the recommendation, before the recipient makes a commitment to purchase the investment product.

The analysis contained herein is based on numerous assumptions. Different assumptions could result in materially different results. The information in this report does not constitute, or form part of, any offer to sell or issue, or any offer to purchase or subscribe for shares, or to induce engagement in any other investment activity. The value of any securities or financial instruments mentioned in this report may fluctuate subject to market conditions. Information about past performance of an investment is not necessarily a guide to, indicative of, or assurance of future performance. Estimates of future performance mentioned by the research analyst in this report are based on assumptions that may not be realized due to unforeseen factors like market volatility/fluctuation. In relation to securities or financial instruments denominated in a foreign currency other than the clients' home currency, movements in exchange rates will have an effect on the value, either favorable or unfavorable. Before acting on any recommendations in this report, recipients should consider the appropriateness of investing in the subject securities or financial instruments mentioned in this report and, if necessary, seek independent professional advice.

The securities described herein may not be eligible for sale in all jurisdictions or to certain categories of investors where that permission profile is not consistent with the licenses held by the entities noted herein. This document is for distribution only as may be permitted by law. It is not directed to, or intended for distribution to or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or would subject the entities noted herein to any regulation or licensing requirement within such jurisdiction.
