

AMERICAS ASSET MANAGERS

More room to run as fundraising hits record, valuations remain attractive

Alternative asset manager stocks have rallied sharply QTD, up 19% on average, though still down 17% YTD. **We think the risk/reward remains attractive for the sector into 2H. Earnings revisions have largely stabilized, with 2026/2027 FRE revisions up 3% on average post 2Q results and valuation multiples remaining broadly compelling - with average NTM P/DE net of SBC at ~19X, a ~16% discount to 5-yr averages.** Implied FRE multiples are similarly below historical levels at 19X on 2027 estimates and an average PEG of just 1.1X (with many trading <1X). Against this, **fundamental strength is largely intact amid (1) Record 2Q fundraising with broadening sources of inflows - not just in Credit; (2) Re-acceleration in Wealth flows and likely peak net outflows from Credit in 2Q/3Q; (3) Mostly robust investment performance, though widening dispersion in returns across managers; and (4) Increasing leverage to the secular AI financing boom, potentially creating upside to management fees and increasing contribution from the rapidly growing capital markets businesses.** As a result, we see management fees accelerating to about 15% on average across the group in 2026-2028E, with TPG, STEP and ARES expected to deliver the fastest growth (18%-20% in mgmt fees). With much of the 2Q beat / revision sources coming from "lower multiple" revenue sources such as transactions fees and FRPR, we expect management fee growth trajectory to become a more critical factor of relative performance within the group. Further, deal activity levels (while still low in absolute terms) are starting to recover and we see meaningful runway for PRE acceleration into 2027. **Taking valuation into account, we see the most share price upside over the next 12-months at TPG (on CL), STEP, CG, HLNE and KKR.**

Key Observations:

- **Record Fundraising with Broader Composition:** Public Alternative Asset Managers raised \$291bn of gross inflows in 2Q26 (\$255bn excluding affiliated insurance mandates), up 23% sequentially and 24% y/y - the strongest quarter on record for the group. Notably, the mix broadened with Credit accounting for ~50% of aggregate inflows relative to its typical 60%+ contribution, as PE, Infrastructure, and Real Estate all stepped up materially. Affiliated insurance contributions moderated to ~13% of total inflows (\$36bn), running below historical levels as managers continue to diversify sources of Credit-related flows.

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For Reg AC certification and other important disclosures, see the Disclosure Appendix, or go to www.gs.com/research/hedge.html. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

- **Retail/Wealth Channel Finding a Bottom:** Gross inflows into evergreen retail products decelerated to ~\$16bn in 2Q from ~\$20bn in 1Q amid pressures in Credit. That said we think Wealth flows are likely to accelerate into 3Q and beyond as **1)** Gross inflows outside of Credit re-accelerated through July with many running near record levels – particularly in Infra funds; **2)** Inflows into Credit have bottomed at about 9% annualized gross inflow rate; **3)** Redemptions from Private Credit have likely peaked as nearly 50% of requests in 2Q came from offshore accounts (that account for an estimated <30% of industry assets) where pace of redemptions has started to subside, while US has been more stable; **4)** Expansion into new channels and wrappers remains underway.
- **Growth Trends Remain Healthy:** FPAUM increased ~4% q/q and ~17% y/y, with organic management fees growing 11% y/y – led by STEP and HLNE at 32% and 21%, respectively, while CG and BX were at the lower end. Within that, Retail fees grew +39% y/y, Affiliated Insurance +17% y/y, and the rest of the business (Institutional funds and SMAs) +7% y/y. Looking ahead, we estimate ~15% organic management fee growth in 2026–2028, led by TPG, STEP and ARES.
- **Transaction Fees Emerging as a Structural Driver:** Aggregate transaction/capital markets fees crossed \$1bn for the first time in 2Q (up 20% q/q, +44% y/y), now representing ~10% of FRR vs. 7%–8% historically. Contribution skews toward the credit-oriented, capital formation-heavy franchises, though others are increasingly building out these capabilities. We expect this stream to remain structurally important given the scale of capital required to fund the AI infrastructure buildout, and forecast growth of 26% in 2026E and 17% in 2027E.
- **Deployment Accelerating; Available Capital at Record Levels:** Deployment volumes accelerated to \$158bn in 2Q26, up 12% sequentially and 22% y/y, with strength across Credit, Private Equity, and Real Assets. Available Capital increased 8% q/q to a record \$946bn, led by Private Equity at +13% q/q. Most management teams struck a constructive tone amid healthy investment pipelines, with AI/Digital infrastructure a recurring theme and Credit continuing to benefit from wider spreads. Notably, pace of Corp PE announcements has picked up in 3Q so far.
- **Realizations Softer Q/Q but Pipelines Building:** Aggregate realizations (ex-Credit) totaled \$59bn in 2Q, down 9% sequentially from 1Q peak but +20% y/y. Management teams struck a more constructive tone on the exit environment relative to last quarter, pointing to a healthier pipeline into 2H26/2027. We estimate PRE growth of 21% in 2026, accelerating to ~40% y/y in 2027. Portfolio performance rebounded broadly and Net Accrued Carry balances were up 3% q/q.

Fundraising: Record 2Q inflows with broader mix; Retail Private Credit finding a floor

Following a strong 1Q, Public Alt managers posted a record fundraising quarter with \$291bn of gross inflows in 2Q, or \$255bn excluding affiliated insurance mandates - up 23% sequentially and 24% y/y. Notably, the composition of inflows broadened meaningfully this quarter, with Credit accounting for ~50% of aggregate inflows, running below its typical contribution of 60%+, as PE, Infrastructure, and Real Estate all stepped up. Affiliated insurance contributions moderated to ~13% of total inflows (\$36bn), running below historical levels as managers continue to diversify sources of Credit-related flows. Evergreen / Retail Private Credit dynamics remain the near-term pressure point, though we believe flows have started to find a bottom with June subscriptions accelerating relative to May. Away from Wealth, institutional demand and fundraising outlook remains largely intact, and in some cases accelerating. Key notables include:

- **Growth trends remain healthy:** FPAUM increased ~4% q/q and ~17% y/y, with organic management fees growing 11% y/y — with STEP and HLNE leading at 32% and 21%, respectively, while CG and BX were at the lower end. Within these growth rates, management fees from Retail grew +39% y/y, Affiliated Insurance fees grew +17% y/y, while the rest of the business (typical Institutional funds and SMAs) grew +7% y/y. Looking ahead, we estimate 2026 organic management fee growth of ~14% on average and a 2025–2028E management fee CAGR of also 14%, with STEP, HLNE, and KKR expected to be at the upper end of the range.
- **Private Credit:** While attention remains focused on the retail channel, growth dynamics in private credit as a whole remain solid. 2Q inflows totaled \$137bn, up 5% y/y. Institutional demand continues to build given slightly wider spreads, less competition for deal flow from retail vehicles and improved terms, while momentum in Private IG and ABF strategies has accelerated given AI-related infrastructure financing needs.
- **Evergreen / Wealth Channel:** Gross inflows into evergreen retail products decelerated to ~\$16bn in 2Q, down from ~\$20bn in 1Q, with 2Q gross flows down roughly 50% vs. 1Q on average - almost entirely on the back of lower flows into Credit. Redemption requests from Private Credit funds spiked to an annualized rate of ~55%, though most funds continue to cap actual redemptions at a ~5% quarterly (20% annualized) limit. Notably, across the larger BDCs, the majority of 2Q redemption requests came from offshore investors (outside of ASIF). Encouragingly, June showed an acceleration relative to May, and run-rating June 1 gross flows implies a 9% gross new asset rate (weighted avg., incl. DRIP) - which against a 20% capped redemption rate equates to roughly an 11% annualized net outflow pace, or about \$18bn–\$20bn in net outflows per year. HLNE and BX remain the most exposed to the Wealth channel as a percentage of Fee Related Revenues.
 - **Outside of Credit,** the broader Retail/Wealth alternatives market has weathered the backdrop well. We expect gross flows across the group to start building from 2Q levels through 2028, with overall retail fees (mgmt fees + FRPR) growth moderating in 2026/1H27 before recovering in 2H27 and beyond - following ~45% growth in 2025, we look for ~35% in 2026 and ~25%

in 2027/2028E. Specifically, flows into non-credit products have been accelerating with June/July flows of ~\$4bn both months, ~19% above its 1Q monthly average of \$3.4bn. The biggest driver of incremental flows has been Infrastructure with consecutive ~\$2bn gross flow months and is now the biggest driver of flows in the Wealth channel.

- **Wrapper and product evolution** remains a major focus across Alt managers with newer structures increasingly viewed as the next leg of growth for Retail. Management teams spoke to **1)** blended public-private products that pair traditional managers' public strategies with private sleeves, **2)** model portfolios that embed private markets into advisors' existing asset-allocation frameworks, **3)** white labelling where managers supply the investment engine inside someone else's branded solution, and **4)** direct RIA distribution is the least penetrated sub-channel, now being addressed with interval funds, dedicated sales coverage, and advisor education. 401(k) product development also remains an active area with several recently announced products/partnerships (KKR/Capital, AB/BAM/CG, etc.).

Exhibit 15: The group saw record fundraising in 2Q with inflows (ex-M&A, ex-affiliated Insurance) of \$255bn
Quarterly Capital Inflows (\$bn; LHS); TTM Capital Inflows (\$bn; RHS)

Excludes M&A and captive insurance inflows.

Transaction Fees: Increasingly structural and accelerating revenue stream

Aggregate transaction/cap mkts. fees across alt managers reached >\$1bn in 2Q (up 20% q/q, +44% y/y), now representing 10% of FRR for the group, up from 7%-8% historically. Contribution skews heavily toward the credit-oriented/capital formation heavy franchises (APO, KKR), though others are increasingly building out these capabilities.

We expect this stream to remain a structurally important driver of fee revenue given the scale of capital required to fund the AI infrastructure buildout. APO cited \$8tn of financing needed over the coming years which we expect private capital to increasingly participate in given current industry dynamics, likely keeping origination, structuring, and syndication fees elevated. We expect aggregate transaction/cap mkts. fees to grow 26% in 2026E and 17% in 2027E, with capital markets activity related to AI infrastructure as the key incremental driver alongside the more traditional deployment and exit-linked transaction fee base.

Exhibit 41: The group's aggregate transaction/cap mkts. fees reach >\$1bn in 2Q, accounting for 10% of FRR

Source: Company data, Goldman Sachs Global Investment Research

Exhibit 42: APO and TPG saw the biggest FRR contribution from cap mkts fees in 2Q, while OWL and BAM were at the lower end

Source: Company data, Goldman Sachs Global Investment Research

Exhibit 43: We expect aggregate transaction fees/cap mkts fees to grow 26%/17% in 2026/27E

Deployment: Broad-based acceleration against record available capital, constructive 2H26 outlook

Deployment volumes accelerated to \$158bn in 2Q26, up 12% sequentially and 22% y/y, marking a rebound from the seasonally slower prior quarter. The q/q increase was broad-based, driven primarily by Credit on a dollar basis but also with gains across Private Equity and Real Assets. Credit deployment increased 10% q/q (and +14% y/y) to \$85bn, PE deployment rose 30% q/q, and Real Assets deployment was up 14% q/q at \$37bn (+53% y/y), while Secondaries/Solutions declined 12%. Available Capital increased 8% q/q to a record \$946bn across public Alt Managers, led by Private Equity which saw a 13% q/q increase. Most management teams struck a constructive tone on deployment amid record available capital and healthy investment pipelines, with activity showing solid trends into the back half of the year. AI/Digital infrastructure related deployment remained a recurring theme in terms of attractive opportunities, while Credit continues to benefit from wider spreads, supporting both Direct Lending and Opportunistic credit strategies.

Exhibit 44: 2Q deployment accelerated sequentially to \$158bn

Deployment (\$bn)

Realizations: Timing-driven q/q step down; management tone more constructive on 2H26/2027 exits

Aggregate realizations (ex. Credit) totaled \$59bn in 2Q, down 9% sequentially from last quarter's peak but +20% y/y. The sequential decline was broad-based across PE (-13% q/q), Credit (-9% q/q), and Secondaries (-26% q/q) - partially offset by Real Assets which was up 4% sequentially. On the forward, management teams struck a more constructive tone on the exit environment relative to last quarter, pointing to a healthier pipeline with the back half of the year and into 2027 expected to see a pickup in activity. We estimate PRE growth of 21% in 2026, accelerating to ~40% y/y in 2027.

Portfolio performance was strong across the board following a softer 1Q, with a broad recovery in marks. PE and Infra saw the highest marks at +4.3% and 3.8%, respectively. Credit marks of +1.9% rebounded from last quarter with continued dispersion across managers. Real Assets and Secondaries posted +0.8%/+0.3%. Looking ahead, we expect continued dispersion across managers based on underwriting discipline, vintage age, and sector exposures. Net Accrued Carry balances increased 3% q/q on the back of strong performance and slower realization activity, with most managers seeing sequential gains outside of CG and HLNE.

Exhibit 50: 2Q realization activity was down sequentially, though up 20% YoY

Public Alt Managers realizations at fair value

Source: Company data, Goldman Sachs Global Investment Research

Exhibit 51: 2Q performance was strong across the board following a weaker 1Q

Disclosure Appendix

Reg AC

We, Alexander Blostein, CFA, Michael Vinci, Anthony Corbin and Aditya Sharma, CFA, hereby certify that all of the views expressed in this report accurately reflect our personal views about the subject company or companies and its or their securities. We also certify that no part of our compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Unless otherwise stated, the individuals listed on the cover page of this report are analysts in Goldman Sachs' Global Investment Research division.

Contributing Authors: Alexander Blostein, CFA Goldman Sachs & Co. LLC, Michael Vinci Goldman Sachs & Co. LLC, Anthony Corbin Goldman Sachs & Co. LLC, Aditya Sharma, CFA Goldman Sachs India SPL.

Unless otherwise stated, the individuals listed in the Contributing Authors disclosure of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

Rating and pricing information

Apollo Global Management Inc. (Buy, \$132.02), Ares Management Corp. (Buy, \$137.66), Blackstone Group (Neutral, \$141.66), Blue Owl Capital (Neutral, \$11.65), Brookfield Asset Management (Buy, \$52.84), Carlyle Group (Buy, \$47.80), Hamilton Lane Inc. (Buy, \$100.36), KKR & Co. (Buy, \$103.83), StepStone Group (Buy, \$46.15) and TPG Inc. (Buy, \$49.40)

Distribution of ratings/investment banking relationships

Goldman Sachs Investment Research global Equity coverage universe

	Rating Distribution			Investment Banking Relationships		
	Buy	Hold	Sell	Buy	Hold	Sell
Global	50%	34%	16%	65%	59%	43%

As of July 1, 2026, Goldman Sachs Global Investment Research had investment ratings on 3,104 equity securities. Goldman Sachs assigns stocks as Buys and Sells on various regional Investment Lists; stocks not so assigned are deemed Neutral. Such assignments equate to Buy, Hold and Sell for the purposes of the above disclosure required by the FINRA Rules. See 'Ratings, Coverage universe and related definitions' below. The Investment Banking Relationships chart reflects the percentage of subject companies within each rating category for whom Goldman Sachs has provided investment banking services within the previous twelve months.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst**

compensation: Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at <https://www.gs.com/worldwide/brazil/area/gir/index.html>. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: <https://www.goldmansachs.com/worldwide/india/research-analyst>. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at <https://www.gs.com/disclosures/europeanpolicy.html> which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total

return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs do Brasil Corretora de Títulos e Valores Mobiliários S.A.; Public Communication Channel Goldman Sachs Brazil: 0800 727 5764 and / or contatogoldmanbrasil@gs.com. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints.

As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
