Global semiconductors

BAPT: Sept 2026 - Pricing slows but remains robust

We add lead times to Barclays Analog Pricing Tracker. September remained constructive. Price increases continued across most categories, although the pace moderated from August. Inventory trends became more mixed, while lead-time trends generally moved higher.

Introducing lead times. We have expanded BAPT to include lead time tracking, providing an additional indicator of product availability alongside pricing and distributor inventory. Lead time trends are useful indicator of industry momentum and should offer a offer complimentary view of channel conditions to help distinguish between changes driven by pricing, inventory and underlying product availability.

September pricing remained positive but moderated. Twelve of the fifteen core categories recorded sequential price increases, although product-level breadth weakened from August. Power led, with IGBTs and SiC posting the strongest gains, albeit across relatively small samples, while MCU pricing increased modestly and Analog softened. Inventory increased across all three main groups, led by a rebound in Auto and Industrial MCUs; however, if we look average inventory across the month, it declined in September, suggesting continued destocking despite the month-end rebound. Lead times in general increased. Overall, September saw smaller pricing gains after August's acceleration, alongside initial signs of some inventory rebuild.

EU stock implications. Trends across MCUs and power suggest continued positive momentum for STM and IFX. We see signs of industrial MCU restocking as positive for STM, helped by pricing as well, which points to upside to Bloomberg consensus on 4Q guidance, at least on the top line, in our view. For Infineon, while Auto is less channel-driven, tightness suggests scope for positive pricing developments, which could support a positive FY27 guide this quarter, in our view.

US stock implications. September's data remains supportive for NXPI and TXN. Pricing remained firm for NXP's auto and industrial MCU portfolio, while TI continued to see gains across MCUs, ADCs and DACs despite some moderation from August. Inventory rebuilt across NXP's MCU categories but was more stable at TI. We therefore continue to see a constructive read-through for both companies, albeit with a slightly cleaner inventory backdrop at TI.

Barclays Capital Inc. and/or one of its affiliates does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision.

This research report has been prepared in whole or in part by equity research analysts based outside the US who are not registered/qualified as research analysts with FINRA.

Pricing environment continues to be favourable

Pricing YTD remains positive

After roughly two years of inventory correction, distributor pricing has strengthened during 2026 across Analog, Power and MCU products. We believe most of our coverage has implemented multiple rounds of price increases this year as inventories normalised and end demand improved. September was more mixed than August, but the broader trend remains one of gradually improving pricing across much of the semiconductor distributor channel based on our scraping.

FIGURE 1. Pricing change by category

	Mar'26	Apr'26	May'26	Jun'26	Jul'26	Aug'26	Sep'26
MCU	0.6%	3.1%	2.4%	0.5%	0.6%	1.7%	0.4%
Analog	-2.9%	3.1%	1.9%	2.5%	4.0%	4.2%	-0.7%
Power	-0.9%	3.1%	1.6%	1.8%	2.9%	4.3%	0.6%

Source: Barclays Research

Price breadth narrowed in September, with 26%/35%/29% of MCU/Analog/Power products recording increases, compared with 45%/48%/49% in August. The shift included more unchanged prices as well as more declines, with flat pricing accounting for 41% of MCU products and 52% of Power products. Average pricing nevertheless remained positive in MCU and Power, while Analog softened modestly.

FIGURE 2. Breadth by category

Sep'26	% of upward price	% of flat price	% of downward price	Count
MCU	26%	41%	33%	50916
Analog	35%	35%	30%	32533
Power	29%	52%	19%	20503

Source: Barclays Research

MCU inventory rebounded in September, rising 10.9% after August's 8.9% contraction. Analog and Power inventories also increased, but more modestly at 0.6% and 1.5%, respectively, versus 1.0% and 1.8% in August. September therefore reversed August's divergence, as MCU inventories recovered while Analog and Power continued to increase at a slower pace.

FIGURE 3. Sequential Inventory change (MoM)

	Mar'26	Apr'26	May'26	Jun'26	Jul'26	Aug'26	Sep'26
MCU	-3.7%	0.2%	-3.7%	2.3%	-2.7%	-8.9%	10.9%
Analog	0.8%	1.1%	-0.7%	2.2%	1.0%	1.0%	0.6%
Power	-3.5%	-0.5%	2.5%	0.8%	4.6%	1.8%	1.5%

NB Month end
Source: Barclays Research

Inventory MoM changes are calculated using month-end values. However, to give further perspective, if we compare average inventory levels across each month we see a different trend: on this basis, inventory declined in September, indicating more sustained destocking than the month-end comparison might suggest.

Inventory units increased across all three main groups in September, consistent with the MCU rebound seen in value terms. MCU units rose 6.3% following August's 8.5% decline, while Power returned to growth at 1.6% after falling 1.2%. Analog units increased a further 3.6%, slightly

ahead of August's 3.3% rise. We prefer to look at inventory value but present units in aggregate to provide more colour to inventory developments.

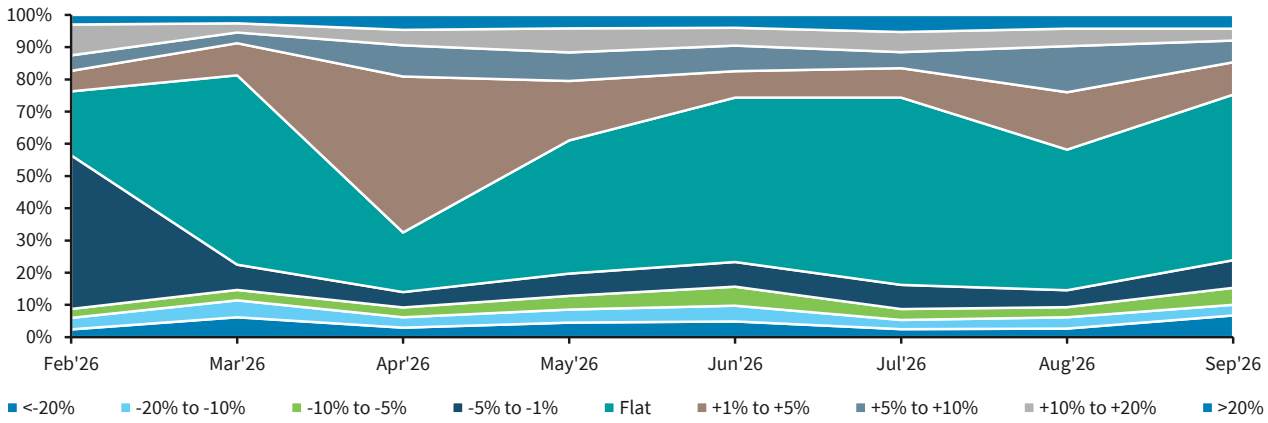

FIGURE 4. Sequential Inventory unit change (MoM)

	Mar'26	Apr'26	May'26	Jun'26	Jul'26	Aug'26	Sep'26
MCU	-3.7%	-2.4%	-3.7%	-0.9%	-1.6%	-8.5%	6.3%
Analog	-5.8%	-0.9%	-2.9%	-1.6%	-2.3%	3.3%	3.6%
Power	-0.5%	-1.5%	1.0%	-0.9%	1.3%	-1.2%	1.6%

Source: Barclays Research

September partly reversed August's shift towards moderate price increases. The flat bucket rose from 44% to 51%, while the +1%–5% and +5%–10% buckets fell from 18% to 10% and 14% to 7%, respectively. Price declines also became more common, with the share of products falling more than 20% increasing from 3% to 7%. Overall, fewer products recorded moderate increases than in August, although both increase buckets remained above July's levels.

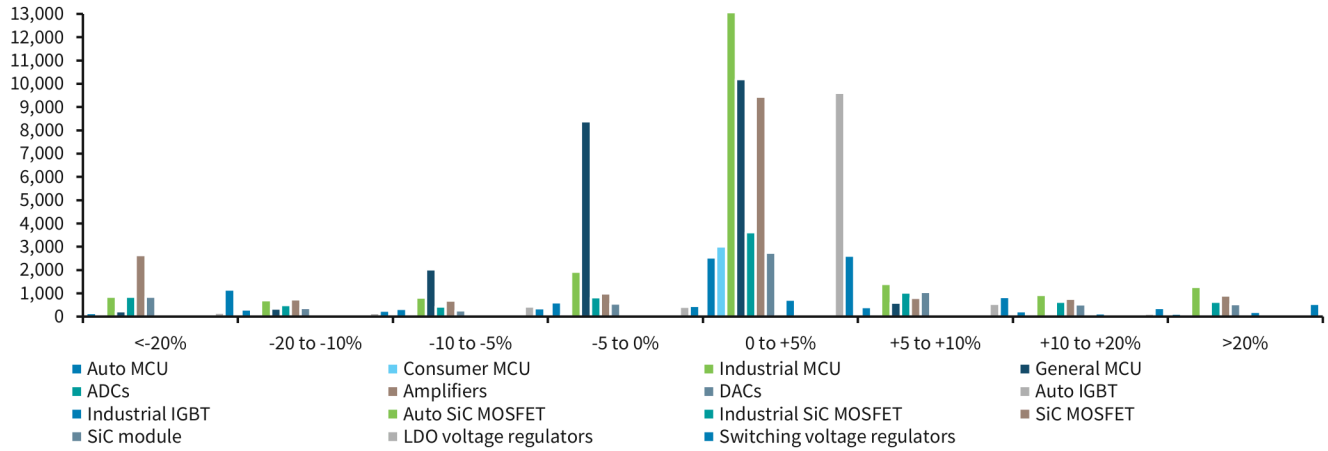

FIGURE 5. Breadth of price developments YTD

Source: Barclays Research

By product, c71% saw flat prices or increases in September (vs c80% in August), while c15% rose by more than 5% (vs c24% in August). Overall, September saw weaker pricing momentum, with most products still flat or higher but a narrower positive tail than in August.

FIGURE 6. Price change distribution by product in September

September insights – Constructive pricing, signs of rebuilding inventories & rising lead times

Key observations

September prices increased in 12 of the 15 categories, although product-level breadth weakened from August. IGBTs and SiC led the gains (smaller sample sizes than other products), MCU pricing increased modestly and Analog softened as amplifiers declined. Inventory rose across all three main groups, led by a 10.9% rebound in MCUs, driven predominately by auto and industrial MCUs.

FIGURE 7. **September category/product dashboard**

Sep'26	MoM Price change	% Up	% Down	Inventory change	Count	Lead Time MoM Change
MCU						
Auto MCU	0.4%	37.2%	30.0%	14.9%	4739	Increasing
Consumer MCU	0.2%	13.3%	3.6%	1.3%	3170	Increasing
Industrial MCU	2.2%	33.3%	20.4%	12.7%	21133	Increasing
General MCU	-1.3%	19.2%	50.3%	5.1%	21874	Increasing
Analog						
ADCs	1.2%	43.8%	30.6%	1.9%	8582	Increasing
Amplifiers	-2.2%	24.1%	29.8%	-0.8%	17021	Increasing
DACs	0.7%	52.5%	29.7%	1.2%	6930	Increasing
Power						
LDO voltage regulators	-0.1%	15.3%	10.2%	-0.3%	11,529	Decreasing
Switching voltage regulators	0.2%	46.8%	34.0%	2.1%	6,629	Increasing

Auto SiC MOSFET	4.4%	61.9%	29.9%	-20.5%	194	Increasing
Industrial SiC MOSFET	4.9%	57.5%	19.0%	2.2%	153	Increasing
SiC MOSFET	1.5%	47.6%	32.5%	0.8%	126	Decreasing
Auto IGBT	8.5%	60.9%	23.0%	45.8%	174	Increasing
Industrial IGBT	6.2%	42.1%	13.6%	43.1%	1,372	Increasing

Source: Barclays Research

Strongest categories

Auto IGBT led at +8.5% MoM, followed by Industrial IGBT at +6.2% and Industrial SiC MOSFETs at +4.9%. Auto SiC MOSFET pricing also increased 4.4%. Coverage remains relatively small in several of these categories, particularly Auto IGBT and SiC.

Weakest categories

Amplifiers declined 2.2% MoM after rising 2.9% in August, while General MCU fell 1.3% following a 1.0% increase in August. LDO voltage regulators and switching regulators were broadly flat, versus August's gains of 3.2% and 8.0%, respectively.

Broadest price increases

Auto SiC MOSFETs had the broadest participation, with 61.9% of products increasing in price, versus 46.7% in August. Auto IGBT followed at 60.9% (vs 47.7%) and Industrial SiC MOSFETs at 57.5% (vs 37.5%). DAC breadth remained relatively firm at 52.5%, although down from 59.9% in August.

Largest inventory changes

The largest inventory increases were concentrated in smaller-sample categories, Auto IGBT (+45.8% MoM), Industrial IGBT (+43.1%) and SiC modules (+17.6%), making these moves less representative of the broader market. Auto and Industrial MCU inventories both rebounded 14.9% and 12.7% after August's 11.6% and 9.1% declines, respectively.

Most notable category/company divergences

In September, the clearest differences were in Auto MCU, SiC and Analog. Texas Instruments' Auto MCU prices rose 5.5% MoM and STMicro's increased 3.3%, while Infineon's fell 3.4%. In Auto SiC MOSFETs, onsemi gained 8.6% and STMicro 7.8%, ahead of Infineon at 2.2%, while Rohm declined 0.7%. Analog Devices lagged Texas Instruments across ADCs (+1.0% vs +1.6%) and DACs (+0.4% vs +2.2%), with the largest difference in amplifiers (−5.7% vs −0.5%).

Lead time changes

Lead times increased across 13 of the 15 categories in September, including all MCU and Analog categories. The increase was therefore slightly more widespread than pricing gains, with only LDO voltage regulators and general SiC MOSFETs recording shorter lead times.

At the product level, however, the trend was less uniform. Auto MCU showed the clearest increase among the main MCU categories, while Consumer and Industrial MCU lead times were more commonly unchanged. Analog was firmer overall, particularly amplifiers, although the difference between the proportion of products with increasing and decreasing lead times remained relatively narrow across ADCs and DACs. Voltage regulators were similarly balanced, with a slight bias towards longer lead times.

Power categories showed the greatest variation. IGBT lead times generally increased at the category level, although product-level breadth was mixed. By contrast, shorter lead times were more common across most SiC categories, particularly general and automotive SiC MOSFETs. Overall, the category-level data points to firmer lead times in September, but the underlying breadth suggests a gradual change rather than any major further tightening in availability.

FIGURE 8. Lead-time breadth by product

Sep'26	% Increased LT	% Flat LT	% Decreased LT	Count
Auto MCU	48.8%	18.1%	33.0%	4,425

Category Analysis - Pricing remains robust, but momentum narrows

August's pricing momentum fades across the tracker

Analog pricing declined 0.7% in September after rising 4.2% in August. Amplifiers fell 2.2%, offsetting gains in ADCs (+1.2%) and DACs (+0.7%). DACs retained the strongest breadth, with 53% of products increasing, compared with 44% for ADCs and 24% for amplifiers. Analog inventory increased modestly by 0.6%. Overall, ADC and DAC gains slowed sharply from August, while amplifier pricing reversed.

MCU inventory rebounds as pricing growth slows

MCU pricing increased 0.4% in September, versus 1.7% in August, while inventory rebounded 10.9% following August's 8.9% contraction. Industrial MCU led pricing at +2.2%, alongside an 12.7% inventory increase. Auto MCU pricing rose 0.4% as inventory increased 14.9%, while Consumer MCU saw modest gains in both measures. General MCU remained the weakest: with pricing down 1.3%, half of products recording decreases, alongside a 5.1% inventory increase. Overall, the inventory rebound was not matched by stronger pricing.

FIGURE 9. Price change by product

Source: Barclays Research

Fewer products increased in price in September than in August, reflecting softer breadth across the larger categories. Among the more meaningful samples, DACs showed the strongest positive breadth, with 53% of products increasing versus 30% declining, while ADCs remained moderately positive at 44% versus 31%. General MCU was weakest, with 19% increasing and 50% declining, while Consumer MCU was largely unchanged, with 83% of prices flat versus 38% in August. The strongest breadth was recorded in Auto SiC MOSFETs (62% up/30% down), Auto

IGBT (61%/23%) and Industrial SiC MOSFETs (58%/19%), although their smaller product counts make these moves less representative of the broader market.

Lead times remained broadly stable in September. MCU, Analog and voltage regulator lead times were largely unchanged and remained in a 13-16-week range. SiC products continued to show the longest lead times at 35-49 weeks, while IGBT lead times remained elevated at 31 weeks. Overall, lead times continue to suggest normalised supply conditions across most categories, with tighter conditions confined to SiC-related products.

FIGURE 10. Breadth by product

Source: Barclays Research

In September, inventory increased across most of the categories we track. Auto MCU inventories rebounded 14.9% MoM following August's 11.6% decline, while Industrial and General MCU inventories increased 12.7% MoM and 5.1% MoM, respectively. In other categories, Auto and Industrial IGBT inventories increased 45.8% MoM and 43.1% MoM, while SiC module inventories rose 17.6% MoM. Conversely, Auto SiC MOSFET inventories declined a further 20.5% MoM despite a 4.4% increase in pricing. Overall, inventory rebuilt across MCU categories, Analog remained relatively stable and Power trends were mixed. However, monthly mean inventory value declined in September across all three main groups, with 13 of the 15 core product categories recording MoM declines. This suggests that the month-end increases reflected a late-month rebuild rather than broad strength throughout the month, while the mean trend points to continued underlying destocking.

Company product view

We build the matrix to distinguish broad-based pricing power from isolated product moves and identify areas of company-level relative strength and weakness across each category. September company-level pricing remained dispersed. Analog Devices lagged Texas Instruments across ADCs (+1.0% MoM vs +1.6%), amplifiers (-5.7% vs -0.5%) and DACs (+0.4% vs +2.2%), reversing August's relative strength. In Auto SiC MOSFETs, onsemi led at +8.6% MoM, ahead of STMicro (+7.8%) and Infineon (+2.2%), while Rohm declined 0.7%. NXP led Industrial MCU pricing at +10.0% MoM, followed by STMicro (+6.2%), while Infineon, Renesas and Rohm recorded modest increases. Texas Instruments led Auto MCU at +5.5% MoM, followed by STMicro (+3.3%) and NXP (+2.9%), whereas Infineon fell 3.4%.

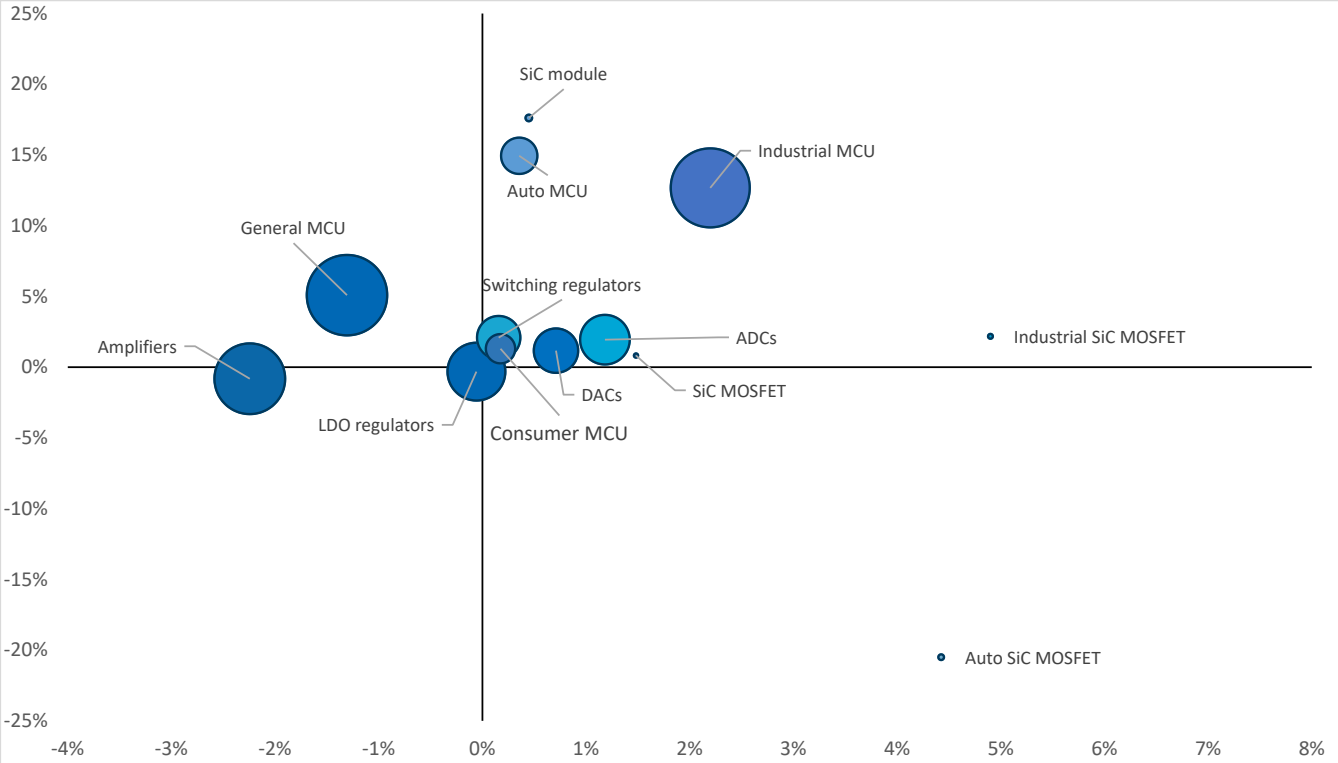

FIGURE 12. September pricing heatmap

Source: Barclays Research

The price/inventory bubble chart combines monthly price change, observed inventory-value change and tracked product count. Bubble size represents sample coverage rather than revenue or shipment significance. Rising prices alongside declining inventory can be consistent with tighter observable availability, while rising prices and inventory provide a less definitive supply-demand signal.

FIGURE 13. September price change vs inventory change

Source: Barclays Research

Company commentary on channel inventory

In 2Q26, channel inventory remained generally lean without broad restocking based on company commentary. Renesas said that its channel inventory increased modestly to JPY169bn from JPY164bn in 1Q26 (+3% QoQ). Onsemi's channel inventory fell to 10.1 weeks, from 10.8 weeks in 1Q26, while Microchip's channel inventory declined to roughly 3.6 weeks, from 3.7 weeks in 1Q26. Analog Devices' channel inventory dropped from 6-7 weeks in 1Q26 to below 6 weeks in 2Q26. Allegro commented on flat channel inventory in 2Q26. NXP saw inventory build, with channel inventory rising to 11 weeks in 2Q26, up from 9 weeks a year ago.

About Barclays Analog Pricing Tracker

BAPT (Barclays Analog Pricing Tracker) tracks pricing, availability and lead times across c300k semiconductor SKUs each week, aggregated into more than 100k products across Analog, MCU and Power categories. As distributors account for a meaningful share of semiconductor sales, the tracker is designed to provide a high-frequency view of channel pricing, price breadth, inventory developments and lead-time trends between earnings periods.

The tracker is intended to identify directional changes in market conditions. In general, broad-based price increases alongside stable or declining inventory can indicate improving

conditions, while the opposite may suggest increasing pricing pressure. Lead times provide additional context on product availability and whether inventories are tightening or easing.

BAPT is not a measure of realised ASPs, company inventory or sales performance. Rather, it provides a consistent view of distributor-channel trends that can help identify developing industry dynamics before they become visible in reported results.

Data Science & Applied AI – Methodology

Vincenzo Pota[iii] Barclays, UK

Methodology

The analysis tracks semiconductor product pricing and inventory across distributors on a weekly basis. The pricing data was scraped from six websites, from which we extracted the product identifier, price, currency and the stock number. Each week we scrape roughly 300k distinct SKUs. The raw data were cleaned and standardised using the python language. Most products are listed in USD, but a few might have foreign currencies. We convert all products to point-in-time USD. Each product's available inventory was calculated by multiplying its average price and units in stock, aggregated by product category and company. Company- and category-level pricing metrics were calculated as equal-weighted averages across observed products, whereas we use weighted average for the overall price trend.

What the analysis shows

The framework is designed to identify the direction, breadth and momentum of pricing and inventory changes. Average price movements indicate whether pricing is firming or weakening; breadth measures show how widely that movement is distributed across products; and the company and category heatmaps identify areas of relative strength or weakness. Comparing pricing with inventory can provide an additional signal: rising prices alongside falling inventory may suggest tightening availability, while declining prices alongside rising inventory may indicate softer demand or excess supply.

Interpretation and limitations

The results should be treated as market indicators rather than revenue-weighted semiconductor ASP trends. Equal weighting can allow small- or low-value products to influence the average as much as high-volume products. Distributor listings may not represent realised transaction prices and may reflect currency movements, minimum-order quantities, promotions, stale listings or changes in product mix. Coverage also varies materially across companies and categories; movements based on small product counts can be volatile and

ly affected by individual products.

Inventory values should likewise be interpreted cautiously. They represent observed distributor inventory valued at listed prices, rather than companies' total channel or balance sheet inventory. Changes may reflect distributor coverage, product additions or removals, data availability and price movements as well as genuine unit stock changes. Consequently, extreme percentage changes, particularly from a low starting base, require product-level validation.

Signals suggested

The most robust signals are price direction, breadth and inventory movement over the periods. Broad price increases accompanied by stable or declining inventory may indicate improving supply/demand conditions. Conversely, broad price declines alongside rising inventory may signal pricing pressure. Divergences such as rising average prices but weak breadth often

indicate that a small number of products are driving the result and should be interpreted with less confidence.

Analyst(s) Certification(s):
We, Tom O'Malley, Simon Coles, CFA and Vincenzo Pota, hereby certify (1) that the views expressed in this research report accurately reflect our personal views about any or all of the subject securities or issuers referred to in this research report and (2) no part of our compensation was, is or will be directly or indirectly related to the specific recommendations or views expressed in this research report.

Important Disclosures:
Barclays Research is produced by the Investment Bank of Barclays Bank PLC and its affiliates (collectively and each individually, "Barclays"). All authors contributing to this research report are Research Analysts unless otherwise indicated. The publication date at the top of the report reflects the local time where the report was produced and may differ from the release date provided in GMT.

Availability of Disclosures:
For current important disclosures regarding any companies that are the subject of this research report, please refer to https://publicresearch.barclays.com or alternatively send a written request to: Barclays Compliance Control Room, 745 Seventh Avenue, 28th Floor, New York, NY 10019.

The analysts responsible for preparing this research report have received compensation based upon various factors including the firm's total revenues, a portion of which is generated by investment banking activities, the profitability and revenues of the Markets business and the potential interest of the firm's investing clients in research with respect to the asset class covered by the analyst.

Research analysts employed outside the US by affiliates of Barclays Capital Inc. are not registered/qualified as research analysts with FINRA. Such non-US research analysts may not be associated persons of Barclays Capital Inc., which is a FINRA member, and therefore may not be subject to FINRA Rule 2241 restrictions on communications with a subject company, public appearances and trading securities held by a research analyst's account.

Analysts regularly conduct site visits to view the material operations of covered companies, but Barclays policy prohibits them from accepting payment or reimbursement by any covered company of their travel expenses for such visits.

Barclays Research Department produces various types of research including, but not limited to, fundamental analysis, equity-linked analysis, quantitative analysis, and trade ideas. Recommendations contained in one type of Barclays Research may differ from those contained in other types of Barclays Research, whether as a result of differing time horizons, methodologies, or otherwise.

In order to access Barclays Statement regarding Research Dissemination Policies and Procedures, please refer to https://publicresearch.barclays.com/S/RD.htm. In order to access Barclays Research Conflict Management Policy Statement, please refer to: https://publicresearch.barclays.com/S/CM.htm.

Materially Mentioned Stocks (Ticker, Date, Price)

Guide to the Barclays Fundamental Equity Research Rating System:
Our coverage analysts use a relative rating system in which they rate stocks as Overweight, Equal Weight or Underweight (see definitions below) relative to other companies covered by the analyst or a team of analysts that are deemed to be in the same industry (the "industry coverage universe").

In addition to the stock rating, we provide industry views which rate the outlook for the industry coverage universe as Positive, Neutral or Negative (see definitions below). A rating system using terms such as buy, hold and sell is not the equivalent of our rating system. Investors should carefully read the entire research report including the definitions of all ratings and not infer its contents from ratings alone.

Stock Rating
Overweight - The stock is expected to outperform the unweighted expected total return of the industry coverage universe over a 12-month investment horizon.

Equal Weight - The stock is expected to perform in line with the unweighted expected total return of the industry coverage universe over a 12-month investment horizon.

Underweight - The stock is expected to underperform the unweighted expected total return of the industry coverage universe over a 12-month investment horizon.

Rating Suspended - The rating and target price have been suspended temporarily due to market events that made coverage impracticable or to comply with applicable regulations and/or firm policies in certain circumstances including where the Investment Bank of Barclays Bank PLC is acting in an advisory capacity in a merger or strategic transaction involving the company.

Industry View
Positive - industry coverage universe fundamentals/valuations are improving.

Neutral - industry coverage universe fundamentals/valuations are steady, neither improving nor deteriorating.

Negative - industry coverage universe fundamentals/valuations are deteriorating.

Below is the list of companies that constitute the "industry coverage universe":

European Technology Hardware

Aixtron (AIXGn.DE)	ams OSRAM (AMS.S)	ASM International N.V. (ASMI.AS)

ASML Holding NV (ASML.AS)	BE Semiconductor Industries NV (BESI.AS)	Ericsson (ERICb.ST)
Infineon Technologies AG (IFXGn.DE)	Nokia (NOKIA.HE)	Nordic Semiconductor ASA (NOD.OL)
Samsung Electronics Co Ltd (0593xq.L)	SK Hynix Inc.. Adr (SKHY)	Soitec (SOIT.PA)
cs NV (STM.PA)	Taiwan Semiconductor Manufacturing Company (TSM)	Tower Semiconductor Ltd (TSEM.O)

U.S. Semiconductors & Semiconductor Capital Equipment

Advanced Micro Devices (AMD)	Allegro Microsystems (ALGM)	Analog Devices (ADI)
Applied Materials Inc. (AMAT)	Arm Holdings plc (ARM)	Astera Labs, Inc. (ALAB)
Broadcom Inc. (AVGO)	Camtek (CAMT)	Cerebras Systems Inc. (CBRS)
Cirrus Logic Inc. (CRUS)	Coherent Corp. (COHR)	Credo Technology Group (CRDO)
Intel Corp. (INTC)	KLA Corporation (KLAC)	Lam Research Corporation (LRCX)
Lumentum Holdings Inc. (LITE)	MACOM Technology Solutions Holdings, Inc. (MTSI)	Marvell Technology Group, Ltd. (MRVL)
Microchip Technology (MCHP)	Micron Technology, Inc. (MU)	Nova Limited (NVMI)
NVIDIA Corp. (NVDA)	NXP Semiconductors NV (NXPI)	ON Semiconductor (ON)
Penguin Solutions (PENG)	QUALCOMM, Inc. (QCOM)	Sandisk Corporation (SNDK)
Seagate Technology plc (STX)	Silicon Laboratories, Inc. (SLAB)	SiTime Corporation (SITM)
Skyworks Solutions, Inc. (SWKS)	Synaptics Incorporated (SYNA)	Texas Instruments, Inc. (TXN)
Veeco Instruments Inc (VECO)	Western Digital Corporation (WDC)	

Distribution of Ratings:
Barclays Equity Research has 1817 companies under coverage.

52% have been assigned an Overweight rating which, for purposes of mandatory regulatory disclosures, is classified as a Buy rating; 47% of companies with this rating are investment banking clients of the Firm; 65% of the issuers with this rating have received financial services from the Firm.

33% have been assigned an Equal Weight rating which, for purposes of mandatory regulatory disclosures, is classified as a Hold rating; 40% of companies with this rating are investment banking clients of the Firm; 60% of the issuers with this rating have received financial services from the Firm.

14% have been assigned an Underweight rating which, for purposes of mandatory regulatory disclosures, is classified as a Sell rating; 32% of companies with this rating are investment banking clients of the Firm; 56% of the issuers with this rating have received financial services from the Firm.

Guide to the Barclays Research Price Target:
Each analyst has a single price target on the stocks that they cover. The price target represents that analyst's expectation of where the stock will trade in the next 12 months. Upside/downside scenarios, where provided, represent potential upside/potential downside to each analyst's price target over the same 12-month period.

Types of investment recommendations produced by Barclays Equity Research:
In addition to any ratings assigned under Barclays' formal rating systems, this publication may contain investment recommendations in the form of trade ideas, thematic screens, scorecards or portfolio recommendations that have been produced by analysts within Equity Research. Any such investment recommendations shall remain open until they are subsequently amended, rebalanced or closed in a future research report.

Barclays may also re-distribute equity research reports produced by third-party research providers that contain recommendations that differ from and/or conflict with those published by Barclays' Equity Research Department.

Disclosure of other investment recommendations produced by Barclays Equity Research:
Barclays Equity Research may have published other investment recommendations in respect of the same securities/instruments recommended in this research report during the preceding 12 months. To view all investment recommendations published by Barclays Equity Research in the preceding 12 months please refer to https://live.barcap.com/go/research/Recommendations.

Disclaimer:
This publication has been produced by Barclays Research Department in the Investment Bank of Barclays Bank PLC and/or one or more of its affiliates (collectively and each individually, "Barclays").

It has been prepared for institutional investors and not for retail investors. It has been distributed by one or more Barclays affiliated legal entities listed below or by an independent and non-affiliated third-party entity (as may be communicated to you by such third-party entity in its communications with you). It is provided for information purposes only, and Barclays makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to any data included in this publication. Barclays may provide research to certain categories of recipients that do not use it for investment purposes, including public and private companies in covered industries, media organisations, regulators, and academic institutions that use such research for their own internal informational, news gathering, regulatory or academic purposes. To the extent that this publication states on the front page that it is intended for institutional investors and is not subject to all of the independence and disclosure standards applicable to debt research reports prepared for retail investors under U.S. FINRA Rule 2242, it is an “institutional debt research report” and distribution to retail investors is strictly prohibited. Media organisations are prohibited from re-publishing any opinion or recommendation concerning a debt issuer or debt security contained in any Barclays institutional debt research report. Any recipients that do not want to continue receiving Barclays institutional debt research reports should contact debtresearch@barclays.com. Unless clients have agreed to receive “institutional debt research reports” as required by US FINRA Rule 2242, they will not receive any such reports that may be co-authored by non-debt research analysts. Eligible clients may get access to such cross asset reports by contacting debtresearch@barclays.com. Barclays will not treat unauthorized recipients of this report as its clients and accepts no liability for use by them of the contents which may not be suitable for their personal use. Prices shown are indicative and Barclays is not offering to buy or sell or soliciting offers to buy or sell any financial instrument.

Without limiting any of the foregoing and to the extent permitted by law, in no event shall Barclays, nor any affiliate, nor any of their respective officers, directors, partners, or employees have any liability for (a) any special, punitive, indirect, or consequential damages; or (b) any lost profits, lost revenue, loss of anticipated savings or loss of opportunity or other financial loss, even if notified of the possibility of such damages, arising from any use of this publication or its contents.

Other than disclosures relating to Barclays, the information contained in this publication (including third-party data) has been obtained from sources that Barclays Research believes to be reliable, but Barclays does not represent or warrant that it is accurate or complete. Third-party data, including third-party forecasts and predictions, is provided for information purposes only, has not been adopted or endorsed by Barclays, and does not represent the views or opinions of Barclays. Presentations by Third-Party Speakers: Any views or opinions expressed by third-party speakers during a Barclays-hosted event are solely those of the speaker and do not represent the views or opinions of Barclays. Barclays is not responsible for, and makes no warranties whatsoever as to, the information or opinions contained in any written, electronic, audio or video presentations by any third-party speakers, and such presentations have not been adopted or endorsed by Barclays and do not represent the views or opinions of Barclays. Content from third-party presentations is provided for information purposes only and has not been independently verified by Barclays for its accuracy or completeness.

The views in this publication are solely and exclusively those of the authoring analyst(s) and are subject to change, and Barclays Research has no obligation to update its opinions or the information in this publication. Unless otherwise disclosed herein, the analysts who authored this report have not received any compensation from the subject companies in the past 12 months. If this publication contains recommendations, they are general recommendations that were prepared independently of any other interests, including those of Barclays and/or its affiliates, and/or the subject companies. This publication does not contain personal investment recommendations or investment advice or take into account the individual financial circumstances or investment objectives of the clients who receive it. Barclays is not a fiduciary to any recipient of this publication. The securities and other investments discussed herein may not be suitable for all investors and may not be available for purchase in all jurisdictions. The United States imposed sanctions on certain Chinese companies (https://ofac.treasury.gov/sanctions-programs-and-country-information/chinese-military-companies-sanctions), which may restrict U.S. persons from purchasing securities issued by those companies. Investors must independently evaluate the merits and risks of the investments discussed herein, including any sanctions restrictions that may apply, consult any independent advisors they believe necessary, and exercise independent judgment with regard to any investment decision. The value of and income from any investment may fluctuate from day to day as a result of changes in relevant economic markets (including changes in market liquidity). The information herein is not intended to predict actual results, which may differ substantially from those reflected. Past performance is not necessarily indicative of future results. The information provided does not constitute a financial benchmark and should not be used as a submission or contribution of input data for the purposes of determining a financial benchmark.

This publication is not investment company sales literature as defined by Section 270.24(b) of the US Investment Company Act of 1940, nor is it intended to constitute an offer, promotion or recommendation of, and should not be viewed as marketing (including, without limitation, for the purposes of the UK Alternative Investment Fund Managers Regulations 2013 (SI 2013/1773) or AIFMD (Directive 2011/61)) or pre-marketing (including, without limitation, for the purposes of Directive (EU) 2019/1160) of the securities, products or issuers that are the subject of this report.

Third Party Distribution: Any views expressed in this communication are solely those of Barclays and have not been adopted or endorsed by any third party distributor.

United Kingdom: This document is being distributed (1) only by or with the approval of an authorised person (Barclays Bank PLC) or (2) to, and is directed at (a) persons in the United Kingdom having professional experience in matters relating to investments and who fall within the definition of "investment professionals" in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order"); or (b) high net worth companies, unincorporated associations and partnerships and trustees of high value trusts as described in Article 49(2) of the Order; or (c) other persons to whom it may otherwise lawfully be communicated (all such persons being "Relevant Persons"). Any investment or investment activity to which this communication relates is only available to and will only be engaged in with Relevant Persons. Any other persons who receive this communication should not rely on or act upon it. Barclays Bank PLC is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority and is a member of the London Stock Exchange.

European Economic Area (“EEA”): This material is being distributed to any “Authorised User” located in a Restricted EEA Country by Barclays Bank Ireland PLC. The Restricted EEA Countries are Austria, Bulgaria, Estonia, Finland, Hungary, Iceland, Liechtenstein, Lithuania, Luxembourg, Malta,

Portugal, Romania, Slovakia and Slovenia. For any other "Authorised User" located in a country of the European Economic Area, this material is being distributed by Barclays Bank PLC. Barclays Bank Ireland PLC is a bank authorised by the Central Bank of Ireland whose registered office is at 1 Molesworth Street, Dublin 2, Ireland. Barclays Bank PLC is not registered in France with the Autorité des marchés financiers or the Autorité de contrôle prudentiel. Authorised User means each individual associated with the Client who is notified by the Client to Barclays and authorised to use the Research Services. The Restricted EEA Countries will be amended if required.

Finland: Notwithstanding Finland's status as a Restricted EEA Country, Research Services may also be provided by Barclays Bank PLC where permitted by the terms of its cross-border license.

Americas: The Investment Bank of Barclays Bank PLC undertakes U.S. securities business in the name of its wholly owned subsidiary Barclays Capital Inc., a FINRA and SIPC member. Barclays Capital Inc., a U.S. registered broker/dealer, is distributing this material in the United States and, in connection therewith accepts responsibility for its contents. Any U.S. person wishing to effect a transaction in any security discussed herein should do so only by contacting a representative of Barclays Capital Inc. in the U.S. at 745 Seventh Avenue, New York, New York 10019.

Non-U.S. persons should contact and execute transactions through a Barclays Bank PLC branch or affiliate in their home jurisdiction unless local regulations permit otherwise.

This material is distributed in Canada by Barclays Capital Canada Inc., a registered investment dealer, a Dealer Member of Canadian Investment Regulatory Organization (www.ciro.ca), and a Member of the Canadian Investor Protection Fund (CIPF).

This material is distributed in Mexico by Barclays Bank Mexico, S.A. and/or Barclays Capital Casa de Bolsa, S.A. de C.V. This material is distributed in the Cayman Islands and in the Bahamas by Barclays Capital Inc., which it is not licensed or registered to conduct and does not conduct business in, from or within those jurisdictions and has not filed this material with any regulatory body in those jurisdictions.

Japan: This material is being distributed to institutional investors in Japan by Barclays Securities Japan Limited. Barclays Securities Japan Limited is a joint-stock company incorporated in Japan with registered office of 6-10-1 Roppongi, Minato-ku, Tokyo 106-6131, Japan. It is a subsidiary of Barclays Bank PLC and a registered financial instruments firm regulated by the Financial Services Agency of Japan. Registered Number: Kanto Zaimukyokucho (kinsho) No. 143.

Asia Pacific (excluding Japan): Barclays Bank PLC, Hong Kong Branch is distributing this material in Hong Kong as an authorised institution regulated by the Hong Kong Monetary Authority. Registered Office: 41/F, Cheung Kong Center, 2 Queen's Road Central, Hong Kong.

All Indian securities-related research and other equity research produced by Barclays' Investment Bank are distributed in India by Barclays Securities (India) Private Limited (BSIPL). BSIPL is a company incorporated under the Companies Act, 1956 having CIN 61063. BSIPL is registered and regulated by the Securities and Exchange Board of India (SEBI) as a Research Analyst: INH000001519; Portfolio Manager INP000002585; Stock Broker INZ000269539 (member of NSE and BSE); Depository Participant with the National Securities & Depositories Limited (NSDL): DP ID: IN-DP-NSDL-478-2020; Investment Adviser: INA000000391. BSIPL is also registered as a Mutual Fund Advisor having AMFI ARN No. 53308. The registered office of BSIPL is at Nirlon Knowledge Park, 9th floor, Block B-6, Off. Western Express Highway, Goregaon (East), Mumbai – 400063, India. Telephone No: +91 22 61754000 Fax number: +91 22 61754099. Any other reports produced by Barclays' Investment Bank are distributed in India by Barclays Bank PLC, India Branch, an associate of BSIPL in India that is registered with Reserve Bank of India (RBI) as a Banking Company under the provisions of The Banking Regulation Act, 1949 (Regn No BOM43) and registered with SEBI as Merchant Banker (Regn No INM000002129) and also as Banker to the Issue (Regn No INBI00000950). Barclays Investments and Loans (India) Limited, registered with RBI as Non Banking Financial Company (Regn No RBI CoR-07-00258), and Barclays Wealth Trustees (India) Private Limited, registered with Registrar of Companies (CIN 88438), are associates of BSIPL in India that are not authorised to distribute any reports produced by Barclays' Investment Bank.

This material is distributed in Singapore by the Singapore Branch of Barclays Bank PLC, a bank licensed in Singapore by the Monetary Authority of Singapore. For matters in connection with this material, recipients in Singapore may contact the Singapore branch of Barclays Bank PLC, whose registered address is 10 Marina Boulevard, #23-01 Marina Bay Financial Centre Tower 2, Singapore 018983.

This material, where distributed to persons in Australia, is produced or provided by Barclays Bank PLC.

This communication is directed at persons who are a "Wholesale Client" as defined by the Australian Corporations Act 2001.

Please note that the Australian Securities and Investments Commission (ASIC) has provided certain exemptions to Barclays Bank PLC (BBPLC) under paragraph 911A(2)(l) of the Corporations Act 2001 from the requirement to hold an Australian financial services licence (AFSL) in respect of financial services provided to Australian Wholesale Clients, on the basis that BBPLC is authorised by the Prudential Regulation Authority of the United Kingdom (PRA) and regulated by the Financial Conduct Authority (FCA) of the United Kingdom and the PRA under United Kingdom laws. The United Kingdom has laws which differ from Australian laws. To the extent that this communication involves the provision of financial services by BBPLC to Australian Wholesale Clients, BBPLC relies on the relevant exemption from the requirement to hold an AFSL. Accordingly, BBPLC does not hold an AFSL.

This communication may be distributed to you by either: (i) Barclays Bank PLC directly, (ii) Barrenjoey Markets Pty Limited (ACN 636 976 059, "Barrenjoey"), the holder of Australian Financial Services Licence (AFSL) 521800, a non-affiliated third party distributor, where clearly identified to you by Barrenjoey. Barrenjoey is not an agent of Barclays Bank PLC or (iii) such other non-affiliated third-party distributor(s) as may be clearly identified to you. Such non-affiliated third-party distributor(s) are not agents of Barclays Bank PLC.

This material, where distributed in New Zealand, is produced or provided by Barclays Bank PLC. Barclays Bank PLC is not registered, filed with or approved by any New Zealand regulatory authority. This material is not provided under or in accordance with the Financial Markets Conduct Act of 2013 ("FMCA"), and is not a disclosure document or "financial advice" under the FMCA. This material is distributed to you by either: (i) Barclays Bank PLC directly or (ii) Barrenjoey Markets Pty Limited ("Barrenjoey"), a non-affiliated third party distributor, where clearly identified to you by Barrenjoey. Barrenjoey is not an agent of Barclays Bank PLC. This material may only be distributed to "wholesale investors" that meet the "investment business", "investment activity", "large", or "government agency" criteria specified in Schedule 1 of the FMCA.

Middle East: Nothing herein should be considered investment advice as defined in the Israeli Regulation of Investment Advisory, Investment Marketing and Portfolio Management Law, 1995 ("Advisory Law"). This document is being made to eligible clients (as defined under the Advisory Law) only. Barclays Israeli branch previously held an investment marketing license with the Israel Securities Authority but it cancelled such license on 30/11/2014 as it solely provides its services to eligible clients pursuant to available exemptions under the Advisory Law, therefore a license with the Israel Securities Authority is not required. Accordingly, Barclays does not maintain an insurance coverage pursuant to the Advisory Law.

This material is distributed in the United Arab Emirates (including the Dubai International Financial Centre) and Qatar by Barclays Bank PLC. Barclays Bank PLC in the Dubai International Financial Centre (Registered No. 0060) is regulated by the Dubai Financial Services Authority (DFSA). Principal place of business in the Dubai International Financial Centre: The Gate Village, Building 4, Level 4, PO Box 506504, Dubai, United Arab Emirates. Barclays Bank PLC-DIFC Branch, may only undertake the financial services activities that fall within the scope of its existing DFSA licence. Related financial products or services are only available to Professional Clients, as defined by the Dubai Financial Services Authority. Barclays Bank PLC in the UAE is regulated by the Central Bank of the UAE and is licensed to conduct business activities as a branch of a commercial bank incorporated outside the UAE in Dubai (Licence No.: 13/1844/2008, Registered Office: Building No. 6, Burj Dubai Business Hub, Sheikh Zayed Road, Dubai City) and Abu Dhabi (Licence No.: 13/952/2008, Registered Office: Al Jazira Towers, Hamdan Street, PO Box 2734, Abu Dhabi). This material does not constitute or form part of any offer to issue or sell, or any solicitation of any offer to subscribe for or purchase, any securities or investment products in the UAE (including the Dubai International Financial Centre) and accordingly should not be construed as such. Furthermore, this information is being made available on the basis that the recipient acknowledges and understands that the entities and securities to which it may relate have not been approved, licensed by or registered with the UAE Central Bank, the Dubai Financial Services Authority or any other relevant licensing authority or governmental agency in the UAE. The content of this report has not been approved by or filed with the UAE Central Bank or Dubai Financial Services Authority. Barclays Bank PLC in the Qatar Financial Centre (Registered No. 00018) is authorised by the Qatar Financial Centre Regulatory Authority (QFCRA). Barclays Bank PLC-QFC Branch may only undertake the regulated activities that fall within the scope of its existing QFCRA licence. Principal place of business in Qatar: Qatar Financial Centre, Office 1002, 10th Floor, QFC Tower, Diplomatic Area, West Bay, PO Box 15891, Doha, Qatar. Related financial products or services are only available to Business Customers as defined by the Qatar Financial Centre Regulatory Authority.

Russia: This material is not intended for investors who are not Qualified Investors according to the laws of the Russian Federation as it might contain information about or description of the features of financial instruments not admitted for public offering and/or circulation in the Russian Federation and thus not eligible for non-Qualified Investors. If you are not a Qualified Investor according to the laws of the Russian Federation, please dispose of any copy of this material in your possession.

Sustainable Investing Related Research: There is currently no globally accepted framework or definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes a 'sustainable', 'ESG', 'green', 'climate-friendly' or an equivalent company, investment, strategy or consideration or what precise attributes are required to be eligible to be categorised by such terms. This means there are different ways to evaluate a company or an investment and so different values may be placed on certain sustainability credentials as well as adverse ESG-related impacts of companies and ESG controversies. The evolving nature of sustainable investing considerations, models and methodologies means it can be challenging to definitively and universally classify a company or investment under a sustainable investing label and there may be areas where such companies and investments could improve or where adverse ESG-related impacts or ESG controversies exist. The evolving nature of sustainable finance related regulations and the development of jurisdiction-specific regulatory criteria also means that there is likely to be a degree of divergence as to the interpretation of such terms in the market. We expect industry guidance, market practice, and regulations in this field to continue to evolve.

Any information, data, image, or other content including from a third party source contained, referred to herein or used for whatsoever purpose by Barclays or a third party ("Information"), in relation to any actual or potential 'ESG', 'sustainable' or equivalent objective, issue, factor or consideration is not intended to be relied upon for ESG or sustainability classification, regulatory regime or industry initiative purposes ("ESG Regimes"), unless otherwise stated. Nothing in these materials, including any images included therein, is intended to convey, suggest or indicate that Barclays considers or represents any product, service, person or body mentioned in these materials as meeting or qualifying for any ESG or sustainability classification, label or similar standards that may exist under ESG Regimes. Barclays has not conducted any assessment of compliance with ESG Regimes. Parties are reminded to make their own assessments for these purposes.
