Range Intelligent (300442.SZ) reported 3Q26 results moderately below GSe on revenue, EBIT and net profit, while we see several positives across its balance sheet/cash flow and operations: **i) a sharp step-up in AI compute investment to c.Rmb8bn in 3Q26 alone** (vs. c.Rmb10bn in FY2025), with quarterly capex nearly tripling qoq as supply availability improved following strategic partnerships with key supply-chain companies; **ii) planned AI compute investment of up to c.Rmb57bn in 4Q26-1Q27**, supported by recently announced Rmb50bn of new credit facilities and Rmb6.8bn of equity investment from the Export-Import Bank of China into Range's wholly-owned indirect subsidiary; **iii) 290MW of new capacity delivered in China**, comprising 200MW of AIDC and 90MW of IDC capacity; and **iv) the ahead-of-schedule delivery of the first 20MW at Batam**, Range's first overseas campus.

On the P&L, **3Q26 revenue grew 30% yoy to Rmb1.92bn, moderating from 50% yoy growth in 1H26 and coming in 7% below GSe.** EBIT grew 32% yoy (-3% below GSe) while EBITDA increased 44% yoy (-2% vs. GSe). Adjusted net profit rose 25% yoy to Rmb593mn (-9% vs. GSe), excluding the Rmb3.8bn investment gain from the C-REIT listing in 3Q25. **We believe the 3Q26 miss primarily reflects the timing gap between AI compute investment and associated revenue recognition**, which management indicated could be c.4 months. **With AI compute investment stepping up materially in 3Q26 and expected to accelerate further in 4Q26-1Q27, we expect the associated revenue and profit contribution to increasingly come through from 4Q26 onward with favorable ROIC.**

We highlight below, key themes from the management call:

I. AIDC

1. **Surging quarterly AI compute Capex:** The company accelerated server investments in 3Q26, deploying an incremental c.Rmb8bn (vs. Rmb10bn in FY25), following minimal investment activity in 1H26 due to elevated GPU costs and focus on forging supply chain partnerships. PP&E and construction in progress expanded by Rmb8.5bn qoq in 3Q26, while capex grew 170% yoy/+286% qoq to Rmb6.8bn in 3Q26. By comparison, Guangdong HEC (600673.SS, Not Covered) reported 1.5x qoq Capex growth to Rmb17bn in 3Q26, while we expect Kingsoft Cloud's (KC, Buy) 3Q26E Capex to grow +40% qoq to Rmb4.4bn (details in our preview note), reflecting improved

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For Reg AC certification and other important disclosures, see the Disclosure Appendix, or go to www.gs.com/research/hedge.html. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

advanced-compute availability into 2H26 among China's leading AIDC/neocloud operators.

2. **Further AI compute Capex step-up in 4Q26-1Q27 with favorable economics:** Management sees stable channel relationship and remains constructive on future procurement which is backed by its up to Rmb57bn new financing (details in below IV.1). Management aims for c.45% GPM and a 3-year payback period for AIDC business.

II. Domestic IDC business:

1. **Capacity delivery:** Company delivered 90MW of IDC capacity in 3Q26, including 50MW in Chongqing and 40MW in Huizhou (vs. 200MW AIDC delivery in Langfang).
2. **Capacity outlook into 2027 and mid-term:** Capacity expansion in the IDC business could slow in 2027 as the company shifts its focus toward AIDC which provides higher returns vs. the traditional IDC market with intense market competition (also see our prior note China Data Centers: Following the ROIC). That said, management is constructive on long-term IDC demand especially for CPU and memory brought by AI inference/agentic workloads from existing AIDC customers.

III. International Expansion:

1. **Indonesia Batam project:** The company has delivered 20MW, and expects to deliver the remaining 40MW of phase 1 by 4Q26, with USD-denominated revenue generation by 1Q27 from a Singaporean customer. Since obtaining the land in April, the company has demonstrated the ability to deliver capacity within 8-9 months by leveraging a single-floor design and prefabricated standardized cabinets. Company plans for capacity delivery of 100-200MW in 2027, and plans to expand the current 360MW resources in Indonesia to a GW-level campus over the longer term.
2. **Hong Kong project:** Company has secured power supply, and has obtained 24-hour construction permit to accelerate the build-out. Company expects to start capacity delivery in 2027, with full delivery by 2028 which brings its total overseas capacity to 600MW.
3. **Profitability:** Management views overseas IDC as a seller's market and is confident about **higher GPM** in the overseas market (e.g. 56-57% GPM for average HK data center operators, and Rmb5mn per MW EBITDA or 50%+ GPM in Batam).

IV. Capital Markets and Shareholder Return:

1. **Financing:** Range has secured funding to support its AIDC investments, including **Rmb50bn** of new credit facilities and **Rmb6.8bn** of equity funding for its wholly-owned indirect subsidiary Hebei Runlan (including Rmb4.0bn already received from a wholly-owned subsidiary of the Export-Import Bank of China and up to Rmb2.8bn of follow-on financing). The **equity investment is non-dilutive at the listed-company level**, as the funding is raised at the subsidiary level and primarily earmarked for AIDC server procurement, with deployment expected largely in 4Q26/1Q27.
2. **C-REIT:** Management expects the C-REIT expansion to be completed by end-2026

or 1Q27, potentially generating a higher investment gain (vs. Rmb3.8bn in 3Q25 during its first C-REIT listing).

3. **Shareholder return:** Management reiterated their commitment to sustained shareholder returns. The company has distributed c.Rmb4.3bn in cumulative cash dividends since its 2022 listing and repurchased Rmb558mn of shares in 2025. Separately, its controlling shareholder recently announced a Rmb0.5-1.0bn stake-increase plan and had purchased 4.2mn shares (c.Rmb220mn+) as of October 23, bringing the combined ownership of the controlling shareholder and parties acting in concert to 60.0% (excluding shares held in the company's repurchase account), with no shares sold since listing.

Investment Thesis - Range Intelligent

Range Intelligent is one of China's largest data center operators in terms of live capacity (750MW as of 2025) and reserved capacity (6GW as of late, the majority of which has secured power quota approvals). We are Buy-rated as we see Range Intelligent as one of

the fastest growing data center operators in China, with 27%/33% utilized IT capacity/revenue CAGRs for 2025-30E. This growth is supported by its: 1) rich capacity reserves to capture rising computing cluster demand, 2) full-stack AIDC capabilities to enable long-term operational stability and technology investments, 3) strong customer relationships with reduced customer concentration, and 4) diverse, low-cost financing capabilities. We expect the company's GPU-as-a-Service (GPUaaS) investments to generate incremental profitability in a favorable demand and pricing environment. Furthermore, we are positive about its overseas expansion initiatives to capture rising AI demand in the APAC region in the long term, which leverage Range's supply chain and human resource capabilities.

Price Target Risks and Methodology - Range Intelligent

Valuation: Our 12-month target price of Rmb109 is based on a 20x 2030E EV/EBITDA discounted back to end-2026E at a 10% CoE. The 20x target EV/EBITDA multiple is a weighted average of: i) a 25x target EV/EBITDA multiple to the DC operation EBITDA and ii) a 10x target EV/EBITDA multiple to GPUaaS.

Key risks: 1) Lower-than-expected order wins amid a competitive environment; 2) Slower-than-expected utilization rate ramp-up; 3) Larger-than-expected pricing pressure; 4) Worse-than-expected execution in overseas expansion; 5) Changes in chip availability due to regulatory changes, domestic capacity ramp-up delays, etc; 6) Difficulties in financing.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; registered market maker. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.
